

Often The Kidneys Are Weakened by Over-Work.

Unhealthy Kidneys Make Impure Blood.

It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs.

The kidneys filter and purify the blood—that is their work.

Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to health. A trial will convince anyone.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy, is soon realized. It stands the highest for its wonderful cures of the most distressing cases, and is sold on its merits by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle Home of Swamp-Root, by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Binghamton, N. Y. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

This great stock medicine is a money saver for stock raisers. It is a medicine, not a cheap food or condition powder. Though put up in coarser form than Theford's Black-Draught, renowned for the cure of the digestion troubles of persons, it has the same qualities of invigorating digestion, stirring up the torpid liver and loosening the constipated bowels for all stock and poultry. It is carefully prepared and its action is so healthful that stock grow and thrive with an occasional dose in their food. It cures hog cholera and makes hogs grow fat. It cures chicken cholera and roup and makes hens lay. It cures constipation, distemper and colds in horses, murrain in cattle, and makes a draught animal do more work for the food consumed. It gives animals and fowls of all kinds new life. Every farmer and raiser should certainly give it a trial.

It costs 25c. a can and saves ten times its price in profit.

PREPARED, KAN., March 25, 1904.
I have been using your Black-Draught Stock and Poultry Medicine on my stock for some time. I have used all kinds of stock food but I have found that yours is the best for my purpose.
J. S. HANSON.

The Nebraska Advertiser

Frank Dressler has been sick with the grip but is getting better.

Mrs. Dr. Keeling has been suffering with a lame back for some time.

The brick work on the new buildings is progressing rapidly, considering the number of men employed. The north wall is up almost to the top of the windows and the other walls are from six to eight feet high.

Yuma, Colorado, seems to be taking quite a boom now. That country is all right as long as it has plenty of rain. But let a series of dry years come and we predict that we will see as great an exodus as there was from western Nebraska and Kansas in the early nineties. It may be all right—we hope it will be—but we have our serious doubts as to its ever being a good agricultural country unless it can be irrigated.

An Omaha dispatch says the banks of that city have within the past few days loaned considerably more than one million dollars on Wall street, New York, "on call," at rates ranging from 14 to 20 per cent, taking advantage of the present financial condition on Wall street. Again we would remark that this is not fulfilling Bro. Bryan's theories and prophecies as to the scarcity of money in the west if the republicans should prove successful.

The vote in Nemaha county this year was 498 less than last year. Last year the average vote on the state ticket was as follows: Republican, 1897; fusion, 1345; prohibition, 113; socialist 64. This year the average vote on state ticket is as follows: Republican, 1463; fusion, 1005; prohibition, 73; socialist, 40. It will thus be seen that the republicans lost about 14 per cent of their vote last year, the fusionists 28 per cent, the prohibitionists 38 per cent and the socialists 38 per cent.

The Nebraska Farmer has been moved to Lincoln. The publishers wanted to get close to the Nebraska Agricultural Experiment Station and they believe they will be able to keep in closer contact with the farming interests of the state at Lincoln than at Omaha. The new office of the Farmer is on North Eleventh street, only a block and a half from the State University Campus. If taken advantage of at once we will take subscriptions for the Nebraska Farmer at The Advertiser office at 50 cents a year.

Full of Tragic Meaning

are these lines from J. H. Simmons, of Casey, Ia. Think what might have resulted from his terrible cough if he had not taken the medicine about which he writes: "I had a fearful cough that disturbed my night's rest. I tried everything, but nothing would relieve it, until I took Dr. King's New Discovery for Consumption, Coughs and Colds, which completely cured me." Instantly relieves and permanently cures all throat and lung diseases; prevents grip and pneumonia. At W. W. Keeling's, druggist; guaranteed; 50c and \$1.00. Trial bottle free.

Later news from Ohio is such as to add materially to the moral effect of the recent election in that state. All of the state offices except governor, it appears, were saved to the republicans by majorities of about the same size as that given the democratic candidate for governor. This is further proof that the wave of free votes in Ohio was not aimed at the republican party, but at a political abuse. In the minds of the voters Governor Herrick, perhaps because of personal connections, perhaps because of his prominent position, personified boss rule in Ohio. A protest against bossism with little party spirit in it naturally directed itself against him. If the legislature has been carried on the wave it was probably because a republican legislature had passed the law changing municipal elections to the date of the fall elections a measure which is bitterly resented by the independent voters. It becomes more and more apparent that the Ohio vote was purely a victory for independent voters, and that no political party has relatively gained or lost by the result.—State Journal.

Old paper for sale cheap at The Advertiser office.

The roller skating craze is raging in the cities worse even than it did a quarter of a century ago. Last Sunday's St. Louis Republic contained a full page description with illustrations of the champion roller skaters among the fashionable set. We remember how much fun the city papers used to make of the craze in the villages after it had died down in the larger places, but now that the fashionable set have taken it up again it is all right. It would be a good form of amusement if it was not carried to excess. It is taking the place of dances, card parties and other forms of amusement. The old timers here will remember when the opera house was filled with lovers of this exercise and those who gathered to watch them. We suppose it will not be long until the craze will strike here and Woodward & Allen will turn the opera house into a roller skating rink and prizes will be offered for the most graceful skater, with a booby prize for the most awkward one.

A former Nebraska editor, Frank T. Hawks, now publisher of the Gazette at Wray, Colorado, is interesting the state agricultural college in the planting of pine trees for forest purposes in Yuma county. Owing to a lack of water for irrigating purpose the broad acres of Yuma county have been given over to grazing purposes. Of late years, however, experiments in agriculture have been made with rather astonishing results. The present season has witnessed the cutting of three crops of dry land alfalfa. Wheat has yielded as high as 28 bushels per acre. Potatoes, onion, barley and oats have been cultivated with a fair degree of success. Ordinarily precipitation in that part of Colorado is not sufficient to insure a crop, but a forest of pine once fairly started would gather on the atmosphere and the earth moisture enough to carry it through. It has been proven beyond a doubt that pine trees will flourish in the sand hills of northwestern Nebraska, and no reason seems to exist why they should not in the rather heavier soil of eastern Colorado.—State Journal.

Don't Borrow Trouble

It is a bad habit to borrow anything but the worst thing you can possibly borrow, is trouble. When sick, sore heavy, weary and worn out by the pains and poisons of dyspepsia, biliousness, Bright's disease and similar internal disorders, don't sit down and brood over your symptoms, but fly for relief to Electric Bitters. Here you will find sure and permanent forgetfulness of all your troubles and your body will not be burdened by a load of debt disease. At Keeling's drug store. Price 50 cents. Guaranteed.

RESULTS

The word results means a whole lot to the farmer of to-day and it is especially attractive to the homeseeker or those seeking new locations. If we tell you of a country where you are sure of success, will you believe us? It is only necessary for you to farm the land and the best results will follow—a State which the government reports will show leads in the production of wheat. It also ranks among the first in the raising of corn, alfalfa, timothy and other products, together with stock raising. We speak of

KANSAS

The great State of the West, where lands can be purchased from \$5 to \$30 per acre which equals the returns of the \$50 to \$150 per acre lands of other States. EASTERN COLORADO is identical in most respects and the same opportunities are offered there. Buy quick while the lands are cheap and secure the benefit of an excellent investment. THE MISSOURI PACIFIC RAILWAY touches the heart of this rich agricultural region and extremely low rates are offered, allowing stop-over at pleasure in certain territory for inspection of lands, etc. Write us and we will send you free descriptive literature and full information.
