

Again Arrest Hadar Suspects.

Sioux City, Ia., Feb. 13.—Believing that he has in custody the men who broke into the Farmers' bank at Hadar, Neb., on the morning of January 19, and, after digging through the two-foot vault, dynamited both ends of the safe and made off with \$1,939 in cash, Chief of Detectives J. B. Richard has wired Sheriff Dwyer of Pierce county, Nebraska, that he is holding the men here, awaiting his coming. Two of them, James Riley and Harry Joyce, have been in the city jail since Monday. They were held for investigation. The third man, Fred Morrison, was arrested at 4 o'clock yesterday afternoon by Detective Richard, who last evening received a telegram from Sheriff Dwyer which read: "Hold Morrison, Riley and Joyce. Have warrants for their arrest; will be there tomorrow."

Descriptions Are Taken.

On January 6 the same three men were arrested here and held for investigation until January 14. During their incarceration Detective Richard put the trio through the Bertillon measurements. Morrison gave his place of residence as Sac City, Ia. When arrested yesterday he signed up from Butte, Mont.

When the Hadar bank robbery was reported Richard got in communication with the authorities at Norfolk, Neb., and sent them the pictures. He also was in correspondence with W. B. Hughes, secretary of the Bankers' association in Omaha, sending him pictures and descriptions of the three men.

At first it was thought it would be difficult to prove anything, but in the examination of the premises the authorities of Pierce county discovered a pocketknife dropped by one of the burglars. The knife may prove the undoing of the crooks. The sheriff of Pierce county has discovered the knife was purchased the night before the robbery in Norfolk, and has a description of the purchaser, said to fit that of Morrison.

The other two men were with Morrison when he was arrested here in January, and it is alleged returned with him some time after the affair at Hadar.

The News last Monday printed a story of how the man answering the description of the person who bought the pocketknife here, had been arrested and then turned loose in Sioux City. It is believed that story telegraphed to Sioux City, caused the arrest of the men.

Sheriff Dwyer was expected to arrive in Norfolk from Sioux City Monday on the train which was scheduled to arrive at 10:50 but which was reported as several hours late.

Deposits High in Norfolk.

Never in the past has the official statement of Norfolk banks shown as large deposits at this time of year as were disclosed in the statements just made public at the call of the treasury department.

The day of the call found \$1,406,767.29 on deposit on Norfolk banks. This was \$35,926.74 more than was shown at the last call on November 27 and \$73,978.83 more than was shown at the call of a year ago.

Total bank footings in Norfolk are \$1,789,013.61. This represents an increase of \$24,661.69 in a little over two months and of \$79,566.85 in the past year.

Norfolk bank deposits lack only a few thousand dollars of setting a new high water mark for the city.

MAY SOME DAY GET ANNUITY.

Progress Made in Effort to Aid Santee Sioux Indians.

Washington, Feb. 15.—The efforts of twenty years past to secure payment of the claim which the Santee Sioux Indians hold against the government was advanced one point nearer success than ever before. One congressman after another in the 41st district has struggled with this claim and libraries of briefs and arguments have been written. A hard hearted congress has declined to take stock in the claim. The Santee Sioux were among the tribes that revolted in the "Minnesota massacre," in 1862, when many whites were slain and a reign of terror lasted for months. When the Indians were at last suppressed thirty-eight leaders were hanged from one scaffold, the tribe was banished and sent west, and the annuities that had been paid for many years under treaty were declared forfeited. The South Dakota and Minnesota members of the tribe eventually got their annuities re-adjusted and restored but over a thousand Santees are in Nebraska and have never been able to get this done. A bill referring the whole matter to the court of claims was today ordered reported by the house Indian affairs committee. The court will go into the whole affair, and render judgment whether the annuities should be restored, what amount of the back payments should be made, etc.

The Indians might get anywhere from small individual annuities for the future up to a million and a half dollars in cash. The court of claims, however, does not give a decree that can be enforced. Congress must appropriate if it sees fit to carry out the decision. In a case of this kind it generally doesn't see fit, and Judge Boyd, who has worked hard on the case, has hope that some of his successors may bring the matter to settlement in the next congress or two. Judge Boyd's bills to permit the drainage of the Logan valley Indian lands at tribal expense in Thurston

and Cuming counties, have passed both houses, and are now in the president's hands. Mr. Roosevelt has been informed in a general way of the merits of the proposals, and there is no doubt of his signature.

