Mrs. Alice A. Thieling of Clarinda, Iowa, arrived in Nemaha Thursday forenoon on a visit to her uncle, Walter Hadlock.

The next meeting of the Nemaha county holiness association will be held at Howe Tuesday night and Wednesday, June 5 and 6.

We had a good shower Thursday night—not as much as was needed but it will help wonderfully and there is good prospects for more.

E. Wood, representing the Omaha World Herald, was calling on the Nemaha people Thursday and Friday in the interests of that paper.

Fifty Years Old

This is the last issue of volume 50, and The Advertiser is now a half century old. We will publish a little history next week, when we begin on volume 51.

The Nemaha high school graduating class this year is composed of E. Roy Liebhart, John H. (Harry) Hacker, Richard R. Knapp and Grace E. Peabody—three young men and one young lady. Usually the proportion is about three to one the other way.

F. L. Woodward has concluded that he must have been mistaken when he thought he saw Fred Kauffman at Kansas City. Frank doesn't believe much in ghosts, and as Fred's body was then in the Missouri river, and had been for several days, Frank thinks the fellow he was sure was Fred was some other man.

An admission of 20 cents will be charged for the commencement exercises, except for the pupils of the school, who will be charged 15 cents. Seats will be reserved for the relatives of the graduates but there will be no other reserved seats. Tickets are on sale at Hill Bros. drug store, and we understand must be bought there, as none will be sold at the door of the opera house.

FRED KAUFFMAN'S BODY FOUND

The body of Fred Kauffman was found in the Missouri river near White Cloud, Kas., Friday of last week. Fred's brother, Sherm Kauffman, and Al Nace easily recognized the body, and it was also identified by the clothing and by articles in the pockets. The body was taken to Brownville and buried Sunday afternoon. Rev. G. W. Ayers held brief services at the cemetery.

The sad news comes of the death of Mrs. S. C. Shuck at her home near Red Cloud, Nebr. Mrs. Shuck died May 11th and was buried on the 13th. She leaves a husband and a number of children, one a little babe only a day or two old at the time of the mother's death. Mrs. Ames, mother of the deceased, is taking care of the children. The husband, children and mother have the sympathy of their many friends in their great bereavement.

Clarence E. Peabody is having bad luck. He had to quit railroading a few months ago on account of getting slightly hard of hearing. He then bought a restaurant in St. Joe. A few days ago his parents received a letter from him saying his restaurant had burned one night last week, with all the contents except the books, including about \$20 in money. There was \$250 insurance on the stock. Clarence did not write what the stock was worth nor what he intended to do.

The editor is having trials and tribulations of his own these days. He went to Brownville Monday afternoon, and though he was only there an hour and a half and never took a drink of anything, not even water, while there, and didn't bring anything to drink back with him, yet he has been almost sick ever since. It wouldnt do for him to live in a saloon town. Then Thursday afternoon, after the first page of the paper had been printed, he washed the type and as he was lifting it from the sink to the stone it slipped from his hands and fell on the floor, bottom side up and considerably "pied." Only a printer can appreciate this situation—and this is the first experiment of just this kind that the editor has ever had.

Human Blood Marks

A tale of horror was told by mark of human blood in the home of J. W. Williams a well known merchant of Bac, Ky. He writes: Twenty years ago I had severe hemorrhages of the lungs, and was near death when I began taking Dr. King's New Discovery. It completely cured me and I have remained well ever since." It cures Hemorrhages, Chronic Coughs, Settled Colds and Bronchitis, and is the only known cure for Weak Lungs. Every bottle guaranteed by W. W. Keeling, Druggist. 50c and \$1.00. Trial bottle free.

The government experts are making a practical demonstration of the value and effect of spraying orchards. They spray five acres several times during the season, leaving two rows of trees through the center unsprayed. The orchard selected for this experiment in Nemaha county is one set out by G. N. Titus in Glen Rock precinct. Nat has sprayed the whole eighty acres once. He says it is a nasty job and he is glad it is over with.

Did you see those dollar watches at Keeling's? They're all right.
