FIVE HUNDRED TEACHERS

THAT NUMBER EXPECTED HERE AT TEACHERS ASSOCIATION.

HELD LATTER PART OF WEEK

Among the Speakers Are Gov. Buchtel of Colorado, A. E. Winship of Boston and J. L. McBrien, State Superintendent of Nebraska.

Every tenth person in Norfolk next week will be a school teacher. The annual meeting of the North Nebraska Teachers' association on Thursday, Friday and Saturday will bring more teachers to the city than have ever been in Norfolk before at any one time. Five hundred school teachers is the expected attendance and the estimate is conservative. The "500 mark" was hung up last year and the enrollment fell little short of that number. This year it will go beyond.

The teachers are coming from every county in this north state country. Holt county alone will have seventy-five teachers here. In Wayne county Superintendent Littel has dispensed with his spring meetings so that all of his teachers may attend. The program offered this year is more than ever a drawing card. Prominent among the speakers are Governor Henry A. Buchtel, the present Colorado executive, A. E. Winship of Boston, a school editor of note, and State Superintendent J. L. McBrien of Lincoln.

A. V. Teed, a prominent north Nebraska school man and at present county superintendent of Dixon county is president of the association, this year and he has been working hard in conjunction with the executive committee to bring the attendance up to the desired mark and the program up to the desired standard. Virtually every city and town in north Nebraska will give their teachers a vacation period to attend the convention. President Teed has taken the matter up with the directors of the country school districts to obtain the same privileges for the country teachers.

The general association meetings will be held in the Auditorium. The department meetings will be held in the new high school building and for this purpose the upper floor of the new building is being put in shape for next week's meetings.

PSYCHOLOGY QUESTIONED.

General Attorney Kelby Makes Light of Theoretical Testimony.

Lincoln, Neb., March 27.—"More slush and fiddlesticks" is the way Gen-

eral Attorney Kelby, of the Burlington, refers to the testimony of Professor T. L. Bolton, a psychological expert from the state university, in a lawsuit recently decided by the supreme court against the railroad and in favor of Emil Schwanefeldt, of Lincoln.

Schwanefeldt was run down and badly hurt by a train just after he had driven onto a switch track from a blind alley. He claimed he did not have time to get out of the way. The psychological expert testified that it takes from one-eight to one-half a second to respond to an expected warning by those possessing quick mental action, while an unexpected one requires much longer. The gist of it was that the plaintiff, being a young German, probably did not have time to act before the train was upon him, and the supreme court gave him the benefit of the doubt and sustained a \$2,000 verdict in his favor.

Now comes Kelby and wants a rehearing. In a 24-page brief filed yesterday he pokes all kinds of fun at the professional theory, and incidentally protests against being psychologically separated from \$3,000 upon a class of testimony that is theoretical and not recognized in law as being conclusive of anything. He insists as a conclusion that "it is only charitable to say of this kind of clap-trap that it was intended as an indictment of the defendant for some wrong committed by it in a past incarnation."

DISTRICT WOMEN'S CLUBS

ANNUAL MEETING IS NOW BEING HELD IN NELIGH.

VISITORS HEARTILY WELCOMED

Neligh Women Praised for the Splendid Manner in Which They Had Planned Entertainment—Decorations Elaborate and Beautiful.

Neligh, Neb., March 27.—Special to The News: The largest delegation of the Third district Women's Federated clubs ever assembled were in attendance here yesterday afternoon.

The meeting was called to order by the district vice-president, Mrs. J. A. Ehrhardt of Stanton, who introduced Mrs. Seymour, who invoked the divine blessing to rest upon the convention.

The address of welcome by Mrs. Mayme Cleaver of this city was pronounced one of the most eloquent introductions ever presented before this assembly. Mrs. Wittse of Pender responded in a pleasant manner and paid a glowing tribute to the club women of Neligh for the splendid manner in which they had planned entertainment and for the elaborate decorations.

Mrs. H. L. Keefe, state president, was introduced. The warmth of her reception was only equalled by that accorded Mrs. Ehrhardt, who followed with a report of the conditions of the district. In Mrs. Pile's absence Mrs. Keefe spoke on library extension, and urged members to keep at their husbands' elbows to influence them to legislate favorably to that project.

Mrs. Carey of Bancroft presented a fine paper, "What a Woman Can Do As a Member of the School Board." Discussion followed which was participated in by several ladies who were members of their city school boards.

The meeting at this time adjourned for the banquet which was given by the club women of this city, and consisted of six courses.

The convention is scheduled to adjourn this afternoon when the election of officers will take place.

AN ADMINISTRATION VIEW

Statement by Mayor Durland Concerning the Paving Question.

Mayor Durland made the following public statement today touching the paving situation as he views it:

To the Public: It seems to be necessary to use just a little printer's ink to get the present city administration properly before the people on this much talked of paving proposition. Our predecessors worked the plan up, admirably, to paving the intersections. And they finally decided there were but two plausible plans to raise the necessary funds for that. The first was, to submit the proposition of voting bonds to the voters of the city. The second, to raise the amount by subscription, either from the parties owning the property in the paving districts on Norfolk avenue, or by the ordinary subscriptions. This was about the condition when the present administration took charge of the city's affairs in May, 1907. It had already been discovered by the prior council that they were debarred from the first plan, by law; that is, our population was not sufficient to submit it to the vote of the people. And we soon began the movement of expanding the city limits, which has been carried along through its various stages, until now, the plan is up before the district court to hear the grievances and give his decision in the May term of court. And when that decision is given; it will be for our successors to determine on the next step to be taken. And as for the second plan; if there had been a subscription list of an adequate amount to have paved the intersections presented, the council would have been glad to have voted twice, if it were possible, to go ahead with the work months ago, for it would have saved the taxpayers just that amount of money. And certainly it could not be expected for the council to pass the hat and raise the funds themselves, which would run into the thousands of dollars.

C. B. Durland, Mayor.

We are certainly excelling ourselves and everybody else in the present quality of Arbuckles' Ariosa Coffee.

No such quality of coffee can be sold out of a bag, bin or tin, or under any other name by anybody in this town, for anything near the same price.

That's a strong statement, but you can take our word for it, and we are the largest dealers in coffee in the world. Another thing—the egg coating on ARIOSIA COFFEE does not improve its appearance but preserves the flavor and aroma.

Remember that ARIOSIA is not sold to look at, but to drink.
