Hot Water Bottles!

We have just received a shipment of these useful articles, among them some of the "Justrite" linen lined Feather-weight bottles.

They are extra strong and very light in weight.

2 and 3 quart sizes at \$1.50.

QUIGLEY & CHAPMAN,
DRUGGISTS.

CORNELL'S LEASE BILL.

(Concluded from last week.)

Sec. 10. A homestead entryman having filed subject to provisions of section nine (9), upon satisfying the local land office that he has established an actual bona fide residence upon said homestead, shall be entitled to lease as much as twenty acres of land for each acre embraced in his homestead, contiguous to said homestead, although the same may at the time be held under previous lease or leases. Provided, that the homestead entryman filing under act of congress of April 28, 1904, 33 U. S. statutes, page 547, (commonly known as the "Kinkaid" law), shall be allowed five (5) acres for each acre contained in his homestead. Upon application being made by said entryman, giving number of acres and description of same to the register and receiver of the local land office, they shall at once serve said lessee or lessees by legal notice under the customary rules, and after having had thirty day's notice, should said lessee or lessees fail to make protest, then so much of said lease or leases may be cancelled as may be necessary to transfer under lease, at said price per acre, the land applied for to said entryman. Should the holder or holder of said lands under lease or leases protest against said transfer, the register and receiver shall cite all parties interested to appear for hearing under rules of practice. Provided, further, that these two officers shall ascertain the amount of land held under the homestead laws, lease of state school lands or freehold by the respective parties, and provided there be sufficient of the same pro rate until said entryman shall have received as much as twenty (20) or five (5), as the case may be, leased to one entered as a homestead. Provided, further, that in determining equities the land office is hereby granted the utmost latitude. Provided, further, that the land leased by said entryman shall be then subject to conditions of section nine (9) of this act regarding trespass.

Sec. 11. No leased land on which improvements shall have been made in shape of wells, cultivation, seeding to native or leguminous grasses or any improvement calculated to add to the value of the land which cannot be readily removed shall be subject to homestead entry, or cancellation and re-lease, until the lessee surrendering shall have been reimbursed for the value of said improvements. Where the parties in interest cannot agree as to value, appraisers shall be chosen under such regulations as shall be made by the secretary of the interior.

Sec. 12. On application for assignment of lease, the land office shall give legal public notice, stating the time and place all parties in interest shall appear; and the "Rules of Practice" governing contests shall apply, subject to such modifications as may be found necessary by the proper authorities: Provided, that upon the death of a lessee his lease shall inure to the benefit of the estate or legal representative of said lessee.

Sec. 13. Lessees in fencing lands acquired hereunder are required to at all times maintain gates at all places necessary for homestead entrymen, or others controlling lands bounded in whole or part by said leased land, to gain ready access to and from said lands, and right-of-way is hereby granted across said leased lands for said purposes. Also, like gates must be maintained at crossings of all highways, public or private, and right of way is hereby declared across said leased lands for the purpose of ordinary highways, with the right of use of all natural water courses or lakes. Provided, that no part of this act shall in any way conflict with any state statute on the subject of highways.

Sec. 14. That nothing in this act shall be construed to prevent any person or persons from entering upon any leased lands for lawful purposes, including that of

prospecting, locating and developing the mineral resources thereof. Provided, said person or persons may take only sufficient live stock, implements, etc., thereon necessary to prosecute said prospecting. Provided, further, that no building of a permanent character shall be erected by said prospector or prospectors, until the land desired by him or them shall have been filed upon under the mineral or other laws and thus segregated from said leased land.

Sec. 15. That the government, upon its own initiation, at any time, for the purpose of irrigation and entry, or other special uses or improvement of said lands, may declare any lease void and take possession of said lands. Provided, the lessee under these provisions shall have at least six month's legal notice of such intention. Provided, further, that the lessee shall be reimbursed for actual loss sustained in improvements named in section eleven (11) in addition to windmills and fences placed there under said lease, hereby cancelled. Damage to be awarded as in ordinary condemnation proceedings.

Sec. 16. Where lessee has been deprived of any land by the provisions of any of the foregoing sections, the land office shall compute the amount due him for the unexpired time for which payment has been made and the receiver shall draw from this fund sufficient to reimburse said lessee for the amount paid and not earned, the same being computed pro rata.

Sec. 17. Any lease shall be liable to cancellation, whenever in the judgment of the land office authorities the same has been obtained by fraud, collusion or misrepresentation, or used to defeat the object of the law, the lessee to forfeit all claims for reimbursement under section sixteen (16) of this act.

