forbidden their agents from receiving any intoxicating liquors consigned to any point in Kansas, unless it is personally known to the agent that it is for the private use of the consignee, or is to a druggist that has a permit to handle liquors for medicinal purposes, and no such goods are received unless all charges are prepaid.

THE American papers-and the Canadian papers, too, for that matterare puplishing a great deal of sheer nonsense about Reil and his rebels. He is depicted as a very Demosthenese in oratory a Machivel in diplomacy and a Napoleon in strategy; besides receiving spiritual communications from a dear friend in the summer land, writing poetry like Hugo's, and having golden hair and limpid blue eyes. This is all humbug. Louis Reil is a fairly educat. ed half-breed, of fair parts, swarthy, common looking, neither a profound thinker, a sustained plotter, nor a bold man. His followers are indifferently armed and very ordinary marksmen, and a deduction of about two-thirds should be made from the newspaper figures to arrive at their real strength. The outbreak is serious enough, but it is a disgrace to American journalism that such old wives' fables concerning it should be set affoat by newspapers pretending to influence and intelligence.-Philadelphia Record.

MACKIN and Gallagher were turned loose on a technicality of some sort after being sentenced to the penitentiary for stuffing the ballot box at the November election, just in time to operate in the spring election in Chicago. And just such outrageous travesties on justice have been all the political prosecutions, with but very few exceptions, ever paraded before the American nation. Even where a conviction has been secured, by some skull-duggery, styled in legal parlance a technicality, invariably regular annual meeting at Benkleman is that conviction and sentence neutralized and made void. These parodies are repeated at every recurring election -whether that expression of suffrage be for the president of the nation or the humblest position in the gift of the people. The purity of that bulwark of the nation's liberty is violated upon every hand and upon all occasions, and it would seem as though the almighty arm of the law were powerless to stay the march of the offenders or to secure a permanent conviction. The case in point is a most prominent one. Selfconvicted though they be-the worse than common pilferers go scot free by virtue of a so-called technicality.

ANOTHER "faith cure" is announced in the case of Miss Effie Irons of Jarvis, Illinois, who had been suffering from some disease for three years that confined her to her bed. After several days she arose from her couch and attended a revival meeting, and is, to all intents and purposes, well. The efficacy of the faith cure cannot be too persistently recommended to that class of sufferers. It saves the intervention of worthless quacks who "lay on hands" or "annoint with oil," or, as among the upper circles of Boston, hold a half hour seance with a patient and cure him by merely concentrating what they call their "mind" upon his ailment.

There is a class of diseases well known to the medical profession that can only be cured by the imagination of the patient. The faith cure is the most innocent remedy for such. Of course when there is a palpable organic lesion that constitutes the illness, like a tumor or a cancer or a well developed phthisis or a broken bone, neither the laying on order begins at range 17 west, or at the of hands or prayer or oil or concentra- western line of Franklin Co., and takes tion of mind was ever known in these in all the territory west of there in Ne- Cakes Made on Order. latter days to work the desired cure. braska, all of Wyoming, Colorado, Mon-But there is a field of so-called diseases tana, New Mexico, as well as western on which any of these remedies may be Kansas. COMMISSIONER SPARKS, of the Land Office, says in explanation of the order issued by him, Friday, suspending action upon pre-emption, timber culture and desert land entries in a number of western states and territories, that the department had reason to believe a great number of fraudulent entries had been made, and he wished to thoroughly investigate the matter. The suspensory order applies particularly to sections of the country covered by vast cattle ranches, as the commissioner suspects these ranches have greatly extended through fraudulent entries of public lands. The stands it, only suspends final action in the Government from frauds.

Magnetic Cures. Dr. HILL man to discover the philosophical principle that all nervous pains, aches, and dability should be treated directly from the "brain battery," from whence emanate all nervous force and will power. All other forms of treatment for nervous disorders are failures. Ev ery person who suffers from nervousness knows this, and that medicines only palliate, but never cure. These appliances are magnetic, and differ from all others on the market which are electric. Magnetism is the life of man. Their curative qualities are wonderfu in all nervous complaints. The Roman physi-cians practiced magnetic treatment 1,000 years ago in nervous diseases, but did not treat from the "brain battery." Dr. HILL has made this great discovery, the only sure cure for nervous Headaches, Kneumatism, Neuralgia, Liver and Kidney Complaints, Paralysis, Gout, Spinal weakness, Dyspepsia, Constipation, Cold Limbs and Feet, and General Debility. Miraculous cures noted every day. The Magnetic Brush lifts nails, and the only article of the kind invented. It is the greatest curative agent known and used in a "brush bath" im-parts tone, replenishes the debilitated system, and creates warmth. In chronic cases our Magnetic Bands, Belts and Pads should be used. The brushes are warranted to do the work, or the money refunded. Send for circular and testimonials. By giving a description of nervous trouble, we will give advice and directions how to use our appliances. HILL MEDICAL MAGNETIC APPLIANCE COMPANY, Lock Box 55, Washington, D. C. 35
