

By the time the Advertiser is issued again the election will be over, the defeated candidates will begin to get over their soreness, the fellows who know all about it will have told how it was all done, and we will begin to forget about it.

A union temperance meeting was held at the Methodist church Sunday night. Remarks were made by Rev. J. W. Sapp and Rev. G. W. Ayers, urging the importance of voting for men of temperance principles. The church was well filled.

Mrs. J. W. Ritchey is visiting her sister, Mrs. A. A. McIninch, in St. Joe. She will probably return the last of this week. In the meantime John and Ralph are baching, but have the dishes about all dirty, and don't know whether they can hold out on that line until the mistress returns or not.

W. W. Seid, W. G. Maxwell and Marshall Webb went to Auburn Wednesday to attend a meeting of the Auburn Gold Mining Co. and listen to a report of an expert who had been sent to examine the mine near Mystic, South Dakota. The reports are very encouraging and it now appears that the company have a rich mine.

William Jennings Bryan, who is to speak at Auburn Monday afternoon, will go past Nemaha on a special at about 2:30, on his way to Nebraska City, and it has been suggested that if a crowd is at the depot the colonel might be persuaded to give a short talk. Regardless of politics we would all like to hear the eloquent Nebraskan speak. Will Keeling will find out what time the special will be through and will be pleased to give out the information personally or over the phone.

L. L. Coryell, president of the Nemaha County Sunday School Association, and Miss Cora Webber, secretary of the same, visited the Nemaha Sunday schools last Sunday. Mr. Coryell took charge of the Christian school and Miss Webber of the Methodist and conducted the same as near their ideas of a model school as was possible, and gave many new ideas to the Sunday school workers. In the afternoon a conference of the workers of both Sunday schools was held at the Christian church and many plans for increasing the interest and attendance were discussed. These meetings will undoubtedly do good in the future.

Harry Hoover, with the assistance of Dr. Frazier, undertook to break a broncho Monday. They had the pony roped and when the doctor undertook to harness it the pony threw itself and must in some manner sustained a fatal injury. Doc hurried to get the harness on while the pony was down and then they tried to make the pony to get up, when it was discovered that it couldn't help itself, and in a few minutes it was dead. The whole affair took place in the street south of the opera house. The same pony came near killing or seriously injuring Ed Knapp the day before. Ed was helping break it and was in the stall behind it when the pony kicked with both feet, landing them against the manger where Ed was standing, one foot on each side, and kept kicking. Ed never tried to make himself so small before. Fortunately the pony's heels did not strike him.

W. G. Maxwell, Marshall Webb and Alva and Ned Maxwell started to drive to Auburn Wednesday, driving one of Will's and one of Ned's horses to a carriage. As Marshall got in the carriage at his home the horses started to run. Will jumped out, and as they got near John Crother's house Marshall also jumped. Ned, who was driving, and Alva stayed with the team and got them stopped at Rees Leslie's. Will had one hand bruised and Marshall has a lame knee. No other damage was done.

The boys celebrated Hallowe'en in great style Wednesday night. The next morning First street looked like all the old wagons, buggies, etc. in the country had been collected there. A wagon was in front of the bank, another in front of Gilbert's, the post-office, the barber shop and the meat market. Ora Houtz's cart was on the roof of the Park hotel porch, John Flack's was on the printing office roof, a buggy was on the tank of the public well, a wheel off of Dr. Frazier's buggy was hanging from a limb of the big tree by the meat market, a twin-binder was in front of Snelling's store, a hay rake, chicken crates, etc. in front of Ritchey's, the heavy rock that has been in front of Snelling's store was against the door of the drug store, a buggy was in Hank Barker's front yard against the porch, outbuildings were upset, and confusion reigned in general.

The St. Deroin school district has been having some trouble over the school book business. This district is small and with little taxable property. There has been quite a heavy indebtedness considering the amount of income from taxes, and the school officials have been economizing in every way possible to reduce the indebtedness. For this reason the district has not furnished the school books as provided by law. Recently two of the patrons—men who are not property owners, we understand, and have recently moved in there—have been endeavoring to compel the board to furnish books. To do this would mean bankruptcy, so the board has refused. As a result of this disagreement one of the men who are trying to compel the district to buy the books is now in trouble. Harve Becker went to the school house a few days ago, and abused the teacher, Mr. Cummings, so it is said, using profane and abusive language and shaking his fist under the teacher's nose and making threats. He was arrested and tried before the justice of the peace and fined but refused to pay his fine, appealing the case to the county court, where he will be tried Nov. 9.

Dr. Frazier has found that the Nemaha boys are too much for him. He had said he would like to have the boys try to play Hallowe'en pranks on him so they proceeded to "show him." Doc had his bull dog tied in the barn and when the boys came he let the dog loose. The boys skipped out but afterward came back and got both buggies. Doc ran after the boys and they took him down and paddled him in good shape. Doc is limping a little but says all this has only been loaned and he will get even. He has squared things with some of them already, as he harnessed up his horse after the boys had quieted down, got Otto Barker's and Earle Steuteville's buggies and drove out in the country and left them in August Quiller's corn field. The boys had to return Doc's buggies before he would tell where their buggies were.

A Young Mother at 70
"My mother has suddenly been made young at 70. Sore throat seems to be a prevailing complaint now.

The pop bugs still flourish in spite of the cool weather.

T. L. Williams is rushing the work on the Methodist parsonage.

Our farmers are pushing corn gathering while the weather is good.

Earle Steuteville has put in a new street crossing from the lumber yard west.

Rev. G. W. Ayers is making a full hand in working on the Methodist parsonage.

C. L. Russell and Geo. Yackley have been doing some good road work on the northeast part of town.

What did the fusionists do toward controlling the trusts or curtailing the power of the railroads, when they had control of the state government? Although their platforms read right, and denounced officials traveling on passes, every official with one exception used a pass, and nothing was done toward carrying out their platforms. The same element that controlled them is in control now. The republican nominees are pledged to certain reforms and they will carry out the pledges.

If you like coffee but dare not drink it, try Dr. Shoop's Health Coffee. It is true that real coffee does disturb the stomach, heart and kidneys. But Dr. Shoop's Health Coffee has not a grain of true coffee in it. Being made from parched grains, malt, etc., it forms a wholesome, foodlike drink, yet having the true flavor of Old Java or Mocha coffee. "Made in a minute." Call at our store for a free sample. Sold by Earle Gilbert.

Piano Reputation

43 years ago the Baldwins began making pianos and have ever strived to build the best instrument for the price. The Baldwin stands at the head of high grade instruments, and the Hamilton by its "sterling qualities" and superior tone has exceeded expectations.

The superiority of the Hamilton was shown by being awarded the Silver medal at Paris 1900 also at Melbourne, Australia, the highest possible award, the first Order of merit 1903 and at St. Louis the Baldwin Co were awarded the Grand Prize for their instruments 1904. They receive the highest awards wherever exhibited, which indicates their qualities, and certainly the piano purchaser wants a piano with a known reputation instead of a new and almost unknown name. Before you buy will you not examine the Pianos with a reputation?

TO REPUBLICANS:

We are anxious to have every Republican in close touch, and working in harmony with the Republican National Congressional Committee in favor of the election of a Republican Congress.

The Congressional campaign must be based on the administrative and legislative record of the party, and, that being so, Theodore Roosevelt's personality must be a central figure and his achievements a central thought in the campaign.

We desire to maintain the work of this campaign with popular subscriptions of One Dollar each from Republicans. To each subscriber we will send the Republican National Campaign Text Book and all documents issued by the Committee.

Help us achieve a great victory.