Sec. 18. Any person who attempts to trespass, or through carelessness or neglect permits his live stock of any character to range or graze upon the land of another, upon conviction thereof shall be subject to fine of not less than fifty (\$50) dollars nor more than one thousand (\$1000) dollars, and also liable for damages to said lessee. Provided, the lessee shall inclose his leased land with a legal fence, defined in section nine (9) of this act. Provided, further, that nothing in this section shall be construed to prevent leases of joining tracts from uniting to fence their several tracts in one or more enclosures.

Sec. 19. Forest reserves and lands of like character may be made subject to the provisions of this act, under such modifications and regulations as may be ordered by the proper department.

Sec. 20. The register and receiver shall charge one (\$1) dollar fee, in addition a commission of two (2) per cent of amount of said lease for each lease issued, lease to contain all lands leased one person or interest at a single disposal. Also two (2) per cent of all moneys received from annual payments. Also the usual fee for publication of notices, taking testimony, ect., now in force for services of like character. All of which shall be accounted for and returned as a part of the earnings of the office.

Sec. 21. The secretary of the interior shall be authorized to promulgate any rules and regulations necessary to carry out the purposes of this act.

Drunkards Beware.

This week a habitual drunkard was much concerned because notices had been sent the saloon-keepers not to sell him liquor. He and several other habitual drunkards of our town should remember that we now have a state law that all such subjects, as he, can now be sent to the state insane asylum on the complaint of one or more citizens who furnish proof that they are habitual drunkards, which can be easily done.

When you come to town, stop at the Chicago House. 38

Every Niece and Nephew of Uncle Sam

should be deeply interested in what he has said about soda crackers, because they are the one food with which all of them are familiar.

Uncle Sam has given out figures showing that soda crackers are richer in nutriment and body-building elements, properly proportioned, than any food made from flour.

This is saying much for common soda crackers, and much more for **Uneeda Biscuit**, because they are soda crackers of the best quality. They are baked better—more scientifically. They are packed better—more cleanly. The damp, dust and odor proof package retains all the goodness and nutriment of the wheat, all the freshness of the best baking, all the purity of the cleanest bakeries.

Your Uncle Sam has shown what food he thinks best for his people. His people have shown that they think **Uneeda Biscuit** the best of that food, nearly 400,000,000 packages having already been consumed.

A good Smith Premier typewriter for sale cheap. F. M. WALCOTT.

Joseph Langer of Norden was in town Thursday after lumber and attended the play "The Thoroughbred Tramp" while in town.

We have just received a new stock of fine groceries. Come in and see us, or call up phone 97.

1 A. John, Davis & Co.

There will be evangelical services at the Presbyterian church by Rev. J. M. Caldwell, D. D., commencing Friday evening, Jan. 26, at 7:30. All are cordially invited to these meetings.

What a sweet pretty girl is the heroine in the play of "Uncle Josh Spruceby," and how you do wish she was your sweetheart, that is, of course, if you do not have one of those pleasant little affairs. And in that saw mill scene do you not want to just jump on the stage to help her hit that bad man "just once for luck."

The patrons of Church's opera house will be entertained for one night, Saturday, Feb. 3, 1906 by the big comedy production, "Uncle Josh Spruceby." This popular play comes well recommended and will no doubt be received with enthusiasm here. The piece is staged with every attention to stage realism. All the scenes are well mounted and acted. The startling "saw mill" scene is said to be a masterpiece of stage mechanism. Many specialties are introduced and the superb solo orchestra carried by the company all go to make this a very delightful production.

Albert Nenzel of Muenster, Sask., Canada, came down from Nenzel last Friday where he has been visiting since Sunday and looking after some horses which Mat Boltz was keeping for him and which he has now sold to Henry Schafer. Mr. Nenzel went down to Norden and Springview from here to visit his brothers-in-law, the Langer brothers at Norden, and Paul Gerow at Springview. Mr. Nenzel is running two stores in Saskatchewan and also owns some farms in that part of the country. He has been doing well since leaving here three years ago and likes the country there. He expects to return about the last of this month.

Cure Your Cough

stop your Lung Irritation, relieve your Sore Throat and drive out your Chronic Cold, with the only certain, and strictly scientific, Cure for Coughs and Colds:

DR. KING'S NEW DISCOVERY FOR CONSUMPTION

Almost in Despair.

"Our little daughter was given up by two physicians with consumption of the throat, and we were almost in despair, when our druggist recommended Dr. King's New Discovery. After taking four bottles she was perfectly cured and has had no throat trouble since."
—GEO. A. EYLER, Cumberland, Md.
