

Women as Well as Men Are Made Miserable by Kidney and Bladder Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh, or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a Home of Swamp-Root pamphlet telling all about Swamp-Root, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

With Dowie dead eleven different factions are fighting for supremacy over what remains of the Dowie religion and property. This furnishes a fair test of whether it was a person or an idea that the people of this sect worshipped.—Bix in State Journal.

This is the time of year to ask Molly for a piece of shortcake about the size of the family Bible, decorated with a large congregation of red strawberries and drenched with a liberal soaking of the small end of the milk after it has gone through the separator, M-m-m-m.—Bix in State Journal.

President Roosevelt last week was presented with a solid gold folding card conferring on him a life membership in the National Association of Professional Baseball Leagues. The card will admit the president to all the games played by the different clubs which are members of the association. The card is of regulation baseball ticket size, has the president's photograph engraved in enameled gold, date of presentation and the names of as many cities as there is room for. The president, in accepting the card, said he regarded the game of baseball as the typical American outdoor sport and that he was particularly interested in it because men of middle age could play.

The American people are prone to borrow trouble sometimes. They are always looking forward to crop failures of all kinds. Seldom a winter passes but the fruit is all killed according to the wise ones. The winter wheat is a failure. The grasshoppers, chinch bugs and now the little green bugs are destroying all crops. If it doesn't rain for a few days everything is going to be dried up. If it rains a little more than ordinary we are going to be drowned out. If the wind blows a little too warm we are going to have hot winds that will burn up crops. But we usually manage to get along some way and have enough to eat, and we don't think this year will be different from the other years. We shouldn't get frightened so easily.

One cannot truthfully say that patriotism is dying out when the magazines, which are merely reflectors, show the national holidays as faithfully as they do. The DESIGNER is up-to-date in this as in other respects in its July number. The sketch "How the Flag Came by the Name of 'Old Glory,'" is of considerable historical interest. And a very graceful and well illustrated story, "The Colonel's Coming" also is appropriate for the war-holiday. To the wood architect, or any man fond of making his house or parts of his house of rough-hewn trees, the article entitled "Building with Trees" will appeal strongly.

The little girls will find one of the prettiest flower plays they ever took part in, called "Fairy Godmothers' Botany Lesson." It is a composition of such true poetic fancy that the older folks will linger over it and wish they could take part too.

As for the fashions in the July DESIGNER, the addition of two successful and clever artists of the day to the staff of fashion illustrators, now makes the illustrations help in the making of the dress. The dressmakers' article gives full directions for the construction of a dainty summer costume. The traveling girl will also find directions for a practical and inexpensive outfit for boat and train use.

Imported Walnut Trees

Judge J. S. Stull believes that the German walnut can be grown here for commercial purposes with success. He has imported from Breslau, Germany, fifty trees. They cost him 2 marks or 48 cents in our money. The express on the goods amounted to four times the cost of the trees.—Republican.

There Will Be Some Fruit

John T. Swan examined his orchard the first of the week and brought in some apple tree twigs. On one twig there were eleven good healthy, well developed apples of the winesap variety.

He claims that he will have half an apple crop this year and more peaches than he had two years ago. He is of the opinion that there will be plenty of fruit, although the crop will not make an average one. The prospect of there being some fruit, however, is encouraging.—Republican.

Caught a Badger.

Last Saturday Will Miner living south of Brownville captured an animal, which he failed to class at first sight. The next day Che(ese)ster Rohrs of the Herald force drove over to see his brother-in-law and was taken into consultation as regards the name of the brute. After minute examination they came to the conclusion that it was a badger, which conclusion they afterward verified. Badgers are rather scarce in this part of the country and the specimen was a curiosity.—Herald.

No special delivery postage stamps will be needed after the first of July to insure immediate delivery of a letter. Pursuant to an act of the last session of congress Postmaster General Meyer has issued an order that on and after July first next, if there is attached to any letter or package of mail matter 10 cents of stamps of any denomination, with the words "Special Delivery" written or printed on the envelope or covering in addition to the postage required for ordinary delivery, the article will be handled as if it bore a regulation special delivery stamp.

Invests in Road Machine

The county commissioners have invested in one of the best grading and road making machines that has yet been invented.

A sample machine was sent to this city by the manufacturers and the machine was in charge of an expert operator. Last week it was put to work on the road leading north from the Harmon school house, east of town. It attracted general attention and the work done by it was so commendable that the board invested in the machine.

It is a combined grader and ditcher. It is hauled by a traction engine and the elevator attachment to handle the dirt is propelled by a gasoline engine. The machine can do an enormous amount of work in a day and do it well. It is a great labor saver and will do much toward solving the good road problem in this county.—Republican.

Wonderful Eczema Cure

"Our little boy had eczema for five years," writes N. A. Adams, Henrietta Pa. "Two of our home doctors said the case was hopeless, his lungs being affected. We then employed other doctors but no benefit resulted. By chance we read about Electric Bitters; bought a bottle and soon noticed improvement. We continued this medicine until several bottles were used, when our boy was completely cured." Best of all blood medicines and body building health tonics. Guaranteed at Hill Bros. drug store. 5c.

Prof. W. R. Hart, occupying the chair of psychology at the Peru normal school, has been offered a similar position in Amhurst college of New Jersey, an educational institution of wide renown. Prof. Hart has not yet announced his decision.

The state school apportionment this year is the largest in the history of the state, amounting to \$457,829.11, which gives \$1.23 for each scholar in the state, based on the school census of last year. Nemaha county gets \$5,426.33, Otoe county \$8,750.56, and Johnson \$4,540.20.

With frost on the cotyledonous pumpkin as far south as Missouri, the fodder hardly yet daring to sprout anywhere north of Mason and Dixon's line, and June only four days away, any reference to winter lingering in the lap of spring is highly inaccurate. The only visible evidence of spring is winter licking his chops.—State Journal.

SYMPTOMS OF WORMS The coat becomes rough; the appetite is irregular; sometimes a dry hacking cough; the bowels sometimes loose, other times constipated. A yellow mucus collects around the anus. The animal is likely to run down, become thin and poor, the breath generally has a foul odor; the belly may become large, "pot belly." The horse turns up its lips and rubs them against the wall, or licks the manger and shows uneasiness. Worms may appear in such enormous numbers as to invade the stomach and become very dangerous to the animal. Where affected with Thread Worms, which affects the rectum, the intense itching causes the horse to rub its tail against the wall, or to keep switching it constantly.

DON'T LOSE MONEY Horses, colts, and other animals if and misshapen by the clogging of worms in the stomach and bowels are not worth as much as thrifty, spry, healthy, glossy coated horses. "Gold Coin Worm Powder" makes extra money for you by keeping your animals free from worms.
