

ORDERLY BUT VERY NOISY

SECOND DAY OF THE TILDEN MEET A GREAT SUCCESS.

ATTENDANCE OF 3,500 PEOPLE

No Casualties Marked the Events of the Second Day and Everyone Has a Good Time—Races Are Good and Base Ball Interesting.

Tilden, Neb., Aug. 9.—Special to The News: It is estimated that fully 3,500 people attended the second day of the Tilden race meet and carnival, and there was nothing to mar the pleasure of the day. It was the biggest crowd of people that has ever been in this city and all seemed to be satisfied with the entertainment and that the event is strictly a success. No casualties resulted in any of the games, the track was in fine condition after the recent storm, and everything was noisy but strictly orderly.

The track events were as follows: 2:27 trot—White Wings first, Lady V. second, Jack Robbins third. Time 2:28 1/2.

2:25 trot or pace—Edith F. first, Miss Gund second, Storm Cloud third. Time 2:24 1/2.

Half mile running race—Gale first, Frost second, Lady Joe third. Time 54 1/2.

The base ball game between Brunswick and Newman Grove resulted in a victory for Brunswick, the score standing 13 to 6.

The indications this morning are that today will see even a bigger crowd than was here yesterday. The weather is clear and bracing this morning and managers of the enterprise confidently expect a record breaking day.

The men who were injured the first day of the meet in a ball game were able to go to their homes during the day. McDonald of Lindsay, who suffered the greater injury, having his skull crushed over the eye, after treatment in the hospital here was able to be moved to his home.

FACTORY FOR WEST POINT.

Hardware Man of That Town Has a New Invention.

West Point, Neb., Aug. 12.—Special to The News: The Neiburg Manufacturing company have filed articles of incorporation and will commence active business August 15. This company is formed with a capital of \$50,000, \$25,000 of which consists of preferred stock and the remaining \$25,000 common stock. The company will manufacture the patent oil and gasoline cans upon which Mr. G. L. Neiburg obtained a patent in June. The subject of the invention is a means of purifying the oil by means of electrochemical action and has proved very successful, so much so that gasoline poured through one of these cans becomes absolutely non-explosive. A factory will be built at once to manufacture the cans.

Cards are out announcing the intended marriage of Prof. Charles R. Weekes to Miss Lelia McAvary, at Fairbury, on August 15. Mr. Weekes was principal of the West Point high schools during the last school year.

The twenty-sixth annual session of the Cuming County Teachers' Institute will convene at West Point in the high school building on August 19, and continue in session for five days. The instructors will be Miss Bertha H. Knoll, Prof. W. T. Stockdale and Prof. R. M. Campbell. County Superintendent Stahl will be in charge of the arrangements.

As an indication of the constantly advancing prices of Cuming county land it is noted that the farm of Mrs. Brass, a quarter section located near the center of the county, sold last week for \$95 per acre.

SONS OF HERMANN PICNIC

It Was One of the Most Successful in Recent Years.

With an afternoon's band concert, with games and sports for the children and with cool breezes for their day in the woods the Sons of Hermann spent Sunday afternoon in their annual picnic held this year in the beautiful stretch of woods along the banks of the Northfork north of the city.

No picnic held by the Norfolk lodge in recent years has been so successful as this year's annual outing. Financially the gathering was also a success, a balance remaining above all expenses.

At the appointed hour the Sons of Hermann formed in line of march and set out for their picnic grounds, headed by the Norfolk band. Many Norfolk people joined them during the day, the attendance ranging up past the thousand mark.

The music by the Norfolk band was one of the enjoyable features of the picnic, the selections by the band delighting the big crowd present.

The committee which had charge of this year's picnic consisted of C. L. Laubach, August Koch, Hans Rowler, Dr. Mackay and Frank Ueckerman.

Home From Expo.

Ainsworth, Neb., Aug. 12.—Special to The News: Mayor Murphy and Mrs. C. O. Murphy and the children have returned from a month's visit in the east, including Jamestown, Virginia, and the exposition. Mayor Murphy thinks the exposition a flat failure. The exhibits made by the government and by California, he says,

are worth looking at. But take these away and the show is a small affair. And then the attendance is poor. He says that he was one of a party of six that kept together and made the rounds, and their number was so comparatively large as to attract attention. He thinks Virginia a state of great natural but undeveloped possibilities. She wants northern money and an blood and enterprise and she will then bloom and blossom as the rose.

