SIoux CITY JOURNAL FIRE

Loss About \$70,000—Flames Start in Mailing Room.

Sioux City, Ia., Nov. 7.—Loss amounting to about \$70,000 was suffered by the plant of Perkins Bros., publishers of the Sioux City Journal, in fire yesterday. Insurance of about \$55,000 partially covered the loss. Files of the paper since 1870 were saved, but the interior of the printing department is almost a total loss.

The fire is thought to have started from a match carelessly thrown aside by a newsboy. A few pages underneath a table started to burn and the flames spread despite frantic efforts. The roof caved in on the big press. Type melted and ran into shapeless masses. The bindery suffered a severe loss. George D. Perkins, president of the Journal company, took the loss calmly.

The morning Journal is now being printed on the Tribune's press and the Evening Journal has been temporarily abandoned.

Gregory, S. D., Nov. 7.—Three Gregory men, Messrs. Hurlbert, Wilson and White, together with "Billy," their coked, had an exciting experience while engaged in duck hunting at Dog Ear lake.

The men had had good success and had succeeded in killing a large number of ducks. While sleeping the sleep of tired hunters they suddenly, at about 2:30 in the morning, were aroused from their slumber by the shouting of parties on the opposite side of the lake.

The other hunters had realized the peril of the Gregory men and saved their lives by arousing them from their slumber at the time they did, for a fierce prairie fire was about upon them, and had they not been aroused they could not have made their escape.

Hurriedly dressing the four men immediately set about the task of setting backfires and after strenuous efforts succeeded in burning off a space sufficient to save their camp, horses and themselves from the fierce fire swooping down upon them. It was a remarkably narrow escape from a horrible death.

New York, Nov. 7.—Raymond Hitchcock, the actor who disappeared several days ago, after he had been indicted on charges preferred by several young girls, appeared in court. Hitchcock was arraigned upon only one of the six indictments against him, to which he pleaded not guilty and furnished bail. He was paroled in custody of his counsel upon the other five. His counsel said the actor had not been out of New York, but had been suffering from nervous prostration as a result of the charges. This, he said, was the first day he had been able to go out.

Hitchcock looked pale and haggard and showed signs of illness. He said he had decided to face his accusers and try to win back the confidence of his friends and the public.

"I am innocent," he said, "and the only way for me to prove it is to stand trial. I am prepared to fight it out now and I'll go through with it."

The amount runs up into the thousands and several hard lawsuits have already been fought through the supreme court of Iowa over his alleged pecuniations. Spencer is charged with falsifying the records of the bank. During the time of his service a country bank ordered \$2,000 in cash from the Des Moines National and this was sent by the American Express company. When the package reached its destination it was found to contain blank newspaper, cut the size of paper money. In the suit that followed by the bank to recover from the express company the courts held against the express company. Since the charges of embezzlement against Spencer the express company has started another suit to secure a rehearing of the case and return of the money on the allegation that it delivered the package that was entrusted to it.

RAIL STRIKE IS AVERTED

WORKERS' SOCIETY IN ENGLAND WILL NOT WALK OUT.

PLAN A CONCILIATION BOARD

Agreement Drafted by President of Board of Trade is Signed by Chairmen of the Principal Railroads and Union Leaders.

London, Nov. 7.—The anticipated railroad strike throughout Great Britain, the idea of which caused so much concern to the British public, has been averted by an agreement drafted by David Lloyd George, president of the board of trade, and signed by the chairmen of the principal railroad companies and the representatives of the Amalgamated Society of Railway Servants.

The agreement provides for the consideration of further matters in dispute, primarily by a sectional board of conciliation, representing the various grades of employees and the individual railroads. In case of disagreement settlement will be reached by the board of conciliation, and an equal number of men representing the full membership of the society. If the board and these representatives fail to reach a decision, the matter then must be settled by arbitration.

The directors of the railroads thus bind themselves to compulsory outside intervention in disputes with their employees. The board will in every case be composed of elected employees of the companies concerned, as well as officials of the various railroads.

This dispute, apart from its effect on the public business, has attracted the attention of high officials of the government, even that of King Edward.

Says Utes Are Restless.

Huron, S. D., Nov. 7.—James Madcomber reached here from the scene of the Indian troubles. He says the Utes are very restless and some open threats are made. A few dissatisfied Sioux have joined the Utes, and while there is no occasion for immediate alarm, it is a fact that the matter may become serious at any moment. The trouble originated from fear that the government would withhold rations and with the approach of winter the Indians apprehended destitution. Several men here who desired to go to the reservation were informed that no permits would be issued to civilians to cross the river and a close watch is being kept on all visitors.

Timber Fire in South Dakota.

Deadwood, S. D., Nov. 7.—Reports from the lumber camps of the McLaughlin Tie and Timber company at West Nahant, twenty-six miles south of here, tell of a heavy timber fire raging to the west of camp and close to the Wyoming border. The company sent out a special train of seventy-five men to save their preserves, but the train was checked by flames, which are working east over dry country, where no moisture has fallen in weeks. The company has half a million feet of cut timber lying directly in the path of the flames, which will probably be lost.

