ENEMY OF TARIFF.

Labor World Sees Danger in Bryan Plan of Tariff for Revenue Only.
(From the Labor World.)

Workingmen and producers generally should not delude themselves with the belief that, if Mr. Bryan shall be elected President, his plans for revision of the tariff will present no menace to the country. Mr. Bryan is the professed enemy of the tariff system. He would impose duties, if at all, for revenue purposes only. On articles competing with what he chooses to call trust-made goods he would have no duty at all. Any apparent deficit in import duties arising from revised schedules he estimates would be more than made up by increased imports. Of course, his hope is to strike at the great protection States, which happen to be Republican in politics, like Pennsylvania, New York, Ohio, Illinois, Indiana, West Virginia, etc. It does not seem to matter to him that every dollar's worth of foreign goods in the competitive class coming into the United States on a revenue or free trade basis necessarily by so much reduces the demand for home goods, thus displacing just that much American labor. What he wants to do is to rebuke and avenge himself upon protected manufacturers who do not agree with him in politics and who will have none of him at the polls, says an exchange.

But while Mr. Bryan is gunning for protected industries and Republican States, once his proposed tariff law should be in force it would fall alike upon all sections of the country, the only differences between one State and another being in the degree of hardship imposed.

We hear of workingmen saying that this time they intend to vote for Mr. Bryan, because for the past ten months we have had hard times. But what good will that do? How is a tariff for revenue, ignoring the protection idea altogether, going to open the shops and mills? How will the election of Senators by direct vote start the wheels of industry? Or the publication of campaign contributions? Or the further harassment of the railroads? Or the reorganization of the House, so that the Speaker may be powerless? Why open this country now to the markets of the world when we have not sufficient demand to consume what we ourselves manufacture? Under Republican rule we have just had ten years of unparalleled prosperity. Under Democratic administrations we have never had prosperity for any period, long or short.

POSTAL SAVINGS BANKS

Machinery of Congress Already Started for Postal Savings Bank Law.

A Safe and Sane Plan for the Convenience of the People and the Encouragement of Thrift.

"We favor the establishment of a postal savings bank system for the convenience of the people and the encouragement of thrift."

This is the declaration of the Republican national platform, and postal savings banks will without doubt be authorized by law and established as a part of our financial system by the action of Congress at its coming session, which will be convened in December. Indeed, much has already been accomplished towards the enactment of this law. At the last session of Congress a bill was carefully prepared which met with the approval of the Postmaster General, and was reported upon favorably by the Senate Committee on Post Offices and Post Roads. This bill is now on the Senate calendar and can be acted upon as soon as Congress is convened.

The scope of the proposed law is set forth in the committee report, which is in part as follows:

Committee Report.

The purpose of this bill is to place at the disposal of people of small means the machinery of the Postoffice Department to aid and encourage them to save their earnings. The subject of postal savings banks or depositories is not new in this country and it may be truly said to be quite familiar to the people of Europe and the British colonies. The propriety of establishing postal savings banks became the subject of discussion in England as early as 1807. Every objection to such use of the postoffice facilities urged in this country was vigorously pressed in the long-continued discussion of the subject in England.

For over fifty years private savings institutions waged bitter opposition to the growing sentiment in favor of postal savings banks, but notwithstanding such opposition in 1861 an act of Parliament was passed entitled "An act to grant additional facilities for depositing small savings with the security of the government for the due repayment thereof." That the alarm of private institutions was ill founded is amply proven by the recorded fact that the private savings banks increased their capital by more than ten millions of dollars in the first fifteen years following the establishment of postal savings institutions.

That the postal savings institutions proved successful is satisfactorily attested by the fact that no backward step has ever been taken in England on this subject and by the further fact that in rapid succession the lead of England was taken by other countries.

The primary purpose of these institutions is to encourage thrift and a saving disposition among the people of small means by placing at their disposal in every part of the country ready facilities for the depositing of small sums, with absolute assurance of repayment on demand with a low rate of interest on a limited aggregate amount.

Postal Savings Banks Needed.

In certain parts of our country savings institutions are sufficiently numerous to accommodate the people, but such areas are quite limited, being confined to New England and New York. It is alleged that by reason of the number and location of savings banks there is one savings account to every two of the population of New England, whereas in all the country outside New England and New York the average is only one savings account to every 157 of the population. Taking such figures to be approximately correct and recognizing the fact that the people of all sections of this country are pretty much the same in habits, inclinations, and purposes, it must be obvious to the most casual observer that the people of the South, the Middle West, and the West do not save their earnings as do those of New England from the mere want of secure places in which deposits may be made.