Boy's Life Saved.

My little boy, four years old, had a severe attack of dysentery. We had two physicians; both of them gave him up. We then gave him Chamberlain's Colic, Cholera and Diarrhoea Remedy which cured him and believe that saved his life—William H. Stroking, Carbon Hill, Ala. There is no doubt but this remedy saves the lives of many children each year. Give it with castor oil according to the plain printed directions and a cure is certain. FRAUDS IN INDIAN LANDS

LAND INSPECTOR DAVIS INVESTIGATING IN THE ROSEBUD.

GRIEVANCES ARE UNCOVERED

In One Case, George Rainwater is Said to Have Received Only Half the Value of His Land—After the Real Estate Agents.

Burke, S. D., Aug. 9.—Special to The News: U. S. Land Inspector Davis is in Gregory and Tripp counties this week investigating some frauds alleged to have been perpetrated recently upon several Indians.

One case in particular which he is looking up is the grievance of George Rainwater, a full blood living near Herrick, who alleges that a Nebraska real estate dealer swindled him out of \$600. Rainwater charges that the real estate man sold for him a piece of land for \$1,230, but turned over only \$630, retaining the remainder of the proceeds for his commission. The real estate dealer is said to reside in a north Nebraska town and an arrest is expected to follow.

SATURDAY SIFTINGS.

Charley Killen is very low and his father, who is in Lamar, Colo., has been sent for.

Superintendent Reynolds is expected home this evening from a trip of inspection over the South Platte district of the Northwestern.

Harold Oxniam, son of Mr. and Mrs. J. H. Oxniam, has been sent to California in search of relief from hay fever.

The open air concert given by the Norfolk band last evening at the corner of Fourth and Main, attracted a large crowd of pleased people to hear a good program.

Mr. and Mrs. W. F. Hall have rented one of the houses belonging to Judge Powers on North Ninth street and will begin housekeeping there next week. Mr. Hall's mother will continue to reside on North Eleventh street. Mrs. W. F. Hall has just returned from a five weeks' visit at Columbus.

J. W. Humphrey, formerly of this city, has closed his tailoring establishment in Omaha and gone to St. Joe, Mo. Mrs. Humphrey and son, Graham, will remain for a time in Omaha. Arrangements are practically completed for the annual picnic of the Sons of Hermann to be held at Hillie's grove north of town on Sunday. A number of grand lodge officers of the order are expected to be present to take part in the festivities.

A team belonging to L. L. Heckenrodt, attached to a coal delivery wagon belonging to C. W. Braasch, indulged in a lively runaway about 6 o'clock last evening on Main street. Not much damage was done. The horses became frightened at an automobile.

Spencer Advocate: Boyd county has won a grand reputation for great crops and prosperous farmers, but never in her history did she ever yield a greater crop of small grain than this year, and the same will be said of corn and other crops if the balance of the season is fairly favorable. To be a Boyd county farmer means plenty, plenty, plenty.

Fairfax, S. D., Advertiser: The final sorting of the census cards of the last state census in 1905, shows the Johnsons are the leading family in the state with a total of 5,940 bearing that name. The Andersons follow with 5,130; then in order come the Olsons with 3,960; Smiths, 3,330; Nelsons, 3,150; Petersons, 3,070; Hansons, 2,980; Browns, 1,620; Jones, 1,395; Williams, 1,350. The Smith, Jones and Brown families have to give way to the names which are of Scandinavian origin in the northwest, and Johnsons, Andersons and Olsons take the lead.

The thermometer did not register quite so high a mark Friday as it did the day before, only reaching 94, and a fresh breeze tempered the heat so that humanity got through the day in much better condition than on Thursday. Friday night, however, did not cool off so quickly as is usual in this country, the heat remaining until late this morning, the mercury only getting down to 74 during the night. With sunrise Saturday morning a fresh breeze came up and the day bid fair to be more moderate in temperature.

