International Live Stock Show at Chicago, December 2nd to 9th.

The International Live Stock Show opens this year under conditions more favorable than ever. The Coliseum, a handsome new structure built for this purpose, will be completed and used for the first time.
The display of live stock is to be so complete that it promises to even excel the perfection of former years.
Professor Herbert W. Mumford of Illinois is quoted in the following short but pithy comment on the International:
"It is at the International that breeders and buyers mingle to mutual advantage. The breeder becomes better informed as to approved market types, and thus the International becomes a potent factor in giving direction to the breeders' efforts toward live stock improvement."
Low rates over the North-western Line from all points west will be announced soon.
