### WANTED

JOHN S. STULL, Auburn.

Mrs. Alice Seid spent the day Wednesday with her old schoolmate, Mrs. Cora Crother. They had a very enjoyable time and said it brought back sweet days gone by.

A ditching outfit of two teams, with plows, scrapers, etc., have been at work along the railroad tracks near the depot for several days, making ditches to take off the surplus water.

Miss Nellie Venrick of DeWitt, Nebr., was the guest of Mrs. J. M. Sanders from Saturday until Wednesday, when she went to Auburn to visit friends for a few days before leaving for home.

In our notice of Will Dosier last week we said he was from Kansas City. We were mistaken in this, as he lives in Colorado, in the irrigated section, and says he lives in a garden spot of the world.

Will F. Sanders of DeWitt, Nebr., came in to Nemaha last Saturday. He is disabled from working on account of an ingrowing toenail which developed an abscess, and laid him off for awhile.

Mr. and Mrs. Wm. E. Smiley of Falls City were visiting relatives here the first of the week. Mrs. Smiley came up Monday morning and Willie the next morning, both returning Tuesday evening.

Our fruit men now say that if nothing kills the fruit later in the season we will have a good crop of fruit—apples, peaches, pears, plums, cherries, and grapes. The early strawberries are killed but the later ones are all right.

J. W. Webber recently had the tenement house that has been on the farm he bought last year of John C. Stokes moved on the Bantz farm that he owns, and had it plastered and put in good condition for his tenant on that farm.

Ralph E. Harrington went to Pawnee City Saturday night, where he is assisting in getting a clothing store ready for business that Harrington & Sons recently purchased. J. H. Vanderslice is rustling the business during Ralph's absence.

The third quarterly meeting of the Nemaha and Howe Methodist churches will be held at Nemaha next Saturday night and Sunday. Quarterly conference Saturday night. Preaching at 11 o'clock Sunday by Presiding Elder Wright.

Clyde Harper, proprietor of the "hotel de hoss" at Shubert came up to Nemaha Saturday to see a good town. He went on to Auburn on the train. Clyde called at these headquarters and told us to send him The Advertiser for a year.

Mrs. S. Yates tore her right hand on a nail Tuesday, striking against it with sufficient force to run the head of the nail in the hand and tear the flesh badly. Dr. Frazier dressed it. The wound is causing Mrs. Yates considerable suffering.

It now looks like we would have plenty of fruit, despite the cold weather. Of course we will not have as large a crop as we would have had if the weather had been favorable, but from present appearances we will have a good average crop of almost all kinds, though the buds may have been damaged more than shows now.

Frank Dressler appreciates good music and says he has got tired of having to go away from home to hear instrumental music, so he bought a piano of Ben Parker, representing the Auburn Music and Jewelry Co., and had it installed in his home a few days ago. As his wife is an excellent musician, Frank is now enjoying the melody as never before.

We understand F. L. Woodward has bought the Park hotel from the heirs of the late Mrs. S. C. Cummings. This is a good thing for Nemaha, as Mr. Woodward always keeps property in his charge or owned by him in good condition. Before he looked after the hotel property, as agent, it had become run down so that it was hard work to get a man to lease it, and the patronage was small. When he got it he made so many changes, repairs, etc., that it looked almost like a new place, got a good landlord in the person of Fuller Burns, and now the patronage is excellent and the hotel is a credit to the town. Persons who stop there always have a good word to say for it.

Nemaha real estate for sale by W. W. Sanders.

The editor was almost persuaded that he was sick the first of the week. He was suffering from a severe sore throat, ached all over, had considerable fever, couldn't eat much—a great affliction in itself—and didn't feel very well. But he loafed a good deal, took some of Dr. Keeling's cure-alls, and is feeling better now—especially at meal time.

Mrs. E. E. Hill got a bad fall Wednesday afternoon. She crossed the street from the drug store to the meat market, and just as she stepped on the walk her ankle turned, throwing her violently to the ground. Her ankle was sprained and the pain and jar were so severe that she came near fainting. She was taken to the drug store and later home. The sprain, though quite painful, is not very severe.