Representative Kinkaid experienced hard luck with his bill to reduce the improvement requirement in the homestead laws, for proving up on the 640 acre homestead under the Kinkaid act. The present law requires \$1.25 per acre. Judge Kinkaid would reduce this to 40 cents. The bill has been reported, and Mr. Kinkaid asked unanimous consent to call it up. Representative Mann of Illinois objected and the bill had to go over. If Mr. Mann will withdraw the objection it will pass later.

As the official objector Mr. Mann's action probably signifies that the powers of the house have not had opportunity to inform themselves about the measure and wanted time to look it up. The performance handsomely illustrates how completely the powers control legislation under the present rules.

Ruler of Corn and Oats Market Bids Fair to Have New Corner.

Chicago, Feb. 15.—James A. Patten has won a new title, and is looked upon as the coming wheat king. A few weeks ago traders thought he was wrong and stood to lose millions. Now that prices have advanced to \$1.13, the tables have turned.

It is the popular estimate that Patten and his followers have more than 25,000,000 bushels of wheat, bought for May delivery, with a paper profit of more than 6 cents a bushel on the entire line. Those who know say that he has the situation sized up right.

Patten is making no predictions as to how high prices will go. He simply says it is a supply and demand situation.

The question of this city holding the state farmers' tournament next summer is being put before the local business men by a committee named by the fire department this week and consisting of W. D. McCune, F. Brueggeman and Millard Green. The firemen did not ask for the tournament, in fact at the convention requested that it go elsewhere. It will be necessary for the business men to make something of a financial outlay if the tournament is secured. The question is therefore before the business men without prejudice.

Atkinson, Neb., Feb. 15.—Special to The News: By general orders from Jacob Roche, commander in chief of the G. A. R., there was a program given at the Miller opera house the afternoon of February 12, commemorating the one hundredth anniversary of Abraham Lincoln.

POURED KEROSENE ON FIRE.

Miss Minnie Anderson of South Norfolk Burned—Junction News.

Miss Minnie Anderson was quite seriously burned Friday morning as a result of pouring kerosene into the stove.

commonly known as "Big Mike," and said to have been a bully, was stabbed and killed by a little fellow (name unknown) thought to be a bartender.

Details of the tragedy were brought to Norfolk by Joe Fox and Jack Shinn, who were in Bloomfield at the time of the killing. As Bloomfield has been cut off from the outside world ever since Tuesday's blizzard, it is still impossible to reach the town by telephone or telegraph and the names of the man killed and his slayer cannot be learned.

According to Mr. Shinn, "Big Mike" had a reputation for seeking trouble with whomever he could.

He was in a restaurant and pool hall conducted by Maxwell & Kingsley when killed. The "little fellow" came in, it is said, and "Big Mike" began quarreling with him.

Stabbed in Heart.

After "Big Mike" had hammered the little fellow around the room for some time with a billiard cue, the small man is said to have drawn a pocket knife with which he stabbed "Big Mike" at the end of a rib, the knife puncturing "Big Mike's" heart. The wounded man dropped and died within two or three minutes.

Coroner's Jury Says Self Defense.

It is said that the slayer was arrested and that the coroner's jury brought in a verdict of self defense.

The killing is said to have occurred at about 10 o'clock Thursday morning.

Mr. Fox and Mr. Shinn drove to Creighton from Bloomfield and came to Norfolk on the Northwestern. They were snowbound in Bloomfield, as the Omaha road was tied up after the blizzard until Saturday.

A telegram received from Bloomfield regarding the killing there, says Herman Sorey, formerly of Missouri Valley, Ia., did the stabbing, Mike Eatley was the victim.

This The Center Of It.

enter Kansas at Smith Center and will follow the tier of counties to the south to the Oklahoma line, passing through the county seat. From Oklahoma it will pass through Wichita Falls, Texas, to Cisco, Brownville and Austin and thence east to Galveston. Unlike Fremont Hill's proposed Yankton Southern road, the Yankton, Norfolk & Southern will not pass through Wichita, Kan., but will go fifty miles west of that city.

The projected line to a gulf is 1,200 miles long. The air line from Galveston to Yankton is 900 miles.
