

SORES ON HANDS.

Suffered for a Long Time Without Relief—Doctor Afraid to Touch Them—Cured by Cuticura.

"For a long time I suffered with sores on the hands which were itching, painful, and disagreeable. I had three doctors and derived no benefit from any of them. One doctor said he was afraid to touch my hands, so you must know how bad they were; another said I never could be cured; and the third said the sores were caused by the dipping of my hands in water in the dye-house where I work. I saw in the papers about the wonderful cures of the Cuticura Remedies and procured some of the Cuticura Soap and Cuticura Ointment. In three days after the application of the Cuticura Ointment my hands began to peel and were better. The soreness disappeared, and they are now smooth and clean, and I am still working in the dye-house. Mrs. A. E. Maurer, 2340 State St., Chicago, Ill., July 1, 1905."

ALL SICK WOMEN

SHOULD READ MRS. FOX'S LETTER

In All Parts of the United States Lydia E. Pinkham's Vegetable Compound Has Effected Similar Cures.

Many wonderful cures of female ills are continually coming to light which have been brought about by Lydia E. Pinkham's Vegetable Compound, and

Mrs. Fannie D. Fox

through the advice of Mrs. Pinkham, of Lynn, Mass., which is given to sick women absolutely free of charge.

The present Mrs. Pinkham has for twenty-five years made a study of the ills of her sex; she has consulted with and advised thousands of suffering women, who to-day owe not only their health but even life to her helpful advice.

Mrs. Fannie D. Fox, of 7 Chestnut Street, Bradford, Pa., writes:

Dear Mrs. Pinkham
"I suffered for a long time with female trouble, and finally was told by my physician that I had a tumor. I did not want to submit to an operation, so wrote you for advice. I received your letter and did as you told me, and to-day I am completely cured. My doctor says the tumor has disappeared, and I am once more a well woman. I believe Lydia E. Pinkham's Vegetable Compound is the best medicine in the world."

The testimonials which we are constantly publishing from grateful women establish beyond a doubt the power of Lydia E. Pinkham's Vegetable Compound to conquer female diseases.

Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. She asks nothing in return for her advice. It is absolutely free, and to thousands of women has proved to be more precious than gold.

Tepid baths are better and more permanently refreshing than cold ones. The latter may seem to refresh more at the moment, but cold water promotes rapid circulation, thus causing heat, while tepid water will leave the skin cool and moist. A small quantity of ammonia, or the addition of a little soda to the bath, is beneficial in cases of excessive perspiration.

The man who wrote that "the bright lexicon of youth has no such word as fail", evidently had no thought of modern matrimony or the many moods of the twentieth century maiden.

TWENTY YEARS OF IT.

Emaciated by Diabetes, Tortured with Gravel and Kidney Pains.

Henry Soule, cobbler, of Hammondsport, N. Y., says: "Since Doan's Kidney Pills cured me eight years ago I've reached 70 and hope to live many years longer. But twenty years ago I had kidney trouble so bad I could not work. Backache was persistent and it was agony to lift anything. Gravel, whirling headaches, dizziness and terrible urinary disorders ran me down from 165 to 100 pounds. Doctors told me I had diabetes and could not live. I was wretched and hopeless when I began using Doan's Kidney Pills, but they cured me eight years ago and I've been well ever since."

A BULGARIAN PATRIOT.

It is a common occurrence for a people to do honor to a military or naval hero; but when a nation like Bulgaria unites in celebrating an educator the event is worthy of remark. The truest patriot is not always he of the battle field, and Hristo Danoff's fight against ignorance has been of far greater service to his country than would have been the case if he had fought with sword and gun. Bulgaria is still a young principality. For twenty-seven years only has it been free from Moslem oppression, yet one of her most popular jubilees was that which took place a short time ago, celebrating the fiftieth anniversary of the beginning of Danoff's work.

Seventy-seven years ago, when Danoff was born, there were very few schools in the land. There was, however, a primitive one in his town, to which he was sent. Ink, pens and paper were scarce, but the determined boy made ink from water and soot, and wrote with eagles' feathers on the broad shoulder blades of dead cattle.

