

NEWS OF NEBRASKA.

HORTICULTURAL INFORMATION WANTED.—Nebraska State Horticultural Society, Secretary's Office, Omaha, October 27, 1884.—The fruit year of 1884 is closed and has given a return of small fruits and grapes, summer, fall and winter apples, largely in excess both in quantity and quality over any previous year. The state horticultural society earnestly requests every fruit grower in the state to send at once an account of both success and failure in growing any and all kinds of fruit, with suggestions in regard to kinds most profitable to plant for home use or market. The quantity of each kind grown should be given, so that an estimate can be made of the year's crop. These reports are wanted for the annual meeting to be held at Lincoln in January, and for publication at an early day, for the benefit of those who intend to plant the coming spring. For the advancement of this important and growing interest the state press are requested to please copy. Address J. T. ALLAN, Secretary, Omaha, Neb.

CENTENNIAL EXHIBITS.—To the People of Nebraska: Finding it impossible to hold longer that portion of the Nebraska exhibit gathered at Lincoln for New Orleans, they were on the 6th started forward in charge of a competent, careful man, S. McConiga, of Lincoln—nine car loads. I follow by next train. There is yet, I am informed, en route to Lincoln from various parts of the state, near five car loads additional. I leave matters at Lincoln in charge of Hon. J. M. Burke, who has consented to receive and forward to New Orleans whatever may come in hereafter. The opening of the exposition being postponed sixteen days, material intended for the Nebraska exhibit, will be received at Lincoln, until November 20th. More products are desired. Let all who will, contribute, and forward to my address, Lincoln, by railroad, as indicated. Send by freight, and mark all parcels, "For the New Orleans Centennial." Thus directed, the railroads have liberally consented to forward all free. All will start en route to New Orleans, from Lincoln, under the management of Mr. Burke. In addition to agricultural products, I very much desire, for illustrative purposes, large size photographs of our best, both public and private buildings, from all parts of the state. I hope for interest in this, and that large collections may be obtained. In what has gone forward we are short of manufactured material. There is an abundance to be had in the state. Let it come forward. Do not wait for individual invitations, all are invited and solicited. Respectfully, ROBT. W. FURNAS, U. S. Commissioner for Nebraska.

GENERAL STATE NOTES.

The hog disease is carrying off a great many porkers in Otoe county. Mr. McFarland, of Nelson, is offering 2,000 bushels of potatoes at 25 cents a bushel. The dining room of the old Lockwood house at Sidney has been turned into a skating rink. The railroad people are making some needed improvements about their grounds at Kenesaw. A brakeman recently from Council Bluffs was run over by the cars and killed at Creighton last week. Ex-Police Judge Cobb, of Lincoln, has been sentenced to three years in the penitentiary for embezzlement. John Green, an old resident of Omaha, was badly hurt a few days ago, by being run over by a B. & M. locomotive. A B. & M. train of nine cars of Nebraska exhibits for the New Orleans centennial, left Lincoln on the 6th of November. The Omaha City Water-works company are putting in a new and powerful pumping engine to add to their present equipment. Fred Tickler, of Clay county, was haled out three times this season, but still he has good crops. Credit that up to Nebraska soil. The White Lead works of Omaha employ forty hands, pay \$30,000 annually for laborers and uses \$150,000 worth of raw material. The Fremont Milling company will be represented at the New Orleans exposition by 1,000 pounds of their choicest brands of flour. The Wood River schools are making preparations to contribute toward Nebraska's educational exhibit at the New Orleans exposition. The engine for the electric light machinery has arrived at Hastings, and they expect to have the "bright light" in that city at an early day. Mrs. Eliza Mitchell, of Florence, Douglas county, a pioneer of the state, having come here in 1854, died on the 1st after an illness of three hours. A fire occurred in Wilson's second-hand store, Lincoln, the other day, but the firemen subdued the flames before any serious damage was done. Douglas county sends six democrats to the legislature, and the republicans four. The county officers are divided between the various parties. The coroner's inquest in the recent railroad accident at Omaha resulted in acquitting all parties of any blame. An unlocked switch did the bad business. Eugene Higgins, of Hastings, the man who was so dangerously shot a few nights ago, is improving and will, without doubt, be up and around in a few days. A Junjata doctor locked up his office, placarded the door "Gone to dinner," and the next seen of him he appeared fresh from Indiana with a new wife. Prof. T. T. Bell, principal of public schools at Ord, Valley county, son of J. M. Bell, near Grand Island, has gone to Ann Arbor, Mich., to finish his legal studies. The Congregational people of Center, Clay county, have built good sheds for horses to stand under while the people worship. That is a first class christian act. A. Clap, of Jefferson county, secretly discovered a bee tree near his residence, cut it down and captured about forty or fifty pounds of honey. The bees were Italians. The Lincoln Tanning company has sent to New Orleans a box of its manufacture, consisting of a case of about three dozen whips made at their establishment of their leather. Judging by the quantity of fall plowing being done this year, the Pierce County Call thinks the farmers intend to sow wheat again notwithstanding the present low price of the article. William Kelly and "Professor" Horatio Nabob, were arrested at Grand Island for robbing a man at the fair grounds. Kelly is an old offender, and it is probable that now an example will be made of him. A girl of respectable parentage was arrested in Plattsmouth the other night for parading the streets in male attire. Being young, and having borne a good character, the girl was discharged the next morning. Fire got out on the table lands west of Arnold, and if had not been for several men in the neighborhood, nine in number, it would have been a serious fire. They subdued the flames before getting under strong headway

