Missed Being Cremated.

R. A. Maas had gone to the parn to feed the five horses used on the Hardy coal wagons. He started to put hay down one of the self feeders when he slipped, falling into the opening. His fantern fell to the bottom, broke and set fire to the hay already in the feeder. Maas caught himself and did not fall entirely down the pit. Had he fallen to the bottom he would had stood a fair chance of being cremated in the burning pit, fed by the oil from the lantern.

DEAFNESS CANNOT BE CURED by local application, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inliamed condition of the mucous ling of the Eustachian Tube. When it is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. DEAFNESS CANNOT BE CURED