The lad soon outgrew the school and begged to be sent elsewhere. His mother, although a poor widow, granted his request, and sent him to a Bulgarian town famous for its patriotic spirit. He bound books for his fellow students and earned a little; but he was soon recalled to his home, to learn a trade and help support the family. When he was 16, his thirst for more education was so great that he resolved to satisfy his ambition at the expense of any hardship. He gave up his tailoring, added a little to his knowledge and began to teach.

He soon became very popular. A few years as schoolmaster showed him the desperate need of his country for books, and he set himself to become a writer and a publisher. As Bulgarian literature could not be printed in Bulgaria, on account of the censorship of Turkey, Mr. Danoff was compelled to carry on his work outside the country. He then became his own bookseller, and traveled through the country, selling books and persuading people to open schools. As business grew he was able to have his own printing establishment.

Books written or published by Mr. Danoff are invariably of high quality. He has issued maps which would do honor to the most advanced publishers in the world. He has helped with money, as well as with advice, young Bulgarians eager to study abroad.

The government, wishing that all school children should understand what Hristo Danoff means to Bulgaria, made arrangements that addresses in the subject should be given in every school in the country. The day of the celebration will long be a memorable one. Thousands filled the largest church in Philippopolis, eager to get a glimpse of the old man they were honoring. Gifts were made, scholarships established, and decorations bestowed on the great educator.

Thus young Bulgaria honors the man who has reared for himself a more enduring monument than any of stone which human hands can ever erect for him.

Mistakes in Encyclopedias.

A man who has done a great deal of work in correcting some large dictionaries, encyclopedias and historical reference works, who has studied ten languages, and who is well posted on a number of foreign lands, examined over 15,000 pages of an encyclopedia recently published in this country, says Success Magazine. Much of the work he did without the publisher's knowledge. Though this encyclopedia was considered to have been edited very carefully, he discovered over 1,000 mistakes in the first volume alone. In the following volumes he found many thousands.

In speaking of one of the most famous violin virtuosos who ever lived, it was stated that in his youth he fell out with his parents and ran away to Cassel, Germany, twelve years after he died. In giving a sketch of a living European author, the statement was made that he wrote and published his first book nine years before he was born. In calling an editor's attention to this error the editor replied: "Verily, a bright kid this! What precocity?"

Those Girls.

"Vernon told me this morning," related the blonde, "that he passed the tree where two years ago he carved your initials and his own and encircled them with a heart. He says he felt so good he almost danced with joy."

"Ah," said the tall brunette, anxiously, "he must still love me after all. Did he say why he felt so happy?"

"Yes, he said some men were cutting the tree down."

Introspection.

This world of freaks contains a host; Each day anew one will disclose. And oh, the thought that haunts me most is, maybe I am one of those!

Who knows?

PAIN IN THE JOINTS

Rheumatic Tortures Cease When Dr. Williams' Pink Pills Make New Blood.

The first sign of rheumatism is frequently a pain and swelling in one of the joints. If not combated in the blood, which is the seat of the disease, the poison spreads, affecting other joints and tissues. Sometimes rheumatism attacks the heart and is quickly fatal.

The one remedy that has cured rheumatism so that it stays cured is Dr. Williams' Pink Pills. These pills expel the poison from the blood and restore the system, so that the poisonous matter is passed off as nature intended.

Mrs. I. T. Pitcher, of No. 130 Monmouth street, Newark, N. J., suffered for about three years from rheumatism before she found this cure. She says: "It began with a queer feeling in my fingers. In a little time it seemed as though the finger joints had lumps on them and I could not get my gloves on. Then it grew worse and spread to my knees. I could not stand up and I could not sleep nights. My suffering was more than I can describe. I took a great deal of medicine, but nothing even gave me relief until I tried Dr. Williams' Pink Pills."

"I read an account of a cure in a case that was exactly like mine and my husband got me some of the pills. I took them for three weeks before I really felt better but they finally cured me."

Mr. Pitcher, who is a veteran and a member of E. D. Morgan Post, No. 807 of New York, substantiates his wife's statement and says that she now walks without difficulty, whereas a year ago he was compelled to push her about in a wheeled chair. Both Mr. and Mrs. Pitcher are enthusiastic in their praise of Dr. Williams' Pink Pills.