John Danger, a young man at Grand Island, was fooling with a small 22-caliber revolver, when it was accidentally discharged inflicting a painful wound in his left hand. Doctors probed for the ball, but were not successful in finding it. Quite a serious accident happened to Henry Nelson of Jefferson county. He was attempting to shoot a beef when the gun burst. Both man and beef feel when the gun exploded. Later investigation revealed the fact that the man was the worst injured of the two. The State Baptist convention selected trustees for the year as follows: For one year—Sanford Williams, Exeter; A. G. Hastings, Lincoln; for two years—J. A. Dempster, Geneva; Austin Nelson; for three years—T. J. Lovejoy, Central City; J. H. Stewart, Blair. The capital of the South Omaha stockyards is put at \$500,000; 150 hands are employed, \$108,000 was paid them during the year; stock passing through is valued at \$3,000,000, and products are \$420,000. The buildings and land and tracks, exclusive of packing house, cost about \$300,000. The creamery company at Grand Island is having a large demand for their butter, both in the New York and western markets, from parties to whom shipments were made heretofore. One firm alone, in the west, sent an order for more butter than they will be able to make in three months. Mrs. Conly, of Fort Robinson, whose eight year old boy was lost about a year ago while his mother was camped at Water Hole stage station, has offered a reward of \$300 for recovery of the boy. The boy rode off on a pony, and is supposed to have been lost in the canons contiguous to the camping ground. Hartington was thrown into a fever of excitement a few days ago by the appearance of a mad dog on the streets. He was first seen on Franklin street and attracted attention by biting everything it came in contact with, and was finally shot, after having bitten several valuable dogs, one cow and a number of hogs. Some of the animals bitten have been killed. The Hastings Journal learns that the hog distemper has broken out in some portions of Adams county, and is thus reminded that L. B. Canfield living at May Port office, in Kearney county, says he can cure the disease and that he will undertake to cure all cases for a reasonable consideration and pay the market price for every hog that dies after he takes them in hand. The Hastings Journal learns that Jennie E. Burton has received an appointment as clerk in the patent office at Washington. Mr. Burton has for the last three or four years been employed in the county clerk's office of Adams county and has filled the position not only with satisfaction to the clerk but to that of all those who have had occasion to transact business in the office. Miss Armaido and William Patterson contested in a hundred mile race at the Omaha skating rink. Patterson was given the race, much to the disgust of his lady competitor, whose bicycle, in the fiftieth mile, broke down, throwing her to the floor and hurting her knee so badly that she could not or would not proceed, notwithstanding the use of another bicycle was tendered. As John Postlewait, of Gage county, was passing through his field, he was attacked by a vicious heifer, which succeeded in knocking him down and striking him several times with its horns. The animal cut a severe gash in Mr. P.'s head and bruised him considerably about the body. A wire fence was near by and he succeeded in rolling over and over until he passed under it and thus undoubtedly saved his life. Superintendent Smith, of the Union Pacific, in speaking of the changes made or to be made in the clerical force, said very emphatically: "J. W. Griffiths, who was Mr. Smith's chief clerk while the latter was at the head of the Kansas division, is retained in the same capacity and will become a resident of Omaha. There will be no changes in the operating force for the sake of change. They will be made only when considered necessary, and conducive of good results." Herbert Brayton, who works for Mr. D. M. Fullmer, of Dawson county, while plowing, lost his watch