A series of interesting experiments has been inaugurated by the Chicago & Alton railroad, which will be conducted for several weeks to determine the advantage or disadvantage of steel coal cars over wooden cars. For several years the Alton has been replacing wooden coal cars with steel cars of greater capacity, and lately engineers have been complaining that steel cars are much more difficult to handle in the train than wooden cars, the relative weight of the train being the same. As the trucks of steel and wooden cars are identical, officials are skeptical at the difference in the pull. The tests will be made with a train of 3,000 tons of coal, the weight to be the same in each test.

Commissioner Taft is a good deal disappointed over the non-arrival of material for the Norfolk avenue bridge over Corporation gulch, to replace the one temporarily built over the gulch last fall. Material for the bridge was promised by the contractors about the middle of June, but it is not here yet and there now seems no immediate prospect of getting it. The construction force of the contractors have been here some days waiting for materials to work with. The bridge now over

the gulch at Norfolk avenue is to be placed on Koenigstein avenue over the same turbulent stream, and the men are able to do a little toward making progress by getting the preliminaries to that work out of the way. The reason assigned by the contractors for non-arrival of material is that the factories are so loaded down with orders and so short of men that it is a physical impossibility for them to produce the work as fast as it is required. The latest in the way of trusts, one that probably will make women of the land thoroughly angry, is nothing less than a corset combine. When news of it permeates through the nation, the government probably will be importuned by all the women's clubs and organizations to set the department of justice on it and read it into small bits. The statement is made here on the authority of the president of a Connecticut company that sells material to corset manufacturers, that four great corset concerns in the country plan to form a combine, not by any formal organization, but by such an understanding as to make a virtual combination. It is denied that it is proposed to increase prices, but at the same time it is stated that the manufacturers are far behind in their orders. Leading corset companies in the United States, according to this information, turn out 200,000,000 corsets a year.

WOUNDED; FATHER DIED

CON O'CONNELL IS INJURED WITH GUN SHOT.

HIS FATHER DIED SOON AFTER

Con O'Connell, Living Southeast of Atkinson, Was Shot in the Hand, Thigh and Side While at Neighbor's Home.

Atkinson, Neb., Aug. 10.—Special to The News: Con O'Connell was badly wounded in the hand, thigh and side in an accidental gun discharge, while at the home of a neighbor and a few hours after the accident the wounded man's father, who had been in a serious condition of health for some time, expired.

Mr. O'Connell lives southeast of Atkinson.

John O'Connell, the elder, who died shortly after the accident to his son, was buried today from St. Joseph Catholic church. He was one of the oldest settlers in Holt county. Death was primarily due to a cancerous growth on his face, of long standing. He is survived by a large family of children, most of them well settled in life. The widow is now on the old homestead, where she will remain for the present. The O'Connell farm is between here and Emmet.

Contesting the Primary.

Sioux City Journal: The California supreme court has sustained the constitutionality of a clause in the primary law requiring every voter to state his party affiliation at the time of registration. The decision is likely to have a dampening effect on the plans of former Senator W. V. Allen, who has been threatening to contest the validity of the Nebraska primary provision requiring each voter to declare his party affiliation when calling for a ballot. Senator Allen's theory is that it is none of the state's business what ticket a man votes at any old election. The theory can be applied nicely to a general election, but it cannot be applied to a primary. In a primary law the state undertakes to regulate the method of making nominations by the various political parties. In order to make the regulation accomplish its purpose it is necessary party lines be preserved. In order to preserve party lines it is necessary to see that each voter shall not have access to the tickets of all parties. Some regulation to carry out this object is needed if the system of making party nominations at a primary is not to become a farce. If the state has the right to regulate the making of party nominations it is absurd to say it has not the right to do whatever is absolutely necessary to make the system a success. If former Senator Allen wants to contest the Nebraska primary on logical grounds he should base his case on the theory that the state has no right to interfere with the nominating methods of voluntary associations such as political parties might be held to be. A lively argument could be put up on that point, though the chances for a successful outcome of the contest might not be at all bright.

Lincoln, Neb., Aug. 9.—Special to The News: The State Journal comes out this morning in a strong article endorsing the candidacy of Judge Sedgwick for re-nomination as judge of the supreme court. The Journal attacks Senator Brown and W. B. Rose, and accuses them of carelessness in the Bartley bond case.

SOCIAL EVENTS OF WEEK

NORFOLK HAS SWELTERED DURING BROILING DAYS.

