Women as Well as Men Are Made Miserable by Kidney Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one dollar sizes. You may have a sample bottle by mail free, also pamphlet telling all about it, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper.

When I N Cooper opened the Methodist church for prayer meeting Thursday evening he found that some one had been there the night before. Entrance had been obtained by taking off the screen from the southwest window, raising the window and crawling through. Fire had been built in one stove and evidently kept up all night, as the woodbox full of wood was all burned. A lunch of buns and cheese had been eaten, the pulpit being used as a table. The carpet in front of the pulpit had been torn loose from the floor about half way across the church but with the exception of being torn a few inches no damage had been done. One seat had been turned to face the stove and the matting from one aisle put on the seat for a cushion. A bible that was lying on a stand near the pulpit had been carried to the back part of the church but nothing was carried off so far as has been discovered. It was evidently a tramp or tramps who wanted a warm place to stay all night.

These are some of the recommendations from newspapers, college presidents, lecture committees, etc.

The following circular letter, addressed to the Postmaster explains itself;

Owing to the numerous complaints which are being made to the Department that advertising circulars and other mailable matter, postage on which has not been prepaid, are being placed in rural letter boxes intended for persons who receive mail through such boxes; and in order that there may be no misunderstanding regarding the proper disposition of such matter; you are hereby advised that patrons' boxes erected on rural routes, are intended exclusively for the reception of matter regularly in the mails, for delivery or dispatch through the mails; and "mailable" articles which carriers find deposited in such mail boxes on their routes, are properly "in the mails" and subject to all the rules regulating mail matter, including the payment of postage thereon.

You will promptly and fully instruct the rural carriers attached to your office that all mailable matter found in rural letter boxes, without the proper postage affixed or money provided sufficient to purchase same, should be taken to the initial post office to be held for postage.

Such matter on its receipt at the post office should be treated in accordance with the provisions of the Postal Laws and Regulations covering matter mailed without prepayment of postage.

Rural letter boxes are afforded the same protection under the law, as other United States mail boxes.

Very Respectfully,
J. L. BRISTOW
Fourth Assistant Postmaster General.

Much is now being said about breeding hogs of the bacon type in the corn belt. An interesting article on this question appears in The Homestead of the 19th inst. from the pen of J. J. Ferguson, superintendent of the stock food department of Swift & Co. Mr. Ferguson has grown bacon hogs in Canada, followed the packing business for several years and was a judge of bacon type hogs at the World's Fair at St. Louis, hence his opinion that, owing to the scarcity of feeds which produce lean meat, after all, the lard hog is most profitable for the corn belt farmer is interesting and entitled to consideration. Mr. Ferguson states his reasons clearly and every farmer in this section should read and study what he says, not omitting his advice that a Yorkshire and Tamworth cross on the

average corn belt hog is desirable. The Homestead contains so many such articles that we wish every farmer in Nemaha county was a subscriber. We take subscriptions for this valuable farm journal at the office of the Advertiser.
