# STONE BREAKS GIR.'S NOSE

'ane husband is missing.

Miss Margaret Long at Madison Victim of Peculiar Accident.

Madison, Neb., May 13 .- Special to The News: Miss Margaret Long, daughter of Dr. Long of this city, was accidentally struck on the nose by a stone while at school, which fractured the nasal bone. The matter was wholly unintentional, the stone being thrown by one boy at another.

Miss Gretchen Horst gave a farewell party to her young friends at the G. A. R. hall last evening, there being eighteen couples present. It was distinctly the social event of this spring and will long be remembered by all present. The han was tastily decorat ed for the occasion and the evening was devoted chiefly to dancing until midnight when a dainty lunch was served. Miss Horst accompanied by her parents will leave for Salt Lake 74 to 104 a resolution by Mr. Garrett City Saturday, where they expect to pass the summer.

However much may be said in praise of the work of Superintendent Dore mus as head of the Madison schools for the last five years in matters of organization, discipline, etc., the fact that this year's graduating class has eleven young men and eight young ladies, shows that he has succeeded in keeping the young men in school unschool course, an accomplishment in which a majority of the high schools of the state have failed.

tion, Which is Not Accepted. West Point, Neb., May 13.-Special to The News: The health of Rev. congregational church at West Point, has been seriously affected during the George W. Crofts, D. MANY POLITICAL ARRESTS MADE

Houses of Various Suspects are Being Searched by Government Officials and Other Precautionary Measures Adopted.

Lisbon, May 13.-Considerable uneasiness has been created here by the fact that during the last few days the government has made a number of political arrests, searched the houses of various suspects and adopted other precautions.

The authorities maintain the greatest reticence concerning these measures, which are variously attributed to the discovery of a plot or the fear of a big republican demonstration to take advantage of present political anarchy in parliament.

# CONDITION OF THE WEATHER LITTLE CHANGE IN PARIS STRIKE

NUMBER OF STRIKING GOVERN-MENT EMPLOYES NO GREATER.

AUTHORITIES THINK END NEAR

Strikers, on the Other Hand, Declare Government is "Bluffing," and that Movement Will Rapidly Extend. Situation Worse at Havre.

Paris, May 13 .- The number of striking government employes shows no appreciable increase this morning. The services are normal and at some places, notably Bordeaux, the telegraphers who went out yesterday have returned to their posts. The concerted efforts of the strikers stationed at various bureaus in Paris to induce their comrades to join the movement

have been without effect. The authorities are confident the strike will be over in a few days. On the other hand, the leaders of the strike claim that the government is "bluffing" and that its figures regarding the number of men are ridiculous. They declare the movement will extend rapidly and that the general federation of labor will soon make a dramatic appearance on the scene.

Only at Havre, where both the post and telegraph services are practically tied up, is the situation worse today. The batch of dismissals last night evidently has dismayed the rank and file. The government this afternoon will ask for a vote of confidence in the chamber of deputies, and if this is obtained another and larger batch of dismissals will follow immediately.

The official statistics issued at noon today give the total number of strikers at 939. The postmen charged with the delivery of newspapers refused to make their rounds this morning. They were expelled from the postoffice and replaced by men of the navy. The American chamber of commerce in Paris has organized a special service to insure the dispatch of the American mails via Cherbourg and Havre.

Prairie Fire at Kadoka.

Sioux Falls, S. D., May 13.-Particulars have been received here of a remarkably narrow escape of the town of Kadoka from being destroyed by a prairle fire. The innocent causes of the fire were a pipe and a burning blanket. So great was the alarm during the time the fire was in progress. that Kadoka merchants hurrled their valuables to the vaults of the banks and the schools were dismissed and the children hurried to their homes.

Charles Engers, a homesteader living some miles out, was driving to his home from a business trip to Kadoka. He was riding in a buggy and was enjoying a smoke, little dreaming that a spark from the pipe was to cause a prairie fire of unusual severity.
