

RICHARDS NOT A CANDIDATE.

Huron Man Has No Desire to Hold Public Office.

Huron, S. D., Aug. 26.—Some dispatches sent out from Huron have intimated that R. O. Richards, of this city, will be a candidate for governor of South Dakota at the next primary election. On being asked concerning the matter Mr. Richards said: "I am quite certain that no action or word of mine could have been responsible for the report that I may be a candidate for the republican nomination for governor of this state. What my friends may have said or done in that regard is unknown to me. "I will take this occasion to say, however, that I have no desire to hold a public office. I have spent a few years of time and considerable money in furthering a few needed reforms, and as the work is yet incomplete I stand ready to aid in putting upon the statute books certain reform measures which have been temporarily side tracked and disfigured. "Public servants will be found who will be technically true to principles and platform pledges, and who can be relied upon to respect the trust reposed in them by the people."

For Tripp County Lands.

Mitchell, S. D., Aug. 26.—T. C. Burns register of the United States land office, located at Gregory, in Tripp county, while spending his vacation in this city gave out the information concerning the disposition of the rest of the land which has not been filed upon in the Tripp county drawing, which was held last spring. At that time 4,000 names were called, which left 2,000 to be called later in the season. Mr. Burns says that the general land office has named September 8 as the date when the balance of the names are to be called for filing purposes. One hundred names will be called each day for the following twenty days, Sundays excepted, which will give the filers a chance to make their drawings at once. This land will be charged for at the rate of \$4.50 per acre.

At the conclusion of the calling of the names the land that is left will be thrown open to general filing on October 1, but it will be at a less fee than those who drew numbers. The government has fixed the rate for filing after October 1 at \$2.50 per acre. Out of the 4,000 names that were called in the spring there are many claims which have not been filed upon, and as soon as the time expires there will be a general rush for those lands.

Beginning on September 3, Register Burns states, the government will resume its public auction of lots on the four townships owned by the government.

Mr. Burns added that railroad building in Tripp county looks very good and with the five different lines of survey projected by the Northwestern company he thinks that something will be accomplished there in the course of the coming year.

Trigamist is now in Jail.

O'Neill, Neb., Aug. 21.—Sheriff Hall and Deputy Harding were out at Amelia and placed under arrest a man wanted in California on a charge of bigamy. He was brought to town and placed in jail and the sheriff a. Santa Cruz, Calif., H. V. Trafton, notified, he wiring back that he would leave at once for here to take charge of the prisoner.

The man has several assumed names, and had been going by the name of Curtis Scott since he came to this county about a month ago. His right name is said to be Arthur Boazley. He has, or is supposed to have, three wives, marrying once under the name of Henry Price.

He was first married in Maine over twenty years ago and doesn't know whether his wife whom he left there is living now or not. He went to California and took another woman who now lives at Santa Cruz. Later he left her and married a young girl in a nearby town on four days' acquaintance. He admits to Sheriff Hall his three marriages and says the last girl he married knew of his second marriage before they were married, and that he had good reasons to leave wife No. 2 who has since secured an annulment of the marriage, after learning of wife No. 1 in Maine. Wife No. 3 and her mother are now prosecuting the bigamous charge.

Recognized From Description.

His locating and arrest here were accidental. Mr. Hall was over at Amelia a few weeks ago and was posting a bill for the race meeting at O'Neill when he first saw Scott. The sheriff had received a card from the California sheriff a few days previous giving a description of the man wanted. Mr. Hall says while he was taking the bill to the side of a building a man walked up behind him. He turned around and recognized at once that the man answered the description of the party wanted at Santa Cruz. He did not arrest him at the time, however, but sent for further information at Santa Cruz, after obtaining which he was satisfied that Scott was the man wanted.

Scott was working in the hay field for Charles Gilman when arrested. The sheriff had been informed by the California officer that Scott carried a gun and would resist arrest. When they got to the Gilman place they went to the house and searched Scott's grip to ascertain if it contained a gun. They were informed by Mrs. Gilman that Scott had a small grip with him in the field. They drove to the hay field and Mr. Hall decided to secure the grip first, which they found near a hay stack. Scott was running a mower and Sheriff Hall got Mr. Gilman to introduce them.

A Sensational Arrest.

