

**Often The Kidneys Are Weakened by Over-Work.**

Unhealthy Kidneys Make Impure Blood.

It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs.

The kidneys filter and purify the blood—that is their work.

Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to health. A trial will convince anyone.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy, is soon realized. It stands the highest for its wonderful cures of the most distressing cases, and is sold on its merits by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle Home of Swamp-Root, by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Binghamton, N. Y. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

Lincoln Evening News: Enclosed find check for \$3 for one year's subscription to the Lincoln Daily News. I like the paper very much indeed and have often taken occasion to commend its stand for decent politics and fundamental reforms. It is worth a good deal to the advocates of such measures as the single tax, direct primary, direct legislation, etc., to have an influential paper which will give moral support, or at any rate, fair treatment to their efforts and I am glad the Lincoln News has grit enough to say that right is right and wrong is wrong, no matter by whom advocated or by whom opposed. This is not saying that I approve of every position you take. It is merely saying that I think you are trying to be fair, and that spirit among daily papers seems almost as rare as it is desirable. Respectfully,

A. G. CHAPMAN.

Reader, don't you want this kind of a paper? It only costs 25 cents a month.

Mrs. Charley Clark has been very sick for several days.

Rev. John T. Smith of Nebraska City was a Nemaha visitor Thursday.

Frank Titus has bought the brick house north of where F. L. Woodward is living.

We had another frost and freeze Thursday morning, but it is now warming up and it is probable we will have warmer weather hereafter.

Jacob West will have a public sale at his farm south of Nemaha Thursday of next week, beginning at 10 o'clock a. m., selling horses, cattle, hogs, wagons, farm implements, etc.

We had the pleasure on Thursday of meeting H. L. Young of Julian, fusion candidate for county treasurer. Mr. Young is a native of Nemaha county and has lived here all his life—long enough to know better than to be a democrat.

James A. Stephenson has a Maiden Blush apple tree that is now in full bloom. It looks odd to say the least to see an apple tree in bloom at this time of the year. On Mrs. Rose Gilbert's farm, where J. M. Clark is living is a peach tree in bloom. What will we have next?

A number of the ladies of the Christian church met at the home of Mrs. Andrew Aynes Thursday and spent the day quilting and visiting. At dinner time several of the gentlemen called to see their wives and were prevailed upon to stop for dinner. Miss Nora Aynes brought the editor a liberal supply of cake, pie and other good things.

Jacob West has sold the old Haith farm, south of Nemaha, to A. R. McCandless. The farm comprised 105 acres, and the price paid was \$6000. Part of the land is rough, but Mr. McCandless will use it for a stock farm. It has a fine spring, and a good cement tank will be built to utilize the water therefrom. The farm will be enclosed with a good 5 foot woven wire fence.

A letter from Luther H. Barnes of Bison, Oklahoma, gives the following items of interest to his Nemaha friends:

My family and self are in the best of health. I consider this a healthier country than Nebraska. We have six children attending school, and one a little lady of about three months old who will not go for some time yet. You would not know our children, Roy is as tall as I am and Ethel is taller than her mother. Our Nebraska friends would confer a favor upon the people of Oklahoma by requesting their congressman to support the statehood bill to be presented at coming session of congress by our delegate to congress the Hon. Bird S. McGuire. We extend a cordial invitation to our friends to call on us when in Oklahoma.

Remember that W. W. Sanders writes insurance. He is agent for several first class companies, both mutual and old line. His rates are as low as any. Give him a call.

**NEMAHA SCHOOLS**

Nemaha County Teacher.

In the general advancement of the cause of education in Nemaha county, Nemaha is holding her own.

There has never been so great an interest shown in Nemaha for our schools as now. There seems to be a general awakening on the part of both patrons and the board of education, and the prospects for the success of our schools in the future is bright.

During the past year the board has done its duty manfully, and has improved the school premises wonderfully.

The school building has been painted inside, the walls whitened and replastered where needed, and the floors oiled.

The sidewalks and roof have been repaired.

Over \$200 worth of new text books have been purchased, all of them the latest, modern, up-to-date texts.

About fifty volumes of standard literature have been added to the library, and a nice book case has been placed in the high room.

New outbuildings have been built.

New pictures have been placed on the walls.

The salaries of the intermediate and primary teacher, have been raised five dollars per month.

On the whole, I think Nemaha is making a very fair showing.

Very truly,  
C. E. SANDERS.

Advance illustrations of handsome fur garments are shown in The Designer for November, so, too, are tailor-made Costumes and Toilettes, some of these being designed especially for those in mourning, while others are for elderly women. Fashionable Friivolities for Feminine Fancies; pictures and describes new styles in belts and bags, and Forewords Regarding Fashions and Fabrics displays the picturesque bolero in many forms and materials. The Millinery Lesson tells how to make a mourning toque, and Points on Dressmaking gives instruction in finishing cloth skirts. The regular styles of the month embrace every desirable garment now in vogue, from the out-of-door wrap to under-wear. Advance Suggestions for Christmas are given, and both are augmented by directions for knitting and crocheting sweaters, kimonos, etc.

Ever since our Colonial ancestors instituted Thanksgiving Day, it has been a day of rejoicing, and the good old-fashioned dinner plays the all-important part therein. A detailed and an interesting account of a Thanksgiving dinner, as it will be served by the young housewife who has followed the story of "The Making of a Housewife" in The Delineator, is given by Isabel Gordon Curtis in the November number. "Thanksgiving Day Novelties" illustrate many seasonable dishes, from the traditional pumpkin pie, to a choicely arranged harvest centerpiece. Other articles on "Nut Novelties" and "Maple Dainties" can be made to advantage at this season of the year, and will add a novelty to the family menu.
