#### Fixes New Law Salaries

Auburn, Neb., April 29.—In accordance with the new law passed by the last legislature, the county commissioners of Nemaha county have fixed the salary of the sheriff at \$1,500 per annum and that of his deputy at \$700. This is the schedule for counties having a population of over 16,000. The law also provides a mileage fee of five cents for each mile traveled. All of the fees and collections of the house will hereafter be turned over to the county.

#### Gets Good Price

George Armstrong of Howe on Monday sold a fine team of chunks to a Wisconsin horse buyer for \$400. The team was a good one for all purpose work and a number of horse buyers had tried to get them from him. They weighed about 1,425 pounds each. The horses came from standard bred mares and had been sired by Jim Penney's shire stallion, Cherry Boy. Mr. Armstrong used good judgment in his selection of a sire and the result was a team of horses that had the action, size and appearance to make them very desirable. Many of our farmers can profit by his example. —Republican.

J. Hyde Sweet, of the Bradley-Catron Co., tried an experiment this morning of burning ashes, a discovery which is the invention of Ellmore, the Altoona cobbler, and but recently disclosed says the Nebraska City Tribune. Hyde experimented in a stove in the Bradley-Catron offices, taking five pounds of coal, fifteen pounds of ashes, two ounces of oxalic acid, a half pound of salt, and a gallon of water. This mixture was put on a bed of almost dead coals, caught fire from the sparks and gave forth an intense heat. The ashes burned readily, producing clear yellow flames, and proving the success of the experiment. This ash-burning formula is being discussed at length by the metropolitan papers newspapers of the country.

#### Planning to Get Rich

County Clerk Sam Teare is going into the squab raising business. Somewhere he read that young squabs are bringing \$5 per dozen on the Philadelphia market, and that it only takes four weeks for a young pigeon to hatch, and that the hen pigeons lay eggs every month in the year except one.

Putting these facts together he has figured himself into a Rockefeller in a few years by following the squab raising industry.

He has built a modern coop at his place, 12x40 with a loft in the barn as additional room, and over the coop and yard proper he has placed wire netting so as to keep his pigeons in captivity. He has bought some nice "homer" pigeons, which makes the best squabs and is now preparing to get rich. —Republican.

Charley Dray, who for six years and four months has been carrying the mail on rural route No. 1, has driven the same span of bronchos continuously during that time, and they have "never lost a day because of sickness, tender feet or bad feet," says the Republican. He sold them to a farmer a few days ago.

"In discussing the matter in one of the stores of the city the other evening with some friends Charley was induced to figure up the number of miles that the faithful animals had traveled during the time that they were engaged in pulling the mail wagon over the roads in the north part of the county, none of which are any too good. It was found that in the six years and four months they had served Uncle Sam they had traveled 55,000 miles, equivalent to twice around the world and once from New York to San Francisco."

According to late reports, the freezing April weather has not killed the sand burr and the persistent dandelion. —Ex.

Farmers, representing 2,000 acres in the vicinity of Hastings, have pledged themselves to hold their crops until wheat has reached the \$1 mark at Chicago.

And now the widow of the second Elijah, John Alexander Dowie, is taking in boarders in her beautiful home at Muskegon, Mich. Not only that, but she allows her boarders to smoke—something the "prophet" would not allow on the place—and we don't blame him.

Hicks, the St. Louis weather prophet, says we will have the same kind of weather the first half of May that we had the last half of April. When he made the prophecy he was uncertain whether the weather would be cold or warm, but was inclined to believe it would be cold.

We are pleased that by the terms of the new law passed by the legislature the county commissioners are enabled to pay the sheriff a decent salary. He now gets \$1500 a year and mileage and his deputy \$700. This is a little more like it. The sheriff, if he does his duty, and our sheriffs always do that, certainly earns all he gets.

Among the graduates from the agricultural department of the state university—a three year course—is Welton Casner Barnes, son of our old friend, Casner Barnes, living in the west end of this precinct. We suppose the junior Mr. Barnes will now be in position to give his father and others valuable information on technical lines, but he will find his father knows a whole lot that is only learned by practical experience—and we have no doubt the young man has profited in the past by his father's example and counsel, as he will in the future.

