Friday was "Good Friday"—to railroad men at least, as on the evening of that day the pay car made its monthly appearance at this station.

What has become of the leap year ball the ladies proposed giving? Would it not be a good idea to unite forces and have a big blow-out?

Two horses attached to a wagon indulged in a spirited go-as-you-please along Railroad street, Friday, with no damages or injuries resulting therefrom.

Parties wishing to purchase a first-class machine can be accommodated by calling on John A. Lee, who has the agency for the celebrated Wheeler & Wilson Sewing Machines.

"Returning to our summer villa" is quite the rage this spring. Engineer Rollins has caught the "moving spirit," and betaken himself and family to his summer residence, northeast of town.

A number of families arrived from Gilman, Ill., this week. They brought with them two or three car loads of household effects, implements, stock, etc. This arrival increases our population about twenty-five.

The Harlow law suit promises to be an interesting one in the extreme. Dr. Johnson was called to Indianola, last week, to serve papers on the sheriff, replacing the 40 head of horses, attached by the sheriff, some time since.

Col. Burch's Hand Book of Red Willow County has reached us. The Colonel is a ready writer, and an acute observer, and during his travels over our county gathered together a fund of interesting information of our county and its people which ought to receive a general circulation.

A large stock of wall paper just received and for sale cheap.

S. L. GREEN.

During the rain storm of Sunday afternoon Mr. Doyle of the Willow lost a valuable bull—the same being struck by lightning. The animal was valued at over a hundred dollars. We are informed by residents of the Willow that the storm was more severe in that vicinity than in this immediate neighborhood.

The meeting of the Board of Trustees held Wednesday evening, was the most interesting and business-like session the Board has ever held. The determination was freely expressed that unless certain ordinances were promptly complied with, the superiority of the ordinances would be vindicated. Either revoke or enforce.

Several parties indulged in racing their horses on West Dennison street, Sunday afternoon, contrary to the ordinance of the village. If you want to race your horses, it strikes us that the race course is the proper place, and week days the proper time to do so. If you do not have any regard for the day, out of respect for the feelings of those who do, assist.

It has been suggested to us that we call the attention of the proper parties to the condition of our streets where the water mains cross them. The earth at some of these places has sunk a number of inches, and make a dangerous rut to drive over. We hear of two or three buggies having been broken in this manner, and it might not be amiss to have the ruts filled up.

From Denver to McCook is a long time between drinks—even for the heroic dude, as was again evinced by the undefined haste with which a spider-legged member of the genus rushed up town from the depot, Saturday afternoon, after No. 40 arrived. After returning to the train equipped with two large bottles of the ardent, the gentle dude recounted the circumstances of his exploit extraordinary to the evident satisfaction of the Nubian Pullman porter.

A runaway occurred on Main Avenue, Saturday afternoon, which gave great promise of being calamitous in its results, at the outset; but, owing to the heroic bravery of a gentleman, who grasped the tail-board of the wagon to which the spirited, fleeing animal was attached, and stopped its mad career, a horrible catastrophe was averted, and our budding hopes of having a half-column local nipped. J. F. will have to exercise his mouse-colored equine more freely to forestall future contingencies of a similar nature.

A spirit of improvement has taken possession of our business men. Frees and Hocknell have remodeled the rear of their office, until recently used as a sash room, and converted it into a private office, which they have fitted up very neatly, and now have one of the most pleasant offices in town. A. P. Sharp has had his shop very nicely papered and painted, and has replaced his old chair with a handsome one of the latest pattern. H. W. Pike has enclosed his lumber yard with a high fence, and finished the interior of his office, and now has one of the neatest offices and best arranged yards in the Valley.

The gentlemen of the brass collar, General Manager Potter, Assistant General Manager Holdredge, General Superintendent Calvert, General Freight Agent Miller, and Master Mechanic Hawksworth, pulled into McCook, Sunday afternoon, from Denver. The special train, consisting of Potter's and Holdredge's cars, was side-tracked and remained at this place until morning, when the party continued their journey. Dr. Willey says he remembers when Mr. Potter, the father of the great Burlington road, sold peanuts on the train. From peanut vender to General Manager is quite a satisfactory transition.

One timber-culture proof—only one—has been made in Furnas county. The patent was received for record at the clerk's office, last week. It was an innocent enough looking parchment, but was a matter of some curiosity, being the only deed of the kind issued to a resident of the county. Mr. Enos Clark of Arapahoe is the owner of the claim, the title to which is thus conveyed by Uncle Sam.—Beaver City Times. Red Willow goes Furnas one better—at the least calculation; she boasts of one who has made timber-culture proof, long since, and still preserves intact as an heirloom the original bushel of walnuts planted on said timber claim.

