 The B. & M. Pharmacy will, in a few days, open up a large invoice of fine medicines, perfumery and druggists' sundries.  
 A lady has gone to Nebraska City to organize a base ball club. May she not be struck (out) on a "fly" young man.—Gazette Journal.  
 Our Valley Grange correspondent writes that Andrew Boyer lost six head of cattle, last week, thought to have died with the black-leg.  
 A number of new residences are in course of erection in West McCook. Almost every week a residence or business house is started in our booming town.  
 Gatewood & Baker, Dentists, from Plum Creek, Neb., are in town, and all who desire any dental work done should call at their office in the Churchhill House.  
 Commercial men who come up on No. 1, instead of remaining at Indianola, come to McCook, and spend the night and go down in the morning. Indianola needs a good hotel badly.  
 While making up a train in the yards, Monday, a flat car was switched against a box car with sufficient force to mount the box car, which was backed by other cars loaded with iron, and break in two.  
 Fall term of school opens on Monday with Charlie Boyle as Principal vice W. S. Bye, who occupied that position during the fall term. Miss Jamison will assist Mr. Boyle in "teaching the young idea how to shoot."  
 F. P. Allen has moved his house from West McCook to the rear of Hamilton's harness shop, on Main street, and is having an addition built to the same, which will make him a comfortable dwelling when completed.  
 Frank Morrow was up to McCook, Saturday. He says it makes him tired to see how slowly everything in the "Magic City" moves.—Courier.  
 It makes the people of McCook smile at such puny, impotent, specimens of envy.

We remove our hats and take pleasure in introducing the first Board of Trustees of the village of McCook: V. Franklin, G. L. Laws, G. W. Daniels and H. C. Rider. Permit us also, our first Mayor, J. E. Berger, and Treasurer, W. F. Wallace, and Attorney, I. J. Starbuck. Snook? Well, yes.  
 McCook was honored, last week, by a visit from a notable party of railroad officials and others connected with the B. & M. Company. General Manager Holdredge, General Passenger Agent Eastis and the Chief Engineer. Mr. Phillips was in town a few days looking after the interests of the Lincoln Land Company.  
 Mr. McIntyre has been awarded the contract for the Bernard brick. Mr. Sibbett of Indianola, will furnish the brick—about 85,000. Benj. VanDyke of Indianola, will put up the foundation and walls. The stone for the foundation is already on the ground, and the excavation for the cellar will be commenced at once.  
 In our rambles around town we noticed that a number of dwelling houses are in course of erection in West McCook. C. E. McPherson is running a meat market and grocery, and A. Probst is conducting a bakery in fine shape on West Dennison. Mr. Probst is a No. 1 baker, and is assisted by his brother Louis, also a No. 1 hand.  
 We have in stock a fine line of the latest style calling cards, also suitable type, and are prepared to accommodate all who desire a nice card. Our job department is fitted out with new type and presses, and we are constantly adding the latest job faces. Give us a call, for we think we can do your job work in a neat and tasty manner.  
 James McCotter, Mr. Farley's next best man, was kicked in the face by a broncho, Sunday afternoon. The injury rendered the operation for hair-lip necessary, which was scientifically performed by Dr. Willey, the B. & M. Surgeon. Jim will be disabled for about a month; but the Doctor says he will be able to mash murpheys in a short time.  
 Rogers have received a stock of overcoats that exceeds anything ever brought into the valley. They range in price from \$3 up to the finest, and the man who goes around shaking with cold when he can get one of these good, warm coats at a price so low that all can buy, had better go back east and give up the ghost, then probably he will have no use for one.  
 Culbertson now sports a full-fledged literary society, which meets every Tuesday evening. An extended and interesting program for Tuesday evening of this week was in the Sun, which will be performed by the intelligence of the burg. Won't some literary gentleman or lady of McCook take the initial in the matter and organize Lyceum here. Give the "young man eloquent" a chance.  
 Thomas Rees, Esq., of Clayton, N. Y., who visited his son, T. G. Rees, Chief Dispatcher at this place, some time since, writes that he "feels like selling out and coming West to pass the rest of his days." From the illustration shown our reporter of Mr. Rees' residence, we are forced to conclude that we have a grand country, that he should be willing to leave it to come and live in the "Great American Desert (?)"  
 The death of Delbert Vastine has cast a gloom over the entire community. He passed away Thursday morning at 8 o'clock after a short illness of inflammation of the bowels. Amiable and genial in manner, honest and upright in character, and although young in years he won the friendship and esteem of all who knew him. His remains were followed to the grave by a large concourse of sorrowing friends and relatives. The bereaved parents have the sympathy of the whole community.—Culbertson Sun.

