THE UNION PACIFIC.

A Summary of the Report of President Adams.

At the quarterly meeting of the directors of the Union Pacific railway, recently held in Boston, President Adams presented a report of which the following is a summary:

To the Directors of the Union Pacific Railway:-In view of the many unauthorized statements which have been put forth, both publicly and privately, in regard to the finan-dial outcome of the operations of the Union pacific system during the past year, it seems advisable to submit something authentic. I have caused the following statement for the year cnding June 30 last, to be prepared. The period covered includes the last half of the company's fiscal year of 1883, and the first half of 1884. This period was one of general rail-road depression, more especially felt by the Union Pacific system, owing to the construc-tion, competing roads and the prevalence of war rates. The twelve months in question covered, therefore, as unfavorable a period as the Union Pacific system is likely to pass through. During this exceptional period, after paying every fixed charge, including fund, and all liabilities to the government, the surplus income of the system applicable to surplus income of the system applicable to surplus income of the system applicable to dividends amounted to 5.23 per cent on the company's capital. It is proper to add that the earnings of the summer months are always much larger than in the winter. Those of the second half of the year are generally about 20 per cent more than those of the first half. The Oregon Short Line will be complet-ed to Huntington the screed point of comed to Huntington, the agreed point of con-nection with the Oregon Railway and Naviga-tion company's road, by the 15th of Novem-ber. The first connection will be effected and there is every reason to believe that this will immediately result in a large increase in traffic, both for the Oregon Short Line and the Union Pacific. The latter will thus be relieved of a heavy financial burden which it has been forced to carry much longer than was artici-pated. The land sales have been larger than ever before.

COULDN'T MAKE IT.

The Railway Managers Adjourn Without Accomplishing Anything.

The western railway managers held another long session at Chicago on the 19th, and finally decided, after five days of consultation, that any joint agreement with a view to the formation of pools on Colorado, Utah and Nebraska business was not possible in the present temper of the roads. As one of the managers expressed it, "We have fought ourselves to a standstill. As was thought probable at the outset, the tripartite agreement has proven a bar to any compact which would be satisfac-tory to the Burlington and Northwestern roads, and the Milwaukee and St. Paul and Rock Island roads holding out for its continu-ance prevented the formation of any new combinations. This was conceded on all sides at the secret session of general managers on the last day, and the resolution of the day previous to adjourn and leave matters in statu ouo was again brought forward and carried. to a standstill. As was thought probable at quo was again brought forward and carried. It was decided by unananimous vote to leave matters as they now are for ninety days, but in the meantime to strictly maintain tariff rates. Another session will be held to decide upon a tariff. The meeting also decided to appoint Joseph F. Tucker as joint representa-tive of all the lines, to see that tariff rates are maintained. The agreement to sustain rates carries with it no popular this matter being carries with it no penalty, this matter being left to the integrity of the several lines. In the meantime, if any further attempt is made at arbitration, it will necessarily be at the sug-gestion of one or more of the roads hereafter, as no time has been named for further ne-contactions. as no time has been hand for further ne-gotiations. As a result of the conference, however, it is expected that the newly formed California pool will be maintained, the details of which are now being perfected. The lines interested in the transcontinental association held another section perfecting the details of eld another session, perfecting the details of that organization.

AN UNKNOWN CRANK.

Arrested for Prowling Around the Residence of Mrs. Garfield.

residence of Mrs. Garfield had a hearing be

ment to have run away but was brought under the wire in a canter, and where she was pulled

almost to a stand still, coming to a halt with her mouth wide open, and winning the race by ten lengths. Time, 4:28%.

WHEAT IN INDIA.

What is Said Concerning It in the Agricultural Report.

The September report of the department of agriculture is just out and devotes considerable space to the subject of "Wheat in India," and says, among other things: As regards freight charges we have a substantial advan-tage over India, not only in the comparative proximity of our Atlantic ports to the Eu-ropean markets, but also in the comparative cheapness of our transportation by rail ropean markets, but also in the comparative cheapness of our transportation by rail. Reducing Indian weights and money to Ameri-can equivalents, the rates on wheat by rail on the leading Indian railway in March. 1883, was little less than one cent per mile per ton, as against less than two-thirds of a cent on the lines between Chicago and New York-in other works the average of Indian rates is on the lines between Chicago and New York— in other words, the average of Indian rates is fully fifty per cent higher than the rates on American roads between these two cities. While the advantage on the side of the United States is much greater still if the Indian rates are compared with our rates by lake or canal, or even by lake and rail, the former bring but little more than one-third of a cent and the latter less than one-half cent per mile.

fore Judge Hutchins at the police court this morning. The usual questions as to his name, residence, etc., were met with evasive answers. When asked whether he intended to shoot Mrs. Garfield or hurt any one, he replied that he might or he might not. After half an hour's useless questioning by the prosecution Judge Hutchins took him in hand and gave him to understand that he must answer the nim to understand that he must answer the questions put to him, and proceeded himself to put some of them. The "crank" laughed and informed the judge that he would answer as many questions as he liked and according to his own pleasure. The judge told the pris-oner that he would commit him for contempt unless he gave satisfactory answers to which unless he gave satisfactory answers, to which unless he gave satisfactory answers, to which the crank replied: "All right; commit. I would as soon be locked up as to answer some of the questions you have asked." The judge then ordered him committed for contempt until Thursday next. J. H. Rhodes, a per-sonal friend of the Garfields, says that he has seen the man before and that he is from an eastern city; the name he did not choose to give at present. The prisoner is about 50 years of age.

