Omaha boys would like to get a glimpse of the countryside. They want to work on north Nebraska farms this summer.

Touching the matter G. T. Sprecher of Norfolk, a corresponding member of the Y. M. C. A., has received the following letter from the office of the Omaha association:

"Omaha, June 30 .- G. T. Sprecher, Norfolk: As you are a corresponding member of the association I am taking the liberty of writing to you regarding positions for Omaha boys and young men who wish to work on farms us hopes of seeing any other circus in during the summer vacation. We have continually, boys from fourteen years up, who would like to work on a farm for the summer, and we would like to know from you if you could tell us of suitable homes in which these boys or men could be placed.

"We would not want to put them in a place where they would be worked to death or where the surroundings would be harmful. Of course, some boys would not make good on farms, but on the whole I think with your cooperation we would bring the applicant and the farmer together to the benefit of both. I should be pleased to hear from you and know what you may be able to do in your Immediate vicinity.