We notice by an illustrated article on the Honey Creek coal mine published in last week's Auburn Herald that the company is now working eight miners and getting out six to eight tons of coal daily, with a promise of doubling that capacity soon. The total amount of coal taken out and marketed from the opening of the mine a little over a year ago, to Feb. 15 of this year, is approximately 400 tons, for which \$1,400 was received. But little work was done, however, until the first of last September. Since then the output has gradually increased from 20 tons in that month to 85 tons in January and 75 tons the first fifteen days of February.

#### My Best Friend

Alexander Benton, who lives on Rural Route 1 Fort Edward, N. Y., says: "Dr. King's New Discovery is my best earthly friend. It cured me of asthma six years ago. It has also performed a wonderful cure of incipient consumption for my son's wife. The first bottle ended the terrible cough, and this accomplished, the other symptoms left one by one, until she was perfectly well. Dr. King's New Discovery's power over coughs and colds is simply marvelous." No other remedy has ever equaled it. Fully guaranteed by Hill Bros., druggists. 50c and \$1.00. Trial bottle free.

It looks as though Auburn will have a feast of circuses and red lemonade this summer, says the Auburn Republican. "The contracting agent for Campbell Brothers' circus is already headed this way and may appear here any day to make arrangements to give an exhibition here early in May. Lemon Bros.' circus, it is said, is also booked for a date here this summer, and if Ringling Bros. can be guaranteed plenty of water and a large enough show ground for their colossal circus they will also show here later in the summer."

The "Moffat Road" building from Denver to Salt Lake City, has just issued the finest advertising literature ever produced by a railway company. It consists of a handsomely illustrated folder depicting mountain scenery along their world famous scenic trip, and a set of 10 souvenir postal cards printed in four colors showing additional scenic gems along the railway. The folder is mailed free upon application, and a set of 10 postal cards upon receipt of 10c in stamps, to defray expenses, by the Traffic Department of the "Moffat Road," Denver, Colorado. This literature is of great interest to those who contemplate a trip to Colorado this summer, and to those who cannot enjoy a personal trip it is a most realistic substitute.

#### Wonderful Eczema Cure

"Our little boy had eczema for five years," writes N. A. Adams, Henrietta Pa. "Two of our home doctors said the case was hopeless, his lungs being affected. We then employed other doctors but no benefit resulted. By chance we read about Electric Bitters; bought a bottle and soon noticed improvement. We continued this medicine until several bottles were used, when our boy was completely cured." Best of all blood medicines and body building health tonics. Guaranteed at Hill Bros. drug store. 50c.

HOW 50c EARNED \$100

Mr. A. Watzke, of Morris, Minn., says: "DEAR SIR: My driving mare got the heaves so bad I offered her for sale for \$15.00 and could not sell her. I have used Gold Coin Heave Powders on her for two months and now I wouldn't take \$125 for her. I highly recommend your Heave Cure." ANTON WATZKE.

**SYMPTOMS OF WORMS** The coat becomes rough; there is a dry hacking cough; the appetite is irregular; sometimes poor, other times craving; the bowels sometimes loose, other times constipated. A yellow mucus collects around the anus. The animal is likely to run down, become thin and poor, the breath generally has a foul odor; the belly may become large, "pot belly." The horse turns up its lips and rubs them against the wall, or licks the manger and shows uneasiness. Worms may appear in such enormous numbers as to invade the stomach and become very dangerous to the animal. Where affected with Thread Worms, which affects the rectum, the intense itching causes the horse to rub its tail against the wall, or to keep switching it constantly.

**DON'T LOSE MONEY** Horses, colts, and other animals if stunted in their growth; unthrifty and misshapen by the clogging of worms in the stomach and bowels are not worth as much as thrifty, spirited, healthy, glossy coated horses. "Gold Coin Worm Powder" makes extra money for you by keeping your animals free from worms.