A number of our business men were shadowing three suspicious individuals, Tuesday night. The actions of these shadowed parties was such as to excite the suspicion of some of our citizens, and from circumstances related, it is not improbable that the steps taken in remaining up all night, saved their stores from being robbed. We are of opinion that it would be to the advantage of our business men to raise sufficient means to employ a night watchman. An effort has been making in that direction, but we believe the amount subscribed is still some dollars too small. That we are most likely to be afflicted at different times with tough customers, "to be forewarned," may be, "to be forearmed."

A young man representing the Crete Nursery has been in town, all week, assisting those of our citizens who ordered from that firm, in planting their trees, hedges, etc. If all the towns in the valley do as well in the way of observing Arbor Day as McCook, they have done well indeed. A row of fine trees has been planted, on Madison street, from J. B. Meserve's corner to the north corner of J. R. Phelan's property, which will add immensely to the appearance of the street if they grow, and with our superb water facilities there can be little question but that they will. Messrs. Franklin and Kenyon have planted a hedge between their properties. Messrs. Hocknell and Phelan have planted a row of trees around their entire block, and within this a row of hedging. They have also planted a row of evergreens, shrubbery, and other ornamental plants, which will make their properties the handsomest in Southwestern Nebraska. Superintendent Campbell also planted a row of trees around his residence and others in his yard. G. W. Daniels planted a row of trees along the north and west sides of his residence, and otherwise improved the already neat appearance of his yard. A. M. Kelley and others have done likewise.

In company with Squire Fisher and A. E. Lytle, our reporter took the noon train, Tuesday, for Benkelman, to participate in the session of the Stock Association, which met in that town on said day. Although reaching the scene of action rather late to give the Association the benefit of our experience in their deliberations, we were able to procure the minutes of the session, which appear in their entirety elsewhere in this issue. It will be observed that the preliminary round-up will commence on the 15th of May, beginning on the Medicine, and operating westward until they join the general round-up at the head of the Frenchman on the 25th day of May. Also, it will be observed that the question of mavericks and fencing in large tracts of the public domain receive the attention of the Association. An Association, such as met at Benkelman, Tuesday, if the members constituting the same are energetic, may be very effective. Our reporter noted a number of dead cattle along the road, with quite a sprinkling of dead horses. All stock is looking poor and thin, and need warm, invigorating weather to brace them up. There is no denying the fact that the past winter was a severe one on stock.

Meeting of Trustees. The following members elect qualified and took the oath of office: G. L. Laws, J. R. Phelan, J. E. Berger and V. Franklin. J. E. Berger was re-elected Chairman, and W. F. Wallace, Treasurer, as was also the present incumbent to the clerkship. The employment of an Attorney was held over. Petition of the I. O. of G. T. was read and on motion laid on the table. Bond of Jos. Braun accepted. Ordinance No. 4 amended so as to make the liquor license \$650 per year, instead of \$500, as heretofore. Clerk instructed to issue Braun license: J. R. Phelan and V. Franklin voting aye; G. L. Laws, no. Petition and bond of E. Kendall, for billiard license, was read, and bond rejected for want of sufficiency in bondsmen. On motion, clerk was instructed to inform the proprietors of the two drug stores that unless they make application for permits before the next meeting of the Board, (April 23,) they will be proceeded against under the ordinance. Also, clerk was instructed to notify the proprietor of the billiard hall that in case of failure to apply for license before the next meeting of the Board, similar action would be taken. Board adjourned to meet Wednesday evening, April 23, 1884.

The scenery, lamps, etc., for Meard's Opera Hall, have arrived.

Mr. and Mrs. Ed. Ryan of Culbertson were in town, Wednesday. Ed, we think, makes the handsomest newspaper man in the valley. His beaming countenance is the result of his connection with the Sun—of Culbertson.

Messrs. Geo. F. Conn, L. E. Jones, H. Lehman, and Misses Kate Conn, Clara Cliff and Lucy Braun, all of Sutton, Neb., came up to McCook, Thursday and returned Saturday. All save one or two of the party entered land in this district.

Dr. Constable of Fort Collins, Col., now occupies the room in the rear of the Citizen's Bank, until recently, Dr. Willey's dormitory. We have the information that Dr. Constable has a large body of land northwest of McCook, and that he intends stocking it with blooded cattle.

