Norfolk avenue will be payed. More than enough signers to the petition which asks for the paving ordinance, have been secured and today the paving is an assured fact.

Twenty-eight resident property holders owning property on Norfolk avenue between Second and Sixth streets, have already signed the petition, out of the fifty-one possible. This makes more than the necessary majority provided by law, and settles the matter. All that remains is for the city council to pass the ordinance.

C. E. Burnham was out canvassing the situation all day today and he has just secured the last of enough signatures to make the necessary majority. George N. Beels is circulating a petition to pave from the bridge to Second street, thus making more than a solid half mile of paving . He has secured more than a majority of the resident property owners in that section, so that it is now a positive fact that Norfolk avenue will be paved from Sixth street to the mill.

The statutes provide that an ordinance shall be passed when a majority of the resident property owners on the street shall request it; or, if no petition is presented, the council could, by three-fourths vote, pass the ordinance and have the street paved.

NORFOLK BOY WAS VICTIM OF A BAD RAILROAD ACCIDENT.

BROUGHT HOME LAST NIGHT

Dr. Kessler of Cortland, III., Though the Boy Was Stranger, Took Him from town. Into His Own Home and Brought Him to Norfolk Last Night.

Emery Bonney, aged about eighteen was brought to the home of his parents in Norfolk last night from Illinois, where he recently suffered the loss of his left leg and three fingers while boarding a train,

It will be recalled that Mrs. Bonney, the boy's mother, left for Cortland, Ill., on September 16, the day of the accident. He was attempting to get on a moving train when he slipped and fell and as a result his left limb was amputated below the knee while three fingers were cut off his right hand.

The boy, away from home and among strangers, was taken into the home of Dr. Kessler of that place and was brought to Norfolk last night by this surgeon.

Although the young man was a total stranger to him, Dr. Kessler gave him every care and attention, as though he had been his own child,

Young Bonney withstood the trip from Illinois to Norfolk very well and he is rapidly recovering from the effects of the strain he has gone through.

The Bonney family lives on Main street, between Seventh and Eighth. For a time they conducted the "Home" bakery in the "gravel grocery" building. The father is now employed in the Pacific hotel kitchen.

Already Spencer is preparing for next year. The town is getting ELECTRIC LIGHTS A FEATURE cleaned up after having held one of the most successful fairs in north Nebraska. The dates were 19, 20 and 21 but because of the rain, the dates were changed to 20, 21 and 22. The news of the change spread like wild fire and people came in from every direction, as far distant as though no change had been made.

The crowds were large every day, but the third day saw a perfect throng here. Everybody was highly enter tained and edified. The agricultural exhibit was large and magnificent. Floral ball was a great attraction. The exhibit of hogs was fine and the grand parade in the afternoon of the last day showed a magnificent display of thoroughbred cattle and horses. The race track was in good condition, the entry list was long and Honest Abe a feature.

RENT PAYS FOR LAND.

Fertile Sections of the Southwest, Where Land Sells for \$15 and Rents for \$5 Per Acre.

One of the remarkable things about eastern Arkansas and northern Louisiana is the fact that cleared land rents for \$5 per acre cash, and can be bought for \$7.50 to \$15 per acre. It costs from \$6 to \$10 an acre to clear it. Other improvements necessary are slight and inexpensive.

The soil is rich alluvial, or made. It produces a bale of cotton per acre, worth \$45 to \$60. This accounts for its high rental value. Other crops, such as corn, small grains, grasses, regetables and fruits thrive as well. Alfalfa yields 4 to 6 cuttings, a ton

to a cutting, and brings \$10 to \$16 per In other sections of these states,

and in Texas as well, the rolling or hill-land is especially adapted to stock raising and fruit farming. Land is very cheap, \$5 to \$10 per acre; improved farms \$10 \$15 to \$25 per acre.

The new White river country offers many opportunities for settlers. High, rolling, fine water - it is naturally adapted to stock and fruit raising.
