## HARRY THAW INSANE MUST STAY IN ASYLUM

THIS DECISION IS HANDED DOWN  
BY JUSTICE MILLS.

### WHITE'S SLAYER STAYS PUT

EFFORT TO SECURE FREEDOM  
FOR HIM PROVES FUTILE.

### KILLS HABEAS CORPUS WRIT

Harry Kendall Thaw's Efforts to Gain  
Freedom From the Matteawan In-  
sane Asylum Fail and He Stays  
Locked Up in Institution.

White Plains, N. Y., Aug. 12.—Justice Mills handed down a decision this morning declaring that Harry K. Thaw is insane.

He dismisses the writ of habeas corpus under which Thaw endeavored to secure his release from Matteawan and remands him to the custody of the state authorities and that institution.

White Plains, N. Y., Aug. 12.—The state of New York won a complete victory over Harry Thaw today when Justice Isaac N. Mills decided that the slayer of Stanford White was still insane and sent him back to the asylum for criminal insane at Matteawan.

To be Treated Better.  
Not one of the many contentions made by Thaw during the three weeks of his recent hearing was sustained. He is, however, somewhat better off than before he brought the present suit because Justice Mills in his decision suggests—and the suggestion amounts practically to orders—that Thaw at Matteawan be restored to the privileges he enjoyed during the first three months of his stay there, and that his mother be allowed all the possible privileges and be treated with every consideration when she calls to see him.

### HEAT BEATS DOWN ON G. A. R.

Parade Ranks Thinned by Terrific  
Heat; Living Flag Abandoned.

Salt Lake City, Aug. 12.—Midsummer heat thinned the annual parade of the Grand Army of the Republic, the feature of the forty-third reunion, and wrought still more suffering among thousands of children who participated in the formation of the living flag. So oppressive was the heat that the plan calling for the living flag in the procession was abandoned.

At least 100 children and twenty old soldiers were taken from the street. Many of the victims, young and old, recovered as soon as they were placed in the shade. Those treated at the emergency stations numbered about forty, fifteen of them grand army men and thirty children. There were no fatalities.

### MEXICAN REVOLUTION NIPPED.

Papers and Letters Found in Texas  
Show Scheme was Hatching.

San Antonio, Tex., Aug. 12.—Further investigation of the papers captured here when two Mexican revolutionists were arrested by federal officers showed that the plan of the revolutionists had progressed to the point where the actual invasion of Mexico was under discussion. These letters and papers showed that every effort was being made to rush the work of completion in order to be ready to strike operations on the Mexican side of the Rio Grande some time during October and certainly during this year.

At the time these plans were discovered by the officers it was agreed that five separate armies should cross the Rio Grande. These armies were to start from points along the Texas border and one was to move ahead of the rest to cause a concentration of the main troops.

Swedish Strike Broken.  
Stockholm, Aug. 12.—The belief is gaining ground that the backbone of the general strike has been broken. Workmen of various kinds resumed

their duties in increasing numbers and it is expected that the printers will soon return to work. All the newspapers in Stockholm are issuing hand printed sheets while those in the south are being printed in Denmark.

Some 15,000 strikers attended a meeting in the woods south of Stockholm. There was a strike riot at Norberg as a result of in which twenty-two persons were arrested.

## KNAPP PLEADS "NOT GUILTY"

The Charge is of Shooting With Intent to Kill.—McDuffie Represents the Defendant in the Case.

Madison, Neb., Aug. 12.—Special to The News: With a bandage tied around the bullet wound in his head, which he himself inflicted at the same time he shot and tried to kill his wife, Charles Knapp appeared in County Judge Bates' court this afternoon and pleaded "not guilty" to the charge of "shooting with intent to kill."

Knapp was bound over to district court in the sum of \$2,000, bail being furnished by his father.

The wounded man seemed to have recovered his strength. He was represented by M. F. McDuffie, city attorney of Madison, and the state was represented by County Attorney James Nichols.

### WASHINGTON PARK BURNING

Summer Resort in New Jersey Being  
Destroyed by Flames.

Camden, N. J., Aug. 12.—Washington park, a pleasure resort on the Delaware river ten miles below this city, is burning and probably will be totally destroyed. The main building is a mass of ruins and the surrounding structures are on fire.

About 4,000 persons are attending a picnic of the Baltimore and Ohio Veterans association on the grounds.

The fire started in the kitchen of the park restaurant by the overturning of a pan of grease.

Miss Jane Dagan, a cook, was scalded and died shortly afterwards.

### JEFFRIES SEEMS SURPRISED

Says Berger Had No Authority to Sign  
Articles—But Will Fight.

Plymouth, Aug. 12.—James J. Jeffries, on arriving here today from New York, appeared to be surprised to learn that his representative, Sam Berger, had signed an agreement in Chicago yesterday for a championship fight between Jack Johnson and Jeffries.

"No one has any authority," said Jeffries, "to make any such arrangements in my absence. I have nothing to say about my fight with Johnson. The match will come off if I have anything to do with it. As to the date when it will take place, it may be in six months and it may be earlier or even later, but the sooner the better."