MORE DOING THAN USUALLY

It Has Been a Comparatively Active August in a Social Way—More People are Using Norfolk as a Summer Resort—Resting up From Races.

Society has succeeded in sweltering during the week, just past, and in resting up from the races. There has been, however, much more in the line of activity than is usual at this season of the year. Perhaps one reason for continued goings-on in a social way for Norfolk lies in the fact that less than the usual number of Norfolk residents have this summer fled to cooler spots, Norfolk itself having become quite a complete summer resort.

Pleasures of the Week.

Mrs. Rainbolt and Mrs. Wynn Maek Rainbolt entertained a number of friends at 1 o'clock luncheon last Saturday afternoon in the home of N. A. Rainbolt on Koenigstein avenue. After a delicious luncheon, five tables enjoyed six-hand euchre during the afternoon. Mrs. H. T. Holden was successful in attaining highest score, receiving a pretty vase as a souvenir, and Mrs. George D. Butterfield won the shooting prize, a dainty book.

On Thursday evening Mrs. J. T. Thompson most delightfully entertained eleven young ladies at 6 o'clock dinner at her home on The Heights, in honor of Mr. Thompson's sister, Miss Alice Thompson of Dubuque, Ia. Miss Thompson had been visiting here for five weeks and left yesterday for her home.

Mrs. M. B. Irvin pleasantly entertained a company of friends Saturday afternoon, cards affording pleasure preceding a supper.

Coming Events.

Mr. and Mrs. Wynn Maek Rainbolt will entertain a company of friends at 8 o'clock this evening. Mr. and Mrs. Rainbolt will prepare next week for their removal to Omaha.

Mr. and Mrs. George D. Butterfield have issued invitations for a dinner to be given next Thursday evening to members of the Wednesday club and their husbands.

Hymenial.

The engagement of Mr. Ben T. Reid of Norfolk to Miss Bertha Cleveland of Chicago is announced. The marriage will take place in the near future in Chicago and the young couple will reside in Norfolk.

O'Neill, Neb., Aug. 10.—Special to The News: Lewis, the 11-year-old son of Mr. and Mrs. Michael Sullivan, living three miles down the river, was drowned in a small pond on his father's farm Thursday evening.

Mr. and Mrs. Sullivan came to town after supper, leaving the boy with two or three other smaller children at home. In their absence the children went to the pond and the older boy went in swimming and it is supposed was taken with cramps and drowned, as he was known to be a good swimmer. Mr. and Mrs. Sullivan heard nothing of it until they arrived home, when the children told them what had happened.

The neighborhood turned out as soon as informed of the drowning and a search was begun for the body, which was recovered in ten feet of water about 2 o'clock Friday morning.

The funeral will be held today at St. Patrick's church in O'Neill.

HILARIOUS BUT STILL SOBER

TILDEN RACE MEET CLOSURES WITH BIG DAY FRIDAY.

MEET WAS A FINANCIAL SUCCESS

Big Crowds and Good Weather Help the Enterprising Business Men of Tilden to Entertain Thousands of Visitors During the Week.

Tilden, Neb., Aug. 10.—Special to The News: The last day of the Tilden carnival and race meet was as largely attended as was the second day, and the event throughout was a most successful affair. After the accident to base ball players on the first day, there was not a hitch to mar the pleasures of the week. Everyone was hilarious but strictly sober and there was not an arrest or trouble of any kind during the week. Everybody was out for a good time and had it.

The weather, although hot, was ideal for a race meeting and people did not hesitate to be on hand even though it was hot. Yesterday the breeze made it much pleasanter than it had been the day before.

The grand stand at the race track holds about 1,000 people and Thursday and Friday every seat was taken. The association went into the meeting with quite a debt carried over from last year, but this morning it is figured that this has all been wiped out and that there will be a nice balance in the treasury.

The racing results yesterday were as follows:

2:50 trot or pace: Van S won first money, Shady O'Neill second, Bessie Billion third. Time 2:25.

In the free for all, Capt. Maek took first, Fordyce second, Miss Clipping third. Time 2:18.

The base ball game drew a big crowd of spectators and resulted in Newman Grove 5, Neligh, 2.

No store ever prospered that failed to secure the interest and patronage of the "bargain-hunters."
