COLORADO JURIST TESTIFIES

Aids Prosecution in Building Up Proof of Conspiracy-Denunciatory Articles Published in Miners' Magazine Will Be Admitted in Evidence.

Boise, Ida., June 2 -The state made dramatic producing and proof of the Goddard bomb and beside offering further contributions of the testimony of Harry Orchard against William D. Haywood, secured a ruling under which a number of the denunciatory articles published in the Miners' Magazine, official organ of the Western Federation of Miners, will be admitted in evidence.

To Justice Luther M. Goddard himself tell the task of telling the story of the finding and preservation for use as evidence of the bomb with which omplete the organization and create Orchard tried to kill him. The veteran Colorado jurist testified that the first information that he received chard's contession, which was shown to him at Denver on Feb. 13, 1906, by Detective McParland. He at once returned to his home and in his gate discovered the screw-eye which Or chard said he placed there. It was rusted and corroded by ten months' exposure. The witness said he examined the ground outside the gate where Orchard said he placed the bomb and found a slight depression, with the soil packed very hard around

The bomb was dug up the next day by General Bulkeley Wells, who used a pocket knife to cut the soil away and raise the pine box containing the bomb. There was a small phial on top of the box and attached to the rubber cork of the phiai was a piece of rusted wire

The explosions occurred in the presence of the witnesses at a point in the suburbs of Denver, and of the bomb itself, twelve giant caps and two wrappers torn from sticks of giant powder were saved as evidence.

Senator Borah produced the several packets as they were originally scaled and, commencing with the phial, passed them to Justice Goddard, who J. Wilcox, G. T. Wilcox, George M. broke the seals and identified the articles. After the phial came the little screw-eye, then the dozen giant caps and last the powder wrapper. Attorneys Richardson and Darrow, for the defense, objected to all the evidence and all the exhibits, and moved to strike out everything, but the court ruled against them all along the line.

Mrs. Soward, at whose home in San Francisco Harry Orchard lived during part of the time he was conducting his operations against Fred Bradley, gave testimony strongly corroborative of Orchard's account of his acts and experiences in San Francisco Beside confirming Orchard's recital as to time, movements and locations, she testified that she found lead and wood shavings in Orchard's room and a screw-eye, string and bottle attached to the close: door where Orchard had been experimenting.

Letters of Recommendation.

John L. Stearns, agent at Denver for the Mutual Life Insurance company, confirmed the story Orchard told Missouri river, is in St. Paul and will about securing employment as a solicitor for the company before he went to Canyon City to kill former Governor Peabody and produced letters of recommendation which Orchard furnished in response to his request. One of the letters was from George Pettibone, a co-defendant of Haywood, and it made jocular reference to the fact that Stearns was taking many agents from him and requested in future, when any of his agents applied for work they be put out on the sidewalk. The defense objected to the admission of the letters, but the court permitted their introduction as evidence.
