cate has the following reference to a former Norfolk boy: "J. W. Tannehill, postmaster at Ancon (the beautiful American suburb of the city of Panama), exhibits in the management of his office, which is the second in importance on the isthmus, a degree of skill and energy that might be emulated with profit to the service by some of our more favored and better situated officials at home.

When Mr. Tannehill was postmaster at Matachin (down the line), a railroad wreck occurred that delayed the mails. Without orders from his superiors and of his own volition, he journeyed several miles by foot under a hot, tropical sun to the scene of the disaster, where he secured the pouches for his office, which he carried them to his back and distributed their contents in very little time after the usual hour.

The drain which takes care of the overflow water on the north side of Main street east of Sixth, is said to be badly clogged, and it should have the attention of proper officials before the June floods start. LIETECUM VS. HENDRICKSON. Former Norfolk Man in Race for Bone-steel Mayoralty. Bonesteel Pilot: The case of A. W. Lietecum vs. A. P. Hendrickson, involving the office of mayor of Bone-steel, came up before Judge Tripp this week and was vigorously fought by the attorneys in the case. After much argument the judge ordered a recount of the ballots and the canvass was made in open court by the attorneys, who agreed upon a tally sheet showing that Hendrickson received 61 clear votes and Lietecum 57. Nine ballots were in dispute and these were referred to the judge to be passed upon. He ordered six of them counted for Lietecum and one for Hendrickson and withheld judgment on the two remaining ballots, asking the attorneys for ten days' time in which to satisfy himself of their legitimacy.

The count as it now stands gives Hendrickson 62 votes and Lietecum 63. The two ballots now in the hands of the judge are the marked ones specifically referred to in contestant's complaint. They are alleged to be illegal ballots by reason of certain marks upon them, one of them having the letters "F.F." written on one corner of the ballot and the other bearing the words "C. J. Alexander for Dog Catcher." The judge's decision will not be given out for some days, and in the meantime Mr. Hendrickson will wear the title of "His Honor" and discharge the duties of the office with the same care and thoroughness that has characterized all his official acts as a member of the town board for three years past.

The penalty for selling mortgaged property is a fine and a penitentiary sentence of from one to ten years. Used Cab Line as Basis. Simkins recently bought the Beemer cab line, which he used as a basis for his mortgages. A general first mortgage is said to be held by the Citizens National bank for \$500, by H. J. Beeber for \$125 by H. C. Sattler for \$325 and D. Ommerman for \$550.

There will be children's programs and morning meetings to be announced later.

Season tickets for the chautauqua will sell at \$2. Now that the chautauqua is established, it is not believed that there will be any difficulty experienced in securing a heavy advance sale of season tickets.