HAVE ENGAGED 40 MILLION

TWO MILLIONS MORE ENGAGED FROM LONDON.

"SCRIP" IS COMING INTO USE

The Rate on Discount in London and France Has Increased—Immense Exports Help America But Are Having Effect in Europe.

New York, Nov. 7.—Two million dollars in gold was engaged in London today for importation to New York, bringing the movement of imported cash to \$40,000,000.

Raise Interest Rate Abroad.

London, Nov. 7.—The bank of England today raised the rate of discount one per cent, making the rate now seven per cent. This is the highest point since 1873. This rise, however, did not prevent additional engagements from America.

The bank of France also raised its rate a half per cent, to five.

The immense exports of gold from Europe are beginning to have their effect upon European finances, particularly England and Germany.

France is acting magnanimously in dividing her gold and no extraordinary condition is feared.

All Stocks Declined Today.

America Being Relieved.

New York, Nov. 7.—Financial circles are being relieved considerably by the receipts of gold from London but the requirements of the country are growing.

It is now anticipated that "scrip" will become the general circulating medium for a few weeks.

Many of the cities in the United States are adopting certificates to replace currency.

Help Trust Companies.

New York, Nov. 7.—The general conditions of the financial situation are favorable. The runs on the trust companies have practically ceased under the encouraging influence of the support of the trust company committee; gold engagements were further buoyantly in recognition of the conditions.

The announcement by Mr. King, president of the Union Trust company, that an agreement had at last been reached by which the Trust Company of America and the Lincoln Trust company were to deposit their stock in the hands of a committee of trust company presidents and in consideration of this, were to receive all the support required, finally cleared the air in regard to the trust company situation.

Now that this danger is removed, it is believed that the situation will gradually simmer down, with the continuous arrival of gold, until the stringency is changed into a plethora of reserve money in banks, which usually follows a crisis.

Additional gold engagements were announced of \$1,500,000. This brings up the total gold engagement for America on the recent movement to \$37,500,000, which would afford the amount required for legal reserve against deposits of \$150,000,000.

The gold which arrived was deposited and that brought by the Lusitania will soon be in the vaults of the banks.

MONEY TO MOVE THE CROPS

Bankers of Northwest Secure Much Needed Funds.

St. Paul, Nov. 7.—M. H. Bailey, president of the First National bank, who announced that as a result of a conference between bankers of St. Paul, Minneapolis and Duluth and J. J. Hill, a plan had been evolved which would provide funds for the movement of the grain crops of the northwest, said that he had little to add to that statement.

"The result is what is more important, not only to the people of the northwest, but to the coast as well," he said. "The people of the northwest can rest assured that the combined efforts of the financial men here will provide genuine relief that no other measure would. It is not necessary to go into details. Results are what we want. A large fund has been raised for that purpose and it is hoped that by putting this movement under way it will result in a stream of money from Europe in payment for the shipments."

"Provision for the shipments from the terminals," Mr. Bailey explained, "will promote the shipment of grain from the local warehouses and in this way the entire crop will be moved and laid down in eastern markets. This will make the northwestern states creditors, and as the flow of gold from Europe already in motion continues, a large share of it will find its way into the banks in this section of the country and any remaining stringency will be removed."

'Frisco Bank Suspends Payment.

San Francisco, Nov. 7.—Taking advantage of the bank holidays declared by Governor Gillett, the Citizens' State bank stopped paying. The doors of the bank were not closed, but no money was received or paid out. To patrons of the bank the cashier explained that not being in the clearing house the bank had to settle its balances in gold and was being rapidly drained, so that it was deemed best by the board of directors to avail themselves of the holiday.

The ownership of the island is in dispute, but it has been held for a century by Argentina.

In the meanwhile the hearing of the civil cases were resumed today before the petit jury.

Describing the two metal lions which adorn the entrance to the house, Mr. Bryan described their significance for the first time. The beast with its mouth open, he said, represented the radical; the one with its jaws closed the conservative. "And," said Mr. Bryan, "I walk squarely between them." He then spoke of the good features of the Knights of Pythias order, of which he is a member.

NEBRASKANS ELECT REPUBLICAN FOR SUPREME COURT JUSTICE.

REGENTS ARE ALSO VICTORIOUS

Their Majority Will Not Be Far Behind That of Head—Republicans Gain One District Judge and Possibly Two.

Lincoln, Nov. 7.—Late election returns served to confirm earlier estimates and to emphasize the victory of the republican state ticket, showing the election of Judge Reese by a plurality of about 20,000. The vote of Clarke for railroad commissioner will exceed this and that for the two regents of the university will not be far behind. The Republicans gain one district court judge and possibly two.

W. J. Bryan sent a telegram of congratulation to Mayor Tom L. Johnson of Cleveland. Commenting on the result at Cleveland Mr. Bryan said: "Mr. Johnson has fought a great fight for the public interests against great odds. Not only were the corporations opposed to him, but all the influence of the national administration was brought to bear against him. His victory is not only a personal triumph, but a triumph for the unorganized masses against the franchise holding corporations."
