We wrote an item last week about Miss Daisy Clark, daughter of John M. Clark, winning the silver medal in the contest at the Auburn chautauqua, but the item was overlooked and did not get in print. McCandless, was also a contestant.

The Fremont Herald has discovered that the reason Brown was not elected congressman last week was because the populists did not vote the democratic ticket. There are very few populists in this district and they have not been in the habit of voting the democratic ticket in the past few years.—Nebraska City News.

The farmers in this neighborhood made enough money a few days ago by using the telephone to pay rental on the same for several years. A number of them phoned to Earle Gilbert and sold their corn one morning at 48 cents. On the morning mail Earle received notice that corn was 5 cents lower. Some of those selling thus were C. W. Roberts, Wm. Mead, J. H. Argabright, C. L. Russell and several others. Earle got in 11,000 bushels of corn in a few days, paying 48 cents for it.

The Auburn atmosphere or something else does not agree with Nemaha people evidently. Mrs. Woodward, who was tenting on the chautauqua grounds, was quite sick last week. Frank Woodward was sick a day or so on account of a visit to Auburn. Frank Dressler drove out to Auburn Sunday and was taken sick. Mr. and Mrs. Elmer E. Allen drove out Saturday evening and that night Mrs. Allen was taken sick and was in bed until Sunday afternoon. Several other Nemahaites were also sick at different times.

In some of the Granger's comments on the chautauqua John H. Dundas says: "Does Mr. Lambert really believe in the gruesome doctrine of the Methodist church that places Bro. Harmon outside the pale of the blessed?" We would like to have Bro. Dundas point out the "gruesome doctrine" to which he refers. We have been a member of the Methodist church for 31 years and have not yet seen any doctrine that would bar Bro. Harmon, if he is a christian, as we believe he is.

Last Friday Charley Morton got struck in the head with the handle of the windless with which he was letting down brick to his father, who was walling up the cesspool for Elmer E. Allen. On account of a knot the rope caught and when Charley lowered the bucket it gave a jerk, and the handle was jerked out of his hands. The handle struck him on the forehead, cutting a gash over two inches long. Charley was not quite knocked down and caught the handle as it came around thus keeping the heavy bucketful of brick from going down on his father. Mr. Allen then came to his relief and Charley came to Dr. Keeling and had his head dressed. Several stitches were required to close the cut.

Cecil Tidrow, the 13 year old son of Mr. and Mr. E. Tidrow, met with a serious accident last Sunday morning. Cecil is afflicted with a spinal trouble and has to depend on a rolling chair for getting about. At the time mentioned he was on Tierney street, near the Methodist church. He started to wheel himself down the brick walk towards Main street when the rolling chair gained a momentum that caused him to lose control of the same and it ran off the walk and upset with the result that Cecil's left shoulder was dislocated and the shoulder blade fractured. He was quickly taken home and Dr. Massey attended to his injuries. The boy's natural helplessness and the prevailing hot weather combine to make it exceedingly unpleasant for the sufferer.—Crab Orchard Herald.

Now is the time for the annual gatherings of the pioneers of Nebraska, when those who came here at an early day meet to renew acquaintance and discuss the pleasures and hardships of the early days. These picnics are of particular interest to the older people but the younger generation care nothing for them. There is little or nothing said that interest the younger generation.

In a sense these annual gatherings are a failure. There is little done and less said that would instruct or hold the attention of the rising generation. The fact is that families meet, talk over trivial affairs "visit" as the old ladies say, and then go home.

This is wrong. These annual gatherings ought to be made history-record ing gathering. The pioneers who take are the only ones who know what took in Otoe, Cass or Nemaha counties fifty years ago and their ranks are being rapidly decimated. Of the hundreds who met with the old settlers thirty years ago and were then classed as pioneers, only a few are left, and they will not be with us many years longer. For thirty-eight years the Otoe County Old Settlers' association has held at least an annual meeting and some times have met twice a year, and what have the members to show for the annual gathering? Simply nothing. Not a line of history.

It is not too late to begin to rectify this mistake. At the next meeting there ought to be several papers giving personal historical accounts of the early days. Each who came here in 1854-5 should contribute their reminiscences, and those who came later ought to tell what they know.

We have almost sinned away our day of grace, and if the history of southeastern Nebraska is to be written it must be done at once. At the next annual gathering let us have facts and history instead of "stump speeches."—Nebraska City News.

Senator Good, of Nemaha county was in the city Saturday. It is generally understood in republican ranks that he will be a candidate for the state treasurership. He expressed his satisfaction with the operation of the new revenue law, and said that it had come up to his expectations when he was guiding the senate finance, ways, and means committee last winter. He said that he had been a little afraid that there might be a slight falling off through the failure of the assessors to hold values up, but believes the results show that they have done well. He stated that the sentiment in his section of the state favored either Davidson or Letton for the judicial nomination.—Lincoln News.