Dr. Z. L. Kay, of Cullum, Ill., and family, arrived in McCook Saturday night. Dr. Kay comes into our midst well recommended, and we bespeak for him such a share of patronage as his ability and experience merit. The doctor's card appears on the first page of this issue. For the present however he will be found at S. L. Green's drug store.

"Uncle" Stephen Bolles of Box Elder, one of our most extensive stockmen, invaded THE TRIBUNE office, Monday, acting as guide to a number of ladies from Box Elder, who were anxious to see a printing office. We are always pleased to show the ladies the mysteries of the "art preservative of all arts."

C. N. Batchelor returned from an extended tour through California, New Mexico and other western states, Saturday. His travels have only impressed him the more deeply that this is a good country to live in right here in Red Willow county.

Frank Mitchell, son of H. H. Mitchell, about 17 years of age, died at the Colvin House, Thursday morning about 4 o'clock. Death was the result of a complication of diseases. He was first taken down with the measles, following which came pneumonia, and to cap the climax, his heart finally refused to perform its functions, and after battling with this dangerous phase of the case two days, death ensued. His parents and relatives have the sympathy of the community.

Jacob Randel has bought 80 acres of section 16, and is building a house on it just east of the Red Willow bridge.

A very enjoyable birthday party was given at M. B. Brown's, last week, for two daughters, Misses Emma and Roxy. Lots of presents.

J. A. Taylor is adding somewhat to his fine fruit garden. He has leased the Brown half section, which adds fine pasturage and hay land to his range.

James F. Clark has sown 25 acres of wheat and is preparing for a large acreage of corn which he will put in with a "lister." He has lost 5 or 6 head of cattle during the past winter.

"DELIGHTFUL."

No Medicine Can be Compared to Marsh's Golden Balsam.

"Last month I took a severe cold. I coughed terribly and could not sleep nights. I had a druggist prepare me some cough syrup, but it did me no good. I then tried MARSH'S GOLDEN BALSAM and was cured at once. It is a delightful remedy."—Henry L. Cook, Sedalia, Mo.

"I have used many cough remedies in my family, but none that could possibly be compared to MARSH'S GOLDEN BALSAM."—F. E. Anderson, Leavenworth, Kansas.

"Please send me six dozen MARSH'S GOLDEN BALSAM. Everybody likes it and all call for it."—M. W. Wilson, Druggist, Burton, Mo.

MARSH'S GOLDEN BALSAM, the famous throat and lung medicine, and MARSH'S GOLDEN BLOOD & LIVER TONIC, the great blood purifier and liver corrector, are for sale by S. L. Green, Druggist, McCook. Large bottles 50 cents and \$1. 46.

MARRIED.

LOOMIS—MASON—On the 5th day of April, 1884, by Judge Ashmore, F. Alfred Loomis and Betsy Jane Mason, both of Red Willow.

A bullet from love's pocket pistol has pierced one of our number, and the ranks of Benedict's receives the corresponding increase of one. Their Red Willow friends wish them a plethora of grainery and—crib. UNCLE.

SOUTH SIDE.

Mrs. Oscar Russell has the measles. While attending to some land business, north of Indianola, last week, I. T. Birdsall had the misfortune to get his horse so injured that he was obliged to leave her and return on foot. Mr. B. is now sick, which accounts for the Driftwood mail not being carried this week.

MARRIED.—On Tuesday night at the residence of the bride, the Rev. Dungan officiating, Mr. A. N. Nettleton to Mrs. S. M. Hartley, both of Driftwood. On Wednesday night a number of young men (so called) conceived the brilliant idea of entertaining the newly married couple with music extracted from old pans, boilers, etc. After considerable exercise of this kind Mr. N. went to the door to see if "Tophet" had really turned loose, when one of the party, with an assurance which would have made a "government mule" hang his head with shame, demanded two dollars as the price of their absence. The demand was not complied with. We extend our heartfelt congratulations to the happy pair, and wish to assure them that this act of the young people is far from being endorsed by the intelligent citizens of the precinct. JOSIE.

THE IDEA

Of sending resolutions to Bismarck! What good would they do him? What could he do with them? Now, he is a practical man and expects something practical from American people. If they had sent him one of our cards, he would have smiled all over like a plate of sauerkraut. But what can you expect in a country where they want to put the dogs under bonds? Call at Pike's New Lumber Yard for particulars.
