A story seriously reflecting on the good character of Wm. M. Armstrong, one of the substantial farmers of London precinct, has been in circulation for two or three weeks, charging him with assault on Alta Shuck, the 11 year old daughter of Jacob Shuck. On Monday in company with Mr. Armstrong, V. D. Lawrence and Jas. Penny, we called at the home of Mr. Shuck. The parents of the girl denied the story emphatically and so did the girl, and made affidavit to the effect that Mr. Armstrong never attempted to assault her, and was not at the house at all while she was there on the lay when and where it was rumored the assault took place. This should put a stop to these rumors.

Ethel Sherwood Wins Piano

The piano contest by the Auburn Herald was closed last Saturday. There were a number of contestants but Miss Ethel Sherwood of Nemaha won the first prize, a fine Adam Schaaf piano furnished by the Auburn Music and Jewelry Co. Miss Ethel was the youngest of the contestants and was handicapped by living on the Missouri river, which cuts off all territory on the east. She made a fair, legitimate fight, and every vote turned in represented an actual collection, while some of the other contestants had direct financial help. Miss Ethel had 58,472 votes more than her leading opponent. She is very popular in Nemaha, and judging from the result has made friends where ever she went. M. T. Hill left Tuesday evening for Fruitland, Texas, where he goes to visit his father, whom he has not seen for 25 years, talking with him his little son, Bertie. Mr. Zook is expecting his arrival and the meeting between father and son will no doubt be a very joyful one. In this connection we might say that this is the first vacation from business that Mr. Hill has had in the past ten years, and one that he has richly earned, and there is not a person of his acquaintance but is glad that he has been able to make this visit so long planned. It is true that his close attention to business has brought its reward in a financial way, for he has one of the neatest and cleanest drug stores in southeastern Nebraska, and a patronage that might well be the envy of many stores of like character in larger towns. We hope that his visit will do him good, and that he will return home refreshed and invigorated for the business of life again. —Shubert Citizen.

Rheumatism

I have found a tried and tested cure for Rheumatism! Not a remedy that will straighten the distorted limbs of chronic cripples, nor turn bony growths back to flesh again. That is impossible. But I can now surely kill the pains and pangs of this deplorable disease. In Germany—with a Chemist in the City of Darmstadt—I found the last ingredient with which Dr. Shoop's Rheumatic Remedy was made a perfected, dependable prescription. Without that last ingredient, I successfully treated many, many cases of Rheumatism; but now, at last, it uniformly cures all curable cases of this heretofore much dreaded disease. Those sand-like granular wastes, found in Rheumatic Blood, seem to dissolve and pass away under the action of this remedy as freely as does sugar when added to pure water. And then, when dissolved, these poisonous wastes freely pass from the system, and the cause of Rheumatism is gone forever. There is now no real need—no actual excuse to suffer longer without help. We sell, and in confidence recommend
