Some of the candidates on the democratic ticket received a splendid vote, though they failed of election, partly because of republican majorities and of the latter having an acceptable candidate to their party. The Backbone of a Mighty Nation

is good food—food for brain, food for brawn, food that is strengthening, that gives energy and courage. Without a proper appreciation of this great fundamental truth no nation can rise to greatness.

As an article of food, soda crackers are being used more and more every day, as is attested by the sale of nearly 400,000,000 packages of **Uneeda Biscuit**, which have come to be recognized as the most perfect soda cracker the world has ever known.

And so **Uneeda Biscuit** will soon be on every table at every meal, giving life, health and strength to the American people, thus in very truth becoming the backbone of the nation.

Mrs. Lena Detgen Dead.

Mrs. Lena Detgen, wife of Henry Detgen, died at her home out in German settlement, about 20 miles west of this city, last Thursday morning, of paralysis, after an illness of about five weeks. She was afflicted about a year ago, but had so far recovered as to be able to get around and during the summer had been to Hot Springs, S. D., in the hopes of benefitting her health, and was thought to be getting along pretty well until the second stroke which affected her heart and caused her death. She was 54 years old.

Mrs. Detgen, with her husband and two oldest children, came to Cherry county from Germany about twenty years ago. Three sons and a daughter, also her husband survive her, and will keep the memory of mother ever sacred.

She was buried in the cemetery near the German Lutheran church Sunday.

International Live Stock Exposition to be held in Chicago, December 2 to 9.

"The International Live Stock Exposition is an index to the progress of animal breeding in this country. Here are annually exhibited the best products of the mind and genius of the American breeder, concepts which have been developing during 20, and in some cases even 30 or 40 years. What a privilege it is to come in contact with these men; what an inspiration to study the results of their consistent and united effort. It is no wonder that students of the agricultural colleges far and near, with their instructors flock to Chicago during the live stock exposition. Where else could they hope to find a school exemplifying as this does all the principles of animal breeding and nutrition. Yes, the International Live Stock Exposition is indeed a great school. Think of what it means to the hundreds of thousands of farmers who annually visit it and see

what their brother farmers and stockmen have actually accomplished. Many a man has gotten his first true conception of what animal breeding and production means through a visit to the Exposition. It has thus become a great vitalizing and inspiring force to the live stock men of the whole country." Low rates via The North-western R'y from all points will be announced later.