A TRAIN TRAGEDY.

Two Young Men Provoke a Quarrel With Fatal Results.

The passenger train which left New Orleans last Saturday evening was the scene of a the death of one man and the wounding of two others. When the train reached Crystal Springs in Copiah county, two young men, named Marlow and Smith, boarded it, bound for Jackson. They traveled through the train annoying passengers, slapping some on the back, sitting in the laps of others, and making themselves generally disagreeable. At Brookhaven Deputy Sheriff Bell got on the train with a number of convicts for the penitentiary. Having been annoyed by Smith and getting angry, he slapped at Smith but struck Marlow, at the same time drawing his pistol. Conductor McShane rushed in and separated them, taking Bell's pistol from him, but after matters had become comparatively quiet returned it to him. Meantime Marlow pulled his pistol and commenced firing. Two shots struck Conductor McShane, but neither wound is considered dangerous. The next shot from Marlow's pistol struck Bell in the hand. Bell pulled his pistol and fired several shots, one of which struck Marlow in the breast. When the train reached Jackson physicians were summoned, and at once de-clared that Marlow's wound was mortal. Marlow has been mixed up in several scrapes. having been almost cut to pieces in an afray some time ago. Smith is the son of a wealthy merchant of Copiah county, but has been discarded by his parents.

GREAT TURF EVENT.

Miss Woodford and Drake Carter Run at Sheepshead Bay.

Twenty thousand people went to Sheepsinteresting programme of racing prepared, Dwyer Brothers' Miss Woodford and Pierre Lorillard's Drake Carter. Sporting men from all over the country were present. Louisville, Ky., sent a large contingent. This contest race. It was a match race for \$5,000 a side with \$2,000 added by the association, distance with \$2,000 added by the association, distance two miles and a half. Drake Carter was ridden by Hayward at 115 pounds, and Miss Woodford by McLaughlin at 115. In the pools Miss Woodford sold at \$100, Drake Carter \$60. Bet-ting was \$100 to \$55 on Miss Woodford and \$8 to \$5 against Drake Carter. Miss Woodford was the first to appear. Her mane was pleated and she was ornamented with red and blue ribbons. Cheer after cheer went up as she ribbons. Cheer after cheer went up as she came on the track. She appeared to be in wonderfully good form. A few minutes after Drake Carter galloped by. He wore a hood and sheet. Although Hayward wore Lorril-lard's cherry and black, he aroused but a few faint cheers. The horses were slow to come to the post, but when the jockeys were once to the post, but when the jockeys were once mounted they were sent away to a capital start. The race really needs but little descrip-tion. Drake Carter got off in front and com-ing by the stand led by a length and a half, Miss Woodford under dead pull. At the end of the mile and three furlongs Miss Woodford mont helf a length nearor to Carter and these

4

his address it is necessary to inquire standing .- I. Watts. "what noble palace" he inhabits; a country where the creditor has the right to make an insolvent debtor pay his bill with a piece of his flesh, and where the debtor, by way of revenge, hangs himself at his creditor's door; a country year. where the son ruins himself to buy a coffin for his dead father, and, covered with a hempen garment, walks backward as he follows his sumptuous funeral; a country where people work for rice instead of working for their bread, but which is of earth and not of lacquer-work and porcelean; and where, as in other countries the husband loves

his wife and the orange-colored mother loves her slant-eyed children.

It is a country, moreover, where the bride attaches great importance to the personal appearance of the bridegroom, and the bridegroom equal importance to the moral qualities of the bride; and the basis of many Chinese dramas, as of dramas in other parts of the world, is the passion of love. Women have been forbidden to appear on the stage since bloody and fatal shooting affray, resulting in the days when a celebrated actress inspired the Emperor with a fatal caprice.

The men who undertake female as well as male parts, play with good expression, and use a superabundance of gestures, some of which, though derived from the observation of reality, have at last acquired a purely conventional value. An actor who, pivoting on his left foot, makes a circular movement with his right, is understood to be getting on horse-back. To cut the air with a riding whip is to indicate, through the connection of cause with effect, a galloping pace. The exhibition of pieces of gold cloth with wheels painted on run into by a baby carriage. them has almost an arbitrary meaning, and signifies that the Emperor is com-

Etiquette is rigidly observed. A young girl walking in the streets must not turn her head around; nor at home is she to glance shyly at visitors, She is to remember, moreover, that girls who are always laughing and talking are not esteemed, and that virtuous women have been honored from the earliest times. The philosopher Mendze grieved when he saw his mother break head Bay on the 18th, owing generally to the her shuttle; the woman Tsoun threw herself on-to a sword in order to save but more particularly to see the race between her husband's life; the mother of Ao, being so poor that she could not buy writing materials, taught her son to read by tracing characters in the sand. Women should be able to read, write was known on the programme as the third and use the counting machine, so as to be in a position to direct a household. They should read books of piety and stories of morality in action, while avoiding love-poetry, songs and anecdotes. Women should be reserved; and they are cruelly enjoined never to occupy themselves with other people's affairs. Men ought never to talk of domestic matters, while women should never talk of anything else. When a visitor is in the drawing-room the lady of the house should never be heard raising her voice in the kitchen. Women are not to paint their faces and wear striking colors, for the insufficient reason that if they do men will look at them. Young women, as well as young men, are to be dutiful to their parents,
