

THE Chicago, Burlington & Quincy Railroad Company has adopted the central time.

THE President has accepted Major Nickerson's resignation—and rather willingly we opine.

THE New York World says, the Tewksbury tanyard can now resume business under cultured auspices.

TEN tons of canary birds from the Hartz mountains passed through Omaha, Monday, on their journey to San Francisco.

MORE sad details of the terrible storm on the lakes last Sunday, are still being received. The number of lives lost is still increasing.

THE new standard time went into effect in New York City, at noon, Sunday. The changes on all public clocks in large blocks excited much interest.

EVEN though Chicago evidently has the "drop" on St. Louis, the last mentioned city's taxable property, real and personal has increased \$20,000,000 in the last year, being \$210,000,000.

A MONSTER trial begins in Hungary shortly, the prisoners being three persons accused of participating in the recent anti-Jewish riots. To prove the guilt of the prisoners, 1,400 witnesses will be called.

THE Woman's Tribune of the 1st contains the following paragraph: "Miss Anthony has returned." We are certainly in "hard luck." We expected better things of Susan B. after her European travels.

IT is believed in London that the prosecution intends to treat the case of O'Donnell as one of ordinary murder, and nothing of a political nature will be introduced, unless render necessary by the mode of defense.

THE sensational liars of the press have taken the bones of Abraham Lincoln for their latest foot-ball. Some judicious assassinations in the vicinity of Springfield would be hailed with delight all over the civilized world.

EIGHT thousand people attended the sale of short-horns at Dexter Park, Chicago, recently. The drafts were from the herds of T. Corwin Anderson, of Kentucky, and C. M. Clark, of Minnesota. Fair prices were realized.

THE Chicago, Milwaukee & St. Paul company have given formal notice that they will withdraw from the Omaha pool at the expiration of 30 days. Has squared accounts with the pool, and will henceforth "go it alone" for the Northwestern traffic. Intense excitement prevails in railroad circles, and a fierce war of rates is anticipated.

WE have an item of a good deal of importance to good looking ladies. A millionaire of Baltimore lost his wife a few years ago, and that good woman on her deathbed requested her husband to take care of three female friends of hers. He did so, and when he died the other day he left \$60,000 each to two of them and \$40,000 to the third. He explained that he cut the third short \$20,000 because once, when he tried to kiss her, boxed his ear. The lesson should not be lost.—Topics Man.

THE Republicans of Massachusetts don't know any more than a grey hound the writer once owned. He had a deadly hatred of skunks and never lost an opportunity of killing one. Afterward he would go out to the carcass every day and give it a good shaking up as long as the remains lasted. This no doubt afforded the dog a great deal of satisfaction and probably kept him free of fleas, but it made him an undesirable domestic companion. So with the Massachusetts Republicans. They are not satisfied with having killed old Ben Butler, but go out every day and shake up the remains, to the great detriment of the atmosphere and the general discomfort.—Journal.

WE issue a supplement, this week, containing affidavits and statements from our Land Officers, C. E. Moore, I. J. Starbuck, Page T. Francis, Galen Baldwin, and in fact all the parties which the Bee and Herald charged as concerned in the so-called Stinking Water land frauds. These affidavits and statements speak for themselves, and are so complete, as to require nothing by way of explanation from us. Let our readers give them a careful and candid perusal, and judge for themselves.

THE adopting of a uniformity in time by the various railroad companies may lead to a reform that will certainly be of great importance to them and no doubt to the people at large. The proper adjustment of time will be of infinite advantage. It has been carefully studied and planned by those in charge of the responsible business of railroad transportation, prompted by considerations of safety to millions of lives committed to their charge, and a strong desire to prevent confusion and disaster resulting from varying and conflicting standards.

The departure, innovation or revolution, as you may term it, has met with some opposition, but the plan adopted seems so complete within itself that we see no reason why it will not be universally adopted. The new system divides our country from ocean to ocean in five different parts, each part or division representing fifteen degrees, embracing from 60 to 120. The first is the 60th meridian line. The eastern division is the 75th line, passing through Central New York, East Pennsylvania near Philadelphia, and striking the ocean at Cape May. The 90th passes through Wisconsin, Northern Illinois, near St. Louis, West Tennessee, Mississippi and near New Orleans to the Gulf. The 105th or mountain line, passes through the far western, and the 120th through the Pacific states and territories. The difference in time between the two extremes is about five hours, and the Standard time from terminal railway points in each upon which calculations and adjustments are made by the change adopted and comprehended in the uniform space of thirty minutes, which will be the greatest difference between local and standard time. The divisions are called inter-colonial, Eastern, Central, Mountain Pacific time. The time in use here will be known as the Central, and based on the 90th meridian, which is nine minutes slower than Chicago solar time.

COL. A. K. McCURE, the dignified editor of The Philadelphia Times, has been arrested for libeling a man by the inoffensive name of Smith. The Colonel seems to have retrograded considerably since his visit to the Louisville Exposition. It is beyond our comprehension how any man who has held up a pair of sevens against Henry Watter-son's three queens could so far forget himself as to slander a humble and inoffensive member of the meek and lowly Smith family.

THE Secretary of State of Illinois, has licensed the Chain of Rocks Bridge company, which propose to bridge the Mississippi river ten miles above the big St. Louis bridge. The capital stock is \$2,000,000. The project is believed to be in the interest of the Gould lines and the Chicago and Alton Railroad Company.

JUST now, as winter is setting in, the Apaches have concluded to surrender to Crook and come into their reservation. When the spring time comes these well-fed gentle scalpers will pull off their tags and steal away with their ponies and go on the war path.

THE Superintendent of West Point Academy calls attention in his report to the increased frequency and brutality of hazing there. He advocates a system of summary punishment for offenders.

Meeting of Teachers' Association. The Red Willow County Teachers' Association will meet at Indianola, November 30th and December 1st, 1883. Exercises to commence at 2 o'clock, P. M., Friday, and close on Saturday, at 12 o'clock, A. M. This meeting is in accordance with the unanimous vote of the Teachers attending Institute last summer, and I trust every Teacher in the county will make earnest effort to be present.

The Executive Committee have arranged for part of the program a Literary Entertainment by the Teachers to be given on Friday evening. For Friday afternoon and Saturday forenoon, the following topics have been assigned: Physiology, Language teaching, Decimals, and the "Metric System;" also, several discussions.

This session of the Association promises to be unusually interesting and profitable, and I would urge upon the teachers a feeling of personal responsibility regarding it; it is their meeting; the stimulus and improvement which each may derive, and be able to take to the school room should be much more than the little time and trouble required. And I would respectfully request the school boards of the several districts where schools are in session, to permit the teachers to attend the Association without loss of time, this will not only be encouragement to attend, but put them under obligation to do so. All school officers, and others interested, are cordially invited to be present. Respectfully,

C. L. NETTLETON, President of Association. McCook, Nov. 19, 1883.

Republican Valley.

A writer in the Burlington Hawkeye sends the following paragraph as the result of his observation in crossing this state: "Nebraska again rejoices in the abundance of her harvests; the fields, storehouses and cribs along the line verify the assertion. But the crowning glory of her fruitfulness is not beheld until we reach the Republican valley, where the corn fields fairly groan under the burden they are carrying. The lands in this valley and vicinity are being rapidly taken up by settlers, whose modest little cottages are thickly strewn through the valley, and dot gently sloping hillsides for miles back from the river.