There seems to be a great rush to get hold of land in Red Willow county, and in this vicinity. Everybody is profoundly impressed with the belief that this country will receive an immense immigration in the spring, and are "rustling" accordingly. All eastern people desirous of becoming homesteaders are turning their eyes Republican Valley-ward, and in a twelve-month there will be very little government land unoccupied in the Upper Republican valley, and the Magic City will blossom like a rose. Vide.  
 Fall term of school ended on Friday last. Both teachers and pupils have labored under disadvantages during the term just closed which would materially elevate the standard of the school were the same removed or rectified. Not having a register, the principal did not keep any record of the school, and there is necessarily nothing to show what progress our boys and girls have made. Parents should be alive to this matter of the education of their children, and see that they have all the advantages and helps within their power and means to provide. Some steps ought to be taken before the opening of the winter term.  
 An individual of the "talk-you-to-death" genus, J. H. Tignon, by name, registering as from St. Louis, and claiming to be with the State Journal Co., has been doing McCook, this week, soliciting advertisements at \$3 each, for a hotel register which he presents to the landlord who will accompany him on his tour soliciting. A representative of the Journal who happened to be in town denies that he has any connection with the company, and also states that this same individual is a gambler who has made a number of thousand dollars in this system of gulling the unsophisticated, which he resorts to to make his stake.  
 Now is the time to consider the project of having a creamery at McCook, next spring, to utilize the milk of the hundreds of cows in this vicinity. Creameries have been in operation all over this state for a number of years, and all have been big paying investments when properly managed. As all are probably aware there are quite a number of creameries down the valley, and from the reports made concerning them in the fall, they have all of them been successful in every way. We have the lacteal fluid in abundance, the capital, energy and push, and all we need is some one to take hold of the matter, and we can have as fine a creamery in this place in the spring, as any in the valley. This matter has been agitated in a measure during the fall, and decisive steps should now be taken, and another industry added to our flourishing, prosperous little city.  
 The Creston, Iowa, Daily Advertiser, of the 20th, contains the following account of the marriage of Tom Bissett of our city:  
 This paper failed heretofore to note the wedding of the editor's old friend, Tom Bissett, of McCook, and Miss Tillie Koch, of Rock Island, Ill., which occurred at the home of the bride's sister, Mrs. Frank Beerke, in this city, last Saturday at 12 o'clock noon. The happy couple left on No. 3 the same afternoon, for their new home, McCook, Neb. The Advertiser wishes them much joy in the new life they have entered upon. Tom's many friends in the round house here, determined to give him a charivarie, and as the newly married couple were not going to remain in the city over night, the boys congregated to the number of about 100, soon after noon, and charivariated them. Tom came to the front like a little man, and gave the boys a bill, with which they bought refreshments and discussed them in the engine house last evening, and a jolly time they had, too.

 W. C. LaTourette, our thriving hardware man, has moved into the handsome residence recently built by Mr. Stoddert, and is very comfortably situated indeed.  
 Major Criswell and Colonel Snavely, two of Indianola's legal lights, were busy Friday and Saturday of last week, in looking after the interests of a number of clients, before our land officers. Contesting is decidedly a la mode, this fall.  
 Mr. Tom McCartney and our reporter took in the county-seat, Sunday. In company with Mr. and Mrs. W. H. McCartney and Misses Wilkinson and Papin, they enjoyed the hospitality of Senator and Mrs. Dolan at Longview, Sunday evening.  
 Senator and Mrs. Dolan, Mr. and Mrs. W. H. McCartney, and Misses Wilkinson and Papin came up to hear "Home" on Wednesday evening. A number of other Indianola people who intended to be present were disappointed in their train.  
 Patrick Egan, the Irish patriot who lately signified his intention to become a citizen of this "land of the free," has taken out papers on a homestead, about four miles from McCook, in section 5. Mr. Egan has also made several other moves in the matter of securing real estate in this vicinity, arrangements of which are not yet complete, which go to show that he is firmly impressed with the fact that McCook will be the best town in the Upper Republican Valley. He expressed himself as being amazed at the intelligence, culture and thrift of our prosperous frontier town, and such is the universal comment of all who come here.  
**For Sale or Trade.**  
 We have a number of wood stoves to sell or trade for wood.

 OFFICE OF OSGOODBY'S IMPROVED SAFES, 17 S. Broad Street, ATLANTA, Ga., October 15th, 1883.  
 Dr. Rush's Medical Association:  
 DEAR DOCTORS.—The three bottles of "Dr. Rush's Regulator" I ordered were received by express last week. I have taken nearly one bottle and am thoroughly satisfied with the result. For over two years I have been troubled with sharp pain at my heart. My physician, upon examination, pronounced it enlargement of the heart and was unable to give me any relief. The trouble grew worse until I had become convinced that I could not be cured. While in New York City, last week, I called upon one of the most prominent physicians there, who enlarged me \$25 for an examination and then recommended your "Regulator." Knowing you to be a regular Medical Association, and not a patent medicine scheme I ordered the three bottles. I have not been troubled since I commenced taking it, but shall continue and take the entire three bottles so as to obtain a permanent cure. You have my sincere thanks.  
 I am, gentlemen, Very respectfully,  
 Wm. G. OSGOODBY.