Johnson Again Arrested.  
Chicago, Aug. 12.—Jack Johnson, heavyweight pugilist champion of the world, was arrested today for exceeding the automobile speed limit in Michigan avenue. He was released after depositing \$50 as security for his appearance in court tomorrow, when the charge against him will be heard.

### RECALL CHINESE MINISTER

Wu Ting Fang Will go Back to Peking  
for New Assignment.

Washington, Aug. 12.—The Chinese minister, Wu Ting Fang, has been recalled from Washington and ordered to Peking for further assignment. His successor will be Chang Yin Tang, formerly charge d'affaires at Madrid and now deputy vice president of foreign affairs.

Mr. Wu is now in Peru to which country he had been credited along with the United States.

Would Join Columbia.  
Bogota, Aug. 12.—Caecilio Inapayana, chief of the Darien Indians, is at present in Bogota offering the adhesion of his tribe to Columbia.

The Darien Indians inhabit a strip of territory on the Caribbean sea that became Panamanian territory with the independence of that republic. Their recognition of Columbian sovereignty in the past was only nominal and they have continued the same attitude toward Panama. They have never paid taxes to either state and because of their opposition to the presence of foreigners, their country today is practically unknown.

Flights in New York.

### WAR BALLOON USEFUL.

From Balloon, Spanish Discover Positions  
of Moors.

Melilla, Aug. 12.—A captive balloon in the Spanish lines discovered two new camps of the Moors which were promptly shelled by the Spanish artillery. The Moors were driven out, carrying away their dead and wounded.

Melilla, Morocco, Aug. 12.—The observations from the balloon also revealed the fact that the enemy now numbers 50,000 men who have been distributed in such manner to make the position a strong one. As a consequence General Marina had postponed his advance against the tribesmen until the railroad track is completed as far as Atalayon.

Cannonading continues at Alhucemas, five miles southeast of Cabo Morro, and at Penon de LaGomera. The enemy is suffering heavy losses, but there have been no casualties in the Spanish ranks.

On July 9, Mr. Anderson, who was a brakeman on the Northwestern, was fatally injured in a wreck at Stuart, dying later in the day at Atkinson.

IN ONTARIO RIOT.

A Battle Between Special Police of  
the Canadian Pacific Railway and  
Strikers Occurred at About Noon.  
Newspaper Man Wounded.

Fort William, Ont., Aug. 12.—A battle occurred about noon today between the Canadian Pacific railway special police and the strikers on the docks. Eight men were wounded, some of them seriously.

The special police went to the Canadian Pacific railway boarding house for their dinner and the strikers refused to allow them to return to their posts. One of the constables drew a revolver and in place of the sticks with which the strikers were armed guns appeared as if by magic. The constable fired and a man dropped. In a second the fight was on.

Among the men wounded are: Sergeant Taylor of the city police, seriously; C. M. Dickinson, a Times and Journal reporter, seriously; John Ball, chief of the Canadian Pacific railway police, probably fatally.

The militia was called out and the riot act read and for a time the disturbances ceased.

## BALLINGER IS CRISPLY ROASTED

FORMER GOVERNOR PARDEE OF  
CALIFORNIA ATTACKS HIM.

AT THE IRRIGATION CONGRESS

Declares Ballinger Has Restored to  
Public Entry Lands Containing Water  
Power Sites Which Roosevelt  
Withdrew to Hold for the People.

Spokane, Wash., Aug. 12.—The Ballinger-Pinchot contest burst upon the National Irrigation congress when Dr. George C. Pardee, former governor of California, attacked Richard A. Ballinger, secretary of the interior, with a fierceness only seconded by that of former Senator George Turner of Washington, who defended the secretary.

Mr. Ballinger entered the auditorium surrounded by a reception committee, and when he arose to speak he was cheered for several minutes. He read from a paper his ideas on reclamation and the public domain. He contended that what has been done by the secretary of the interior was under the law. Former Governor Pardee took the platform to deliver the address under the subject assigned to him. But he had no use for his manuscript. He opened by saying that he was for Roosevelt and his policies.

"Roosevelt was a president who did things first," said he, "and talked about them afterward, and that's the kind of man we would like to see in public office now." Dr. Pardee told of the activities of former Secretary Garfield, who, under instruction of President Roosevelt, withdrew from public entry many tracts of land under the belief that these lands should be held for the people.

Now, he said, Secretary Ballinger has again put up for entry these lands and each tract has in its boundaries a waterpower site.

Senators Visit Irrigation Lands.  
Chicago, Aug. 12.—United States Senators Chamberlain of Oregon, Carter of Montana, Warren of Wyoming, Flint of California, Poynter of Kentucky, and Borah of Idaho, comprising the senate committee on irrigation, met here and started in a body for a two months' tour of the various reclamation projects of the west and northwest.

## ONE MAN DEAD RESULT OF STRIKE

FIRST FATALITY OCCURS IN Mc-  
KEES ROCKS TROUBLE.

