W. S. Baine has decided that the duties of a rural mail carrier are too strenuous for a man of his age, especially as he has had a bad spell of the grip lately. His deputy, Eli M. Knapp, has been appointed in his place, and J. E. Tolly as deputy. Mr. Baine is again carrying the mail, but Mr. Knapp will begin his duties the first of the month.—Stella Press.

The republican county central committee held a meeting at Auburn Monday. It was decided to hold a county convention on Monday, March 2, for the election of delegates to the state and congressional conventions. The primaries will be held Feb. 29, at the usual hour, and at the usual voting place in each precinct.

A resolution was carried unanimously endorsing Geo. D. Carrington, jr., for the nomination for state superintendent.

J. W. Armstrong, chairman, and Geo. D. Carrington, jr., secretary of the central committee, resigned, and Chas. Nash was elected chairman and S. W. Eustice secretary.

Our old friend Arthur V. Walsh of Auburn has received notice that he has been granted a pension of \$12 per month. Arthur was a member of the U. S. Military corps during the civil war. Andrew Carnegie was also a member of this corps, and has pensioned all members at \$12 per month until congress shall pass a law to that effect, a bill now being before that body for the purpose. The late Edward Rosewater, editor of the Omaha Bee, was a member of this corps. There are now but two survivors living in Nebraska—Mr. Walsh and L. H. Kory of Omaha, superintendent of telegraphy for the U. P. railroad.

Harry Rowen was considerably injured Wednesday morning by being kicked by a horse. He was at his brother Alf's, on the farm, and went to the barn to feed. One of the horses kicked him on the upper part of the leg, knocking him down and hurting the leg so he could not stand on it. He managed to get to the door of the barn and called for help, and Alf and Will Sanders, who was there visiting, helped him to the house. The leg swelled rapidly. A horse was harnessed up and Harry drove to town. It was thought at first the bone was fractured, but Dr. Frazier examined it and found it was only badly bruised.

What the County Superintendent Thinks of Our Schools

From the Nemaha County Teacher.

There is a remarkable movement for better things in the way of education in Nemaha. One needs only to step inside the building in order to learn that the system and discipline is as nearly perfect as teachers can make it. Mrs. Kindig is principal; the two lower rooms being taught by Miss Ella Bellas and Miss Nettie Bunn. Mr. Liebhart is janitor and a better man for the place would be hard to find; he keeps the building and premises clean and repaired; cares for the furnace and also aids in disciplining the play ground. There is a marked improvement in the appearance of the interior of the rooms over last year. The school board has a great interest in the school and has done so much for its progress.

I heard recitations in every department, which could scarcely be improved upon. I especially liked and recommend Mrs. Kindig's method of discipline. I noticed that when the children entered her room in the morning they immediately went to their seats and got their books. They had the habit of behaving. They showed a respect for the interior of the school room; they seem to understand that it was a place for work and study and not for running, yelling and scuffling. They were busy. What better time is there than the half from 8:30 to 9 in which to get a lesson. If play is the preference they may repair to the play grounds. At 9 o'clock the school arose and in concert repeated the "Lord's Prayer," then a song, after which Supt. G. J. Kern of Winnebago Co., Ill., who was visiting with me, spoke to the children. One significant thing he said was that not all could be great statesmen and judges, but it was far better to be useful men and women in our own community to do some good piece of work wherever we may be.

The interior of the rooms have been painted, the floors oiled, new single seats placed in the intermediate room and some nice decorations added. It is a pleasure to visit such a school. The people of Nemaha should co-operate with these teachers in every part of their work.

Miss Maude Hanger teaches the Maple Grove school. The room has been prettily papered. Miss Hanger has decorated with pictures, leaves and the children's work. The school has a large attendance and the work is interesting. A fine new roller top desk has been provided for the teacher's use. Miss Hanger has the history classes write stories about the lessons studied.

PAIN

Pain in the head—pain anywhere, has its cause. Pain is congestion, pain is blood pressure—nothing else usually. At least, so says Dr. Shoop, and to prove it he has created a little pink tablet. That tablet—called Dr. Shoop's Headache Tablets—coaxes blood pressure away from pain centers. Its effect is charming, pleasingly delightful. Gently though safely, it surely equalizes the blood circulation.

If you have a headache, it's blood pressure. If it's painful periods with women, same cause. If you are sleepless, restless, nervous, it's blood congestion—blood pressure. That surely is a certainty, for Dr. Shoop's Headache Tablets stop it in 20 minutes, and the tablets simply distribute the unnatural blood pressure.

Bruise your finger, and doesn't it get red, and swell, and pain you? Of course it does. It's congestion, blood pressure. You'll find it where pain is—always. It's simply Common Sense.

We sell at 25 cents, and cheerfully recommend

The editors of the Woman's Home Companion, for whom Jack London is sailing around the world in his little boat Snark, state that he is now more than a month over due at Tahiti of the Society Islands; for which place he sailed from Hilo, Hawaii, on October 27th.

The gas engine with which the Snark is equipped was not working well when Mr. London left Hawaii, and it is supposed by the publishers that he has experienced some more trouble with it, or that he has encountered the doldrums, and that his boat is rolling about, becalmed somewhere in the Pacific.

London sailed from San Francisco on May 4th and reached Hawaii about a month later. He is accompanied on his voyage around the world by his wife, a captain, an engineer, one sailor, and two Japanese servants. The brilliant sailor-writer expects to spend seven years on his voyage around the world, stopping at all sorts of interesting and out-of-the-way places along the route.

I would not take \$500 for what they have done for me." Grand tonic for the aged and for female weaknesses. Great alternative and body builder; best of all for lame back and weak kidneys. PILES get immediate relief from Dr. Shoop's Magic Ointment.

Jim Dahlman, the cow boy mayor of Omaha, got drunk at the waterways convention at Sioux City, attempted to make a speech while he was so full he could hardly walk, and was put out of the hall by order of the presiding officer. The Omaha News says the South Omaha mayor was also drunk but had sense enough to stay in his room. Fine selections these cities make for their officers, isn't it? Dahlman has been aspiring for the democratic nomination for governor, but this will probably put him out of the race.

Stomach troubles, Heart and Kidney ailments, can be quickly corrected with a prescription known to druggists everywhere as Dr. Shoop's Restorative. The prompt and surprising relief which this remedy immediately brings is entirely due to its Restorative action upon the controlling nerves of the stomach, etc. A weak stomach, causing dyspepsia, a weak heart with palpitation or intermittent pulse, always means weak stomach nerves or weak heart nerves. A test will tell. Your health is certainly worth this simple trial. Sold by All Dealers.