The introduction was the means of a slightly sensational arrest. As the sheriff and Scott shook hands the sheriff grasped his other arm in his left hand while Deputy Harding put on the hand cuffs. Scott was taken so by surprise he had not the forethought to resist and submitted gracefully to the arrest. He will be kept here until the California sheriff arrives with proper requisition.

Scott, or Boazley, is 42 years of age, well built and appears to be a man of intelligence.

Cudahy Denies Engagement Off.

Omaha, Aug. 21.—"There is no broken engagement and that is the straight of it," said Edward I. Cudahy, son of Michael Cudahy, the millionaire packer of Chicago. Young Cudahy, who lives in Omaha and has a position in the packing house of his uncle, Edward A. Cudahy, was to have married, on August 21, Miss Nora Brewer, a beautiful San Francisco belle. The details of the affair were all arranged, but the invitations were recalled and no new date has been set for the ceremony.

"Talk is All Bosh."

"There has been a good deal said about my engagement to Miss Brewer and a report has been widely circulated that it has been broken off. This talk is all bosh. Miss Brewer and myself are the very best kind of friends. There is not a particle of friction between us or between our families.

"I was sick in San Francisco. I had an attack of the grip, brought on by the beastly climate, and right now I am far from being a well man. "The reports that appeared in the papers caused Miss Brewer and myself much annoyance. It was an affair of our own and nothing that concerned the public. You may say for me that there is not a word of truth in any of the stories. When I go to California again I shall give due and ample notice, as it is apparent that the public has a deep interest in my movements."

"I have just returned from San Francisco and am accompanied by my sister, Miss Mary," said Cudahy. "I will remain in Omaha several days, and then we will go on to Mackinac, where the folks are spending the summer."

"Indefinitely Postponed."

A number of Omaha people had made all arrangements to attend the wedding and the postponement came as something of a shock, the only information being contained in a telegram to an intimate friend of the Cudahy family, simply saying: "Wedding indefinitely postponed. Notify friends."

Miss Brewer is described as a beautiful girl and highly accomplished. She belongs to one of the first families on the coast and has close to a million in her own right.

Beer Vault Caves In.

Neigh, Neb., Aug. 21.—Special to The News: T. A. Yearshaw of this city had a narrow escape from furnishing liquid refreshments to those so inclined on account of the partial caving in of his vault where beer is stored. He stated that nearly seventy-five cases were piled and about twenty-five barrels were stored. The estimated damage to the proprietor is in the neighborhood of \$25. However, a force of men were immediately secured and enough of the "quencher" was secured to tide over the situation until next morning.

Try to Steal an Automobile.

Pilger, Neb., Aug. 21.—Special to The News: It has just come to light that some one entered the garage of Claude Cooper during the night and attempted to steal his automobile. The thieves, in their desperate efforts to start the machine, broke the crank shaft. It is evident that the parties were not local characters, for the reason that they did not touch any of the secret devices with which Mr. Cooper starts the machine.

When unable to take the machine away, they took the large brass lamps and generator off and carried them away.

Number Worth a Fortune.

Miller, S. D., Aug. 21.—This town's wonderful luck in drawing four good numbers in the recent Idaho and Washington land lotteries will make at least one of the fortunate ones rich who is now poor. Fay Snoddy, a young school teacher, got No. 3 in the Spokane drawing, estimated to be worth \$25,000 to \$50,000. The young man is a hustler and is looking for a school to earn money with which to file on the land next spring. He is now working on an ice wagon here.

Walter Cooke, who drew 168, has a filing valued at \$10,000. He is a young man just married, and it will give him a good start in life.

Another winner is Frank Myers, an old veteran, who fought Indians in this region in the early '60s.

Dr. Wallis, who drew a prize, is well known as a physician.

There were only ten filings from here and for four of them to win valuable filings is considered remarkable. The total number registered was about 350,000.

Caught in His Own Trap.

Wayne Democrat: A farmer from north of Randolph named Maybe shot his left hand off Tuesday evening in a most peculiar manner and, accompanied by Dr. Kerley of Randolph, was taken to a hospital in Sioux City yesterday morning for an operation. Maybe told the Democrat that he set a trap, with a shotgun, for the purpose of getting a neighbor's boy, whom he suspected of poisoning his stock. He got the string on the trigger a little too tight and the gun went off while arranging it, doing Maybe no injury. He then fixed the thing just right and went around the barn to see where the shot had struck the building. Here is where Maybe went wrong, for he at once had a bad slip in his think apparatus, forgot all about the trap in going back and ran right into
