PROCLAMATION.

WHEREAS, A joint resolution was adopted by the legislature of the state of Nebraska, at the eighteenth session thereof, and approved February 23rd, A. D. 1883, proposing an amendment to section 4 (4) of article five (5) of the constitution of said state, and that said section as amended shall read as follows, to-wit: "Section 4.—The term of office of members of the legislature shall be two years, and they shall each receive a salary of three hundred dollars for their services during said term, and ten cents for every mile they shall travel in going to and returning from the place of meeting of the legislature, on the usual route. Provided, however, that neither members of the legislature nor their employees shall receive any pay or perquisites other than their salary and mileage. Each session, except special sessions, shall not be less than sixty days. After the expiration of forty days of the session no bills nor joint resolutions of the nature of bills shall be introduced, unless the governor shall, by special message, call the attention of the legislature to the necessity of passing a law on the subject matter embraced in the message, and the introduction of bills shall be restricted to such bills as are necessary to carry out the provisions of such message. The ballots at the election at which said amendment shall be submitted shall be in the following form: "For proposed amendment to the constitution of this state, to-wit: "Against proposed amendment to the constitution relating to legislative department."

WHEREAS, A joint resolution was adopted by the legislature of the state of Nebraska at the eighteenth session thereof, and approved February 23rd, A. D. 1883, proposing an amendment to section 4 (4) of article five (5) of the constitution of said state, and that said section as amended shall read as follows, to-wit: "Section 4.—The executive department shall consist of a Governor, Lieutenant-Governor, Secretary of State, Auditor of Public Accounts, Treasurer, Superintendent of Public Instruction, Attorney General, Commissioner of Public Lands and Buildings, and Board of Railway Commissioners. The Governor shall hold office for two years from the first Thursday after the first Tuesday in January next after his election, and until his successor is elected and qualified. Provided, however, that the first election of said officers shall be held on the first Tuesday succeeding the first Monday in November of 1884, and thereafter the election shall be held at the same relative time in each even year thereafter. All other officers that may be provided for by law, under the provisions of this section, shall be chosen in such manner and at such times, and shall hold their offices for such length of time as may be provided for by law, and shall perform such duties and receive such compensation as may be provided for by law. The Governor, Secretary of State, Auditor of Public Accounts, Treasurer, Commissioner of Public Lands and Buildings, and Attorney General, shall reside at the seat of government during their terms of office, and keep the public records, books and papers there, and the offices herein named shall perform such duties as may be required by law. The ballots at the election at which said amendment shall be submitted shall be in the following form: "For proposed amendment to section one (1) of article five (5) of the constitution, entitled, 'Executive Department.'"

WHEREAS, I, James W. Dawes, Governor of the State of Nebraska, do hereby give notice, in accordance with section one (1) of article five (5) of the constitution, and the provisions of an act entitled, "An act to provide the manner of proposing amendments to the constitution and submitting the same to the electors of this state," approved February 18th, A. D. 1877, that said proposed amendments will be submitted to the qualified voters of this state for ratification or rejection at the general election to be held on the 4th day of November, A. D. 1884.

In witness whereof, I have hereunto set my hand and caused to be affixed the great seal of the State of Nebraska.

DONE at Lincoln, this 15th day of July, 1884.

JAMES W. DAWES,
Governor.

EDWARD P. ROGGEN, Secretary of State.

THE decline in the traffic of the Suez Canal, which became apparent in July last, still continues. In July, 1884, thirty-eight vessels fewer than in July, 1883, passed through the canal; and the receipts of the company were £31,520 less than in the former year, although they were \$73,800 more than in 1882. For the month of August the daily receipts came to £12,200 less than for July; but the comparison with those of last year has not been published.

JOHN CHINAMAN certainly has a hard road to travel in California. Hon. W. T. Welker, state superintendent of public schools, has recently decided that Chinese children cannot become pupils of the public schools, public education being intended under the constitution of the state only for those who can become citizens. There are nearly 1,500 Chinese children in San Francisco alone.

BLAINE drew an audience of 200,000 in Buffalo when he passed through that town and there were fifty thousand spectators in Cleveland to witness the torch-light procession of fifteen thousand that escorted him through the city. In Ohio, wherever he goes, immense crowds gather to do him honor. The interior is waking up and there will be a full turn out of republicans at the polls in November.

THE row between England and France is getting interesting. Recently Le Paris urged the powers to inform England that she has gone too far in promoting the Egyptian Government to break the international law in regard to the Egyptian finances. England, the same paper says, cannot be allowed to dispose of Egypt as she likes. Le National expresses the belief that in consequence of the protest of the powers England has already resolved to modify the financial measures which she expected to enforce in Egypt.