### MOB OF STRIKERS ATTACK NEGRO

The Negro, Knocked Down and Un-  
mercifully Beaten, Draws a Revolver  
and Begins Firing, Killing One  
of the Strikers Instantly.

Pittsburg, Aug. 12.—The first fatality growing out of the strike at McKees Rocks occurred early today when Steve Horvat, one of the strikers, was shot and killed by Major Smith, a negro whom a crowd of two score striking foreigners had attacked by mistake.

The negro was going to his work at the Pennsylvania Malleable company's plant when accosted by the crowd of strikers and accused of being a strikebreaker in the employment of the Pressed Steel Car company. This he denied, but could not make the men understand. They knocked him down and unmercifully beat him about the head and shoulders before he drew his revolver and commenced to shoot. At almost the first shot Horvat fell, mortally wounded. Smith was arrested.

Old Hermit Has \$50,000.  
Pittsburg, Aug. 12.—Gold, silver and paper money to the value of \$50,000, hidden away in old trunks, bags, stockings and even the rafters of a hotel, was discovered in the shanty of Peter Liebach, a German hermit, to whose squallid dwelling the police had gone to arrest him for using profane language to several girls who threw waste paper on his lot yesterday. The money will be transferred to a bank and a guardian will be asked for Liebach by the department of charities.

### SUTTON COULDN'T HAVE

Expert on Gunshot Wounds Says Lieu-  
tenant Did Not Suicide.

Annapolis, Md., Aug. 12.—A gruesome feature was introduced in the proceeding in the court of inquiry into the death of Lieutenant James N. Sutton, jr., of the United States marine corps, when the legal representative of Mrs. Sutton, the mother of the dead lieutenant, brought to the witness stand Dr. Edward M. Schaefer of Washington, an expert on gunshot wounds. The doctor stretched himself on the table and showed by pantomime how in his opinion as an expert it was quite impossible that Lieutenant Sutton could ever have fired into his own head the shot that put an end to his life.

### FICKLE RIVER TAKES LIVES

Returns to Its Banks, Killing and De-  
stroying Homes.

Monterey, Mex., Aug. 12.—The Santa Caterina river has returned to its banks, leaving a scene of desolation and destruction in the southern part of the city. Fourteen lives are known to have been lost, and estimates place the number as high as fifty. The exact figures will never be known as the district known as San Luisito, where most of the damage occurred, is inhabited by the poor class mostly, and many occupied houses which were washed away. Over 6,000 houses have been washed away in this one district, and practically all those left standing are more or less damaged.

### MAY STRIKE IN CHICAGO.

Situation Grows More Doubtful; Dif-  
ferent Opinions Expressed.

Chicago, Aug. 12.—Will there be a street car strike in Chicago?  
The street car situation in the city became darker than it has been at any time since the union men voted to strike. The failure of the conference between the union leaders and the officials of the street railway companies to result in any tangible offer that the union officials thought they could take to their men gave rise to a growing dissatisfaction among the employees. The union officials demand something besides promises to place before their men and declare that unless they can get it soon they will not be responsible for what might occur.

At a conference held between President Mitten of the City Railway company and President Buckley of the Southside Street Car Men's union, Mr. Mitten proposed to give the increase as asked for but making the 30 cents an hour scale applicable only to those employees who have been in the service ten years. Buckley refused this and said the only thing the unions would accept would be an advance to 30 cents within two years. Mr. Mitten said he would have to confer with his stockholders.

President John Roach of the north and west side lines has promised to make the unions a definite offer today.

"Substantial progress has been made and I feel confident of early settlement," said Walter L. Fisher, the city's representative in the conferences.

"A strike among the street car employees seems almost inevitable now," said M. B. Herley, city traction expert.

filiated Financial Institutions.

In some of the most conspicuous bank failures in the past the fact has been disclosed that the insolvency of the component members of the allied institutions were long concealed by shifting the assets between the institutions to meet the exigencies of an examination of each and the insolvent condition was not discovered until joint examination by national and state examiners was made.

### AGAINST FEDERAL OWNERSHIP

Report on Panama Railroad and Steam-  
ship Commerce is Made.

Baltimore, Aug. 12.—Bernard N. Baker of this city, banker and founder of the Atlantic transport steamship lines, now a part of the International Mercantile Marine company, who has at the instance of President Taft been investigating the matter of freight rates over the Panama railroad, owned by the United States government, has prepared his final report to the president bearing on the alleged discriminations of the Panama railroad and Panama Steamship company against American commerce crossing the isthmus.

In this report Mr. Baker recommends that the government by the aid of mail service contracts encourage the establishment of an independent line or lines of steamers on each coast which shall connect with the Panama railroad. The plan proposed is comprehensive and does not, as has been urged, contemplate that the government shall enter the steamship business.

The ship at the time that the message flashed her "C. D. Q." was twenty-one miles southwest of Diamond Shoals lightship. The wind was strong from the northeast and driving the ship on shore.