which was quite a valuable one. There were two of them plowing with sulky plows. The bouts were about one hundred rods long and they had plowed twice around the land before the watch was missed. Mr. Fullmer told the boys to take each a hoe and if the watch could not be found in one day's search to take two. Before noon they returned to the house with the watch unharmed. A man was drowned in the creek near Adams station on Sunday last. He had taken off all his clothes but his shirt, dived down and held to some roots under the water. He was about 22 years old, six feet high, weight about 160 pounds. He left on the bank as usual hat, a pair of coarse boots, a padlock, mouth organ, rule and several rubber finger stalls. He has high cheek bones and light complexion. At the inquest nothing was discovered to identify the deceased. A verdict of suicide was rendered. An Arapahoe special says: As Edward Arquis, wife, fourteen-year-old daughter and two-year-old son were returning home about 4 o'clock this morning from a party in the country, one of the ponies fell on the pole, breaking it and causing the buggy to run against their heels. They took fright and ran away, throwing all three to the ground. The little boy was instantly killed. Mrs. Arquis had one bone of the forearm broken, as also one of the bones of the face, besides a severe shock. The daughter escaped almost unhurt. OFFICIAL NOTIFICATION. The Same Forwarded to the Bishop-Elect of Nebraska. Rev. Dr. Worthington, of Detroit, has telegraphed the Rev. Mr. Patterson, of Omaha, secretary of the Episcopal council of Nebraska, which lately adjourned, acquainting him of the receipt of the telegram informing the latter of his election as the Episcopal bishop of Nebraska, and asking for further particulars. The latter will be sent immediately. Accompanying the same will be the following canonical notification: Rev. George Worthington, S. T. D., Bishop-Elect of the Diocese of Nebraska. We, whose names are hereunder written, fully sensible how important it is that the sacred office of a bishop should not be unworthily conferred, and firmly persuaded that it is our duty to bear testimony on this solemn occasion, without partiality or affection, do, in the presence of Almighty God, testify that the Rev. George Worthington, S. T. D., is, not so far as we are informed, justly liable to evil report, either for error in religion or for viciousness of life; and that we do not know or believe there is any impediment, on account of which he ought not to be consecrated to that holy office. We do, moreover, jointly, and severally declare that we do, in our conscience, believe him to be of such sufficiency in good learning, such soundness in the faith, and of such virtuous and pure manners, and Godly conversation, that he is apt and meet to exercise the office of bishop to the honor of God and the edifying of His church, and to be a wholesome example to the flocks of Christ. There are many flowers from which no fruit is produced.—Confucius.

THE PRESIDENTIAL CONTEST.

Returns From Some of the Closer States and Others—Doubts about the Result—Both Parties Set Up Claims on New York. THURSDAY MORNING. NEW YORK, Nov. 5.—The Commercial Advertiser says: The presidential election is more in doubt than at any time since the polls closed. The contest will be decided by the vote of a small plurality for Blaine. Nothing definite is known of New Jersey. That state and Virginia is claimed by both parties. It seems probable that the official figures will be necessary to determine the result of the election. The Tribune gives the composition of the New York assembly as 73 republicans, 55 democrats; the senate, republican 19, democrat 13. The World gives the assembly, republican 71, democrat 57. The latest figures received by Governor Cleveland give a democratic majority in the state of 2,766. The Times claims New York for Cleveland by 2,500 to 3,000; New Jersey, 3,000; Connecticut, 3,000; Massachusetts, 3,000; Pennsylvania, 3,000; Ohio, 3,000; Illinois, 3,000; Indiana, 3,000; Michigan, 3,000;