EX-GOVERNOR FURNAS is now in New Orleans making arrangements for Nebraska's exhibit at the world's exposition. He will return to Nebraska in a few days and will then collect all the articles that are to be exhibited. It is hoped that our people all over the state will respond liberally and promptly with contributions. This will be a splendid advertisement of Nebraska, and the opportunity ought not to be neglected. The exhibits must all be in place by November 15th; so it will be seen that there is not very much time to spare.—Omaha Bee.

The last issue of Bradstreet taking up the per cent of failures for the same period in 1882 and 1883 estimates that the total for the year will exceed 11,500. For the first nine months the number is put at 8,290, as against 7,359 for the same period in 1883. A careful discussion of the question as to the extent to which fraud enters into bank failures result in the conclusion that fewer failures are due to this cause than is commonly supposed. Out of 117 bank failures in thirty-eight weeks, sixteen are only found to be due to frauds and to embezzlement—seven of national, five of state and four of private banking institutions.

In November there are to be held two national conventions of cattlemen—one at Chicago on the 13th, and one at St. Louis on the 17th. It seems that a quarrel has arisen between the cattle interests of the two cities. St. Louis claims that its call for a national convention is more recognized by all the leading ranch owners and breeders throughout the country, and that the Illinois board of agriculture has been induced by Chicago "kicks" to issue a call for a convention in Chicago in advance of the St. Louis meeting. The St. Louis folks, however, maintain that they will draw the crowd, and that the Chicago convention will adjourn to that city.—Bee.

It is a significant fact that, while England is using its influence in every way possible to encourage a free-trade policy in America, there has for several years been a dissatisfaction shown by many Englishmen toward its results there. Even Lord Beaconsfield intimated that free-trade was a mistake, and in recent speeches in the house of lords the same view was taken. The fact is that England has outlived the day when she can command the commerce and control the manufactures of the world, and as her business is curtailed she will have to adopt the American plan and protect herself by tariff laws.

THE Inter Ocean correspondent who some time ago set down West Virginia as safe for Blaine has continued and pushed his investigations into Virginia. He sets that state down as fully as liable to go for Blaine as for Cleveland. His reasonings and deductions sound a little too much like democratic treatises on Ohio. There is a reaction against Mahone in Virginia which is not likely to overcome this time. It will be remembered that at the last election in that state a legislature so strongly bourbon in each branch as to override the veto of the readjuster governor was chosen.—Topics.

AMONG the many interesting features at the New Orleans exposition will be the exhibits in the horticultural and arboricultural departments, of which Prof. S. M. Tracey is superintendent. Nearly all timber grown in the north and south will be on exhibition, and from Nebraska young specimens of various kinds of trees will be found growing in a plat secured for that purpose by Commissioner Furnas. This will be novel, instructive and beneficial to the state. The New Orleans Times-Democrat says that valuable and interesting arboreal and floral exhibits are expected from the intertropical island of Jamaica, which will be well worthy of the attention and the researches of naturalists. It will pay all persons who, either for pleasure or profit, are engaged in the raising of trees and flowers, to visit New Orleans this winter. In a short time they can obtain much valuable and practical information in their line.—Republican.

DR. A. M. YORK, the brother of the Dr. York who was murdered by the Bender family in Kansas, whose disappearance led to the discovery of the work of the gang, is looking very anxiously for the "Captain Rieves" of Appleton, Missouri, who wrote the account of the shooting of the Bender's in the Indian territory by a party of which he alleges himself and Dr. York were members. The doctor says that whenever those who have been searching for the Benders get on a trial some story of this kind is set in circulation, and he believes by some of the accessories to the Bender robberies and murders. He says that Rieves' story is a pure fabrication. He will give two thousand dollars for proof that the Benders have been killed. But he evidently thinks that they are still in hiding somewhere and hopes some day to get upon their track and bring them to justice.—Journal.

THE Washington territory republican platform demands "admission into the union as a sovereign state, with the northern counties of Idaho embraced in our boundaries." Washington and Northern Idaho over 100,000 inhabitants and are entitled in every way to admission. Democrat influence has kept the territory out of the union for years, and many democrat members will fight its admission during the next congress. It is possible, however, that after the presidential question is settled for four years, justice will be done a long waiting people, and the admission of the territory will not be so strenuously fought on account of its republican tendencies.

THE wheat raisers of the west have been advised by The Chicago Tribune not to sell their wheat at prices fixed by the gamblers, and not to plant as many acres this fall as last. The argument is that they may thus "let the consuming power of the world catch up with the supply. Just now the farmers are suffering from overproduction of wheat. The remedy is to produce less of that cereal." In Nebraska farmers do not depend to any great extent upon wheat raising for an income. Corn is king, and by judiciously converting this staple into pork and beef the average agriculturalist by careful management becomes prosperous. A comparison of income and profits of wheat and stock raisers, for a series of years, will establish the fact beyond question that the advantage is on the side of the latter. The truth is that wheat raising, as a rule, is not sufficiently remunerative.—Republican.
