Otto Barker and Dan Lambert were hungry for bananas Wednesday evening, so they bought what was left on the bunch at Ritchey's, getting 18 of them, the bargain being that the boys were to eat all of them before leaving the store. They kept their word, but said before they got through that they knew they had been eating something.

Rev. J. W. Sapp, in his sermon Sunday night, took occasion to warmly praise Nemaha as the cleanest and most moral little town he knew of. He said some people would claim that the jug trade was worse for a town than a saloon but if those who claim this would visit some of the surrounding towns that have saloons they would see more drunkenness on one Saturday night than they would see in Nemaha in a year.

It is rubbing it in pretty hard to have to shovel snow until the grass gets high enough to demand the running of the lawn mower.

Wednesday's Lincoln Star contained a list of the "dry" and "wet" towns in Nebraska, so far as any expression was made at the recent election. There are 114 "dry" towns and 194 "wet." We are very glad that in this case Nemaha is classed with the respectable minority.

Ex-Senator W. V. Allen, of Madison, will attack the primary law. Before the time for holding the first primaries he will file his suit. He declares the act is illegal because it violates constitutional provisions regarding the rights of party representation.—Lincoln Star.

The front cover of the Saturday Evening Post of April 6 had a large picture of Helen Marie Walsh, daughter of Mr. and Mrs. A. F. Walsh of McCook, and her little friend Milton Durand of Denver. The little tots were bareheaded and barefooted and had evidently been having a big romp. The picture occupied the entire first page. It was a good one.

#### Winter Weather

We have certainly been having winter weather for the past week Monday morning there was no ice on standing water, but every morning except that there has been ice. Sunday morning it was a half inch thick and the thermometer at 7:30 was 22 degrees above zero—10 degrees below the freezing point. Wednesday morning was still colder, the thermometer at 6:30 being only 19 degrees above. Thursday morning the ground was white with snow and it continued snowing until noon, when it turned into a light drizzling rain, part of the time almost snow.

While our fruit men all agree that the pears, plums and cherries are killed, they think probably there will be some peaches but this cannot be told until later. It has certainly been a severe test. It is hoped the apples and grapes are not much injured.

C. W. Roberts says the snow yesterday morning recalled to his memory the spring of 1878. Twenty-nine years ago this morning there was a heavy fall of snow, it lying three inches deep on the ground. He remembers that spring so well because on March 14th he was married to Miss Jennie Skeen. The month of March was about like last month, very warm, but in April they got the winter weather. In June the Nemaha river flooded the bottom land and destroyed nearly all of Charley's crop which was on the low land. He got only 16 bushels of spring wheat—the kind raised then—30 bushels of oats and 500 bushels of corn. The next year, though, he raised a big crop, and also the year after, and in 1881 he bought the west 40 of the 80 that W. G. Maxwell recently sold to S. C. Lawrence. Six years later he sold this for \$1600 and bought the 80 where D. E. Zook now lives, paying \$2,500 for it. After living here nine years he traded this to T. B. Skeen in part payment for the 120 acre farm where he has lived since until this spring. He got \$45 per acre for the 80 and paid \$50 for the 120. It is now worth \$100 per acre, having doubled in value.

#### How to Remain Young

She says: "Three bottles of Electric Bitters cured me of chronic liver and stomach trouble, complicated with such an unhealthy condition of the blood that my skin turned red as flannel. I am now practically 20 years younger than before I took Electric Bitters. I can now do all my work and assist in my husband's store." Guaranteed at Hill Bros drug store. Price 50c.

The following account of the death of a nephew of Mrs. Wm. H. Hoover is taken from the Watsonville (Cal.) Pajaronian of March 21:

News has been received here of the death by accident at Mayfield yesterday of George F. Beam, son of Mrs. Frank Hamm and brother of Mabel Beam of this city.

Deceased was employed as a brakeman on the Southern Pacific freight trains running between San Francisco and San Jose. He was instantly killed at 1 o'clock yesterday afternoon by stepping from his freight train directly in front of a southbound passenger train, which he had failed to see. He resided in San Francisco and had been on the road for only two months.

The young man was a general favorite at Prunedale, where he had the foremanship of the Swensen ranch for a number of years. His sudden death brings a shock to his many friends. He was capable, active, and of a very genial nature, and was a success in all he undertook before entering his latest employment. The body will be brought here tomorrow and the funeral will take place from the Presbyterian church next Sunday at 2:30 o'clock. Interment at I. O. O. F. cemetery.

Hon. V. P. Peabody claims to be an expert in his knowledge of trees and shrubbery, as well as a skillful agriculturist—and he isn't very slow as a politician. But they are telling a story on him that doesn't uphold his claims of tree knowledge. A few days ago he was seen along the roadside northeast of town digging up a small tree. A neighbor asked him what he was getting. Mr. Peabody replied that he was an admirer of the ash tree on account of its symmetrical growth and beautiful foliage and he was digging up one to set out in his front yard. The neighbor told him his taste was good but he had selected a fine specimen of pawpaw instead of an ash. But Mr. Peabody declared it was an ash and took it home, and will not be convinced of his mistake unless it bears pawpaws.