### Worked Like a Charm

Mr. D. N. Walker, editor of that spicy journal, the Enterprise, Louisa, Va., says: "I ran a nail in my foot last week and at once applied Bucklen's Arnica Salve. No inflammation followed; the salve simply healed the wound." Heals every sore, burn and skin disease. Guaranteed at Hill Bros, druggists. 25c.

Mr. and Mrs. J. F. LaFollette of Goodman, Mo., arrived in Nemaha Thursday of last week. They are the parents of Mrs. Dr. Frazier, and will probably remain here for an indefinite period. Mr. LaFollette is a carpenter and contractor. He had a cancer on one finger on his left hand, which finally affected the whole hand. Finally it was found necessary to amputate his hand. He is a cousin of United States Senator LaFollette of Wisconsin.

Wednesday morning was the first real springlike morning we have had for nearly three weeks. The thermometer at the editorial headquarters stood at 52 degrees above zero—20 degrees warmer than the morning before. But the next morning the thermometer was only two degrees above the freezing point, and we were in the midst of a hard snow storm. This morning the thermometer stood at 25 degrees above zero, with a heavy frost and a hard freeze.

We understand John Wright, who died Sunday, was a member of the Royal Highlanders and Woodmen of the World, carrying \$4,000 insurance. If it had not been for this insurance his wife and two small children would have been left in almost destitute circumstances. This is another strong argument in favor of fraternal insurance orders. We believe no man in moderate circumstances who can get insurance should fail to make this kind of a provision for his family, if he has one.

We were just congratulating ourselves Wednesday that spring was finally here—that winter had taken his departure for a few months at least—and that in a short time we would be enjoying fresh vegetables of all kinds—if our neighbors would bring them in. But when we looked out of the window Thursday morning and saw the snow falling we felt like moving to a southern clime. But we still have hopes of better weather, and will try Nebraska for a while longer.

John Wright died at a hospital in Omaha Sunday evening as the result of what was thought would be a trifling surgical operation. He had an abscess in his nose and went to the hospital and had an operation performed. Blood poisoning ensued and caused his death. His body was brought to Auburn Monday. The funeral services were held at the first M. E. church Wednesday, Rev. P. H. Smith, the pastor, preaching the sermon. The deceased leaves a wife and two small children to mourn the loss of a loving husband and father.

Elmer E. Allen is having bad luck getting a start of his fine Golden Wyandotte chickens. Four or five weeks ago his wife set a hen, putting nine eggs from Elmer's Wyandottes and six eggs from her Partridge Cochins under her. The hen came near dying (Elmer doesn't think it was the effect of the Wyandotte eggs, though), and hatched only three chickens, only one of which belonged to Elmer. In the meantime thirteen Wyandotte eggs were set under another hen and only two of these eggs hatched and the hen killed them. Elmer is beginning to think it is going to take him some time to raise a large flock of chickens.

Nemaha used to be noted for the activity of her citizens in political affairs, and some of them are not very slow yet. Then we have chicken cranks of all kinds here (as well as some other kind of cranks). Now they are disputing on points of law. If you see two or three or a dozen men shaking their fists and indulging in loud talk, do not think there is going to be a fight. It is simply a good humored disagreement on a point of law that probably doesn't concern either party. The reading of the statutes and decisions of the supreme court have no effect whatever on the argument.

We have long known that "the hills" southeast of Nemaha could raise corn and hogs and fruit, but recently the farmers have been cultivating a love for the beautiful and artistic. Some of them have beautiful homes and the views cannot be surpassed in the state. Now they are cultivating their musical talents. A few days ago Ben Parker and Mr. Harlan, representing the Auburn Music and Jewelry Co., persuaded Jim Shiveley that he could not afford to raise a family without a good piano—and Jim was not very hard to persuade. So they sold him one and delivered it. And now the head of the family as well as the other members is getting a whole lot of enjoyment from the music.