To those who feel inclined to believe that the establishment of postal savings depositories will involve an element of paternalism it seems quite sufficient to suggest that the machinery of the Postoffice Department is now in existence and will continue to exist without diminution of expense whether such depositories are created or not and that the establishment of these

depositories for the benefit of the people will not involve one farthing of loss to the Post-Office Department, but will probably, on the contrary, prove more than self-sustaining. Very slight computation will clearly demonstrate that the postal savings depositories can not burden the Post-Office Department with any additional deficiency.

Favors Publicity Law.

If I am elected President, I shall urge upon Congress, with every hope of success, that a law be passed requiring a filing in a Federal office of a statement of the contributions received by committees and candidates in elections for members of Congress and in such other elections as are constitutionally within the control of Congress. —From Hon. Wm. H. Taft's speech accepting Presidential nomination.

Would Mortgage Farm.

A farmer on Rural Route 2, Empire, Ga., W. A. Floyd by name, says that Bucklen's Arnica Salve cured the two worst sores he ever saw, one on his hand and one on his leg. It is worth more than its weight in gold and he would not be without it if he had to mortgage a farm to get it. Only 25c at druggists.

BOUTELL ON BRYAN.

Is His "Shall the People Rule?" Simply "a Local Issue?"

Congressman Henry Sherman Boutell of Chicago, commenting on Mr. Bryan's speech in Iowa, says:

Mr. Bryan's question, "Shall the people rule?" implies that somewhere in this country the people do not rule. The only States where the people do not rule are the States that are expected to give overwhelming majorities for the Democratic ticket. Perhaps Mr. Bryan thinks that his question is purely "a local issue." If he is sincere, I challenge him to make a speech in Vicksburg, Miss., on "Government by the People." Let him repeat one of his famous anti-imperialist speeches, simply changing three words, substituting "Mississippi" for "Philippines" and "black brothers" for "brown brothers." Let him suggest that we have as chairman of his meeting John Sharp Williams, leader of the Democrats in Congress, and as vice-chairmen the other members of the Congressional delegation from Mississippi.

And after he has made his speech in Vicksburg, if he shall have escaped the rule of the people in that community, I dare Mr. Bryan to repeat his oration on popular government in Charleston, S. C., with Senator Tillman as chairman of his meeting. Mr. Bryan's sentiments have a purely geographical sincerity. His epigrams and startling conundrums are especially designed to meet local demands. Of this nature are all his views on tariff and taxation.

Mr. Bryan's proposition that every time a trust is formed a tariff schedule should be repealed, and every time a trust is dissolved a new duty should be added, is too funny even for comic opera.

If on March 4 next Mr. Bryan should become President, with a Democratic Congress in both houses, and should actually place upon the statute books the financial and economic vagaries delivered by him in his speech of last Friday, it would plunge the nation into bankruptcy and bring on industrial chaos. If he should begin by repealing the duty on sugar to punish the sugar trust, he would upset the national finances by losing \$60,000,000 a year in revenues, and would stir up a revolution in Louisiana, Utah, Colorado and Michigan. Then, if he should repeal the duty on cotton goods, because some hustling manufacturers of New England or the Carolinas were dumping goods in China in rivalry with England and Germany, he would divert other millions from the treasury and invite still further industrial ruin.

But, of course, Mr. Bryan would do none of these things, any more than he will invade the solid South and summon the cohorts of Democracy to the defence of the Constitution with the battle cry "Shall the People Rule?" Mr. Bryan simply does not mean what he says. What he utters with Chaddandian uncton in the North he repudiates with Pecksniffian duplicity in the South.

Thousands Have Kidney Trouble and Never Suspect it.

Prevalency of Kidney Disease. Most people do not realize the alarming increase and remarkable prevalence of kidney disease. While kidney disorders are the most common diseases that prevail, they are almost the last recognized by patient and physicians, who content themselves with doctoring the effects, while the original disease undermines the system.

What To Do. There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy, fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in fifty-cent and one-dollar sizes.

You may have a sample bottle and a book that tells all about it, both sent free by mail. Address Dr. Kilmer & Co., Binghamton, N. Y. When writing mention this paper and don't make any mistake, but remember the name, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y.
