It is hoped congress will at this session pass the proposed law giving rural carriers fifteen days' vacation with pay. These carriers are the poorest paid of all government employes and get less vacations. The city carriers are to no expense for teams, get larger pay, and also get annual vacations. This is also the case with postal clerks, and most classes of government employes. But the rural carrier is supposed to go in all kinds of weather, keep his outfit in good condition, and only gets two or three days' vacation in the year.

Monarch MALLEABLE

It appears from the little we can learn that Mrs. McDaniels, who was quite feeble and suffering from a cancer on her face, was living alone. D. S. Cox of St. Deroin says the groundhog came out of his hole Wednesday, the first, instead of waiting until the regular day, as he saw the tracks. He says the aforesaid groundhog made a mistake of one day on account of last February having 29 days. This was not taken into consideration when the groundhog counted up the days to find out when to come out. As he saw his shadow he hiked back in his hole—very wisely if he wanted to live—and will stay there for six weeks.

The teachers meeting at Nemaha last Saturday was well attended, especially in the afternoon, both by teachers and patrons. Thirty-six teachers were present.
