Dredging in Cuming County. West Point, Neb., Nov. 1.—Special to The News: The big dredging machine has now commenced work on the drainage ditch in the eastern portion of Cuming county. The machine will dig 300 feet of ditch daily. It is placed upon a boat which runs down the ditch as fast as it is a floating house in which the workmen live. Two crews are employed, each working two hours. They will work night and day until the ground is frozen one foot deep, and resume operations in the spring. The work is of great magnitude.

Word has just been received in this city of the death of Quakerstown, Pa., of Wiltoughry R. Artman, a pioneer resident of West Point. The deceased arrived in Cuming county in the year 1858, among the first settlers from Pennsylvania. He was prominently identified with the early history of West Point and Cuming county, and together with the late John D. Nelsh selected the town site and surveyed and laid out the city of West Point. He was a man of intense energy and ambition and great force of character. He is survived by a brother living in Philadelphia. He was over 90 years of age at the time of his death.

Aberdeen, S. D., Nov. 1.—Turning away tearfully and broken hearted from the final day of the drawing of names of winners in the Cheyenne River and Standing Rock reservations, Mrs. Sylvia R. Gillard of Sandusky, O., a widow aged 60 years, glanced idly at the printed list of winners up on the wall, hope gone, she faced the bitterest disappointment of her life, but decided to take just one more look, for all day long and day after day she had spent hours at the drawing in the vain hope that she would hear her name.

Slowly turning the pages she was thrilled to see her own name opposite 4328 as the winner of that choice of claim. "Thank God," she screamed, "my prayer has been answered." With tears streaming down her face she rushed back to the platform to learn if it were really true. Shaking hands with Judge Witten and all his deputies she sang in joy. She had worked nights in a hotel to pay her way to Aberdeen. She sat up days to hear her name, but when it was called she had dozed asleep. In further answer to the attack of Louis Hill, president of the Great Northern railway, Judge Witten has made preliminary preparations to furnish Mr. Hill with the names of all persons who registered at Kalispell if the Great Northern wants to refund their money for fares to that place.

Charles Killen, one of the two Norfolk men to draw a farm, is a son of Mr. and Mrs. William Killen.

Republicans, Beware! Lincoln, Oct. 30.—It is learned here this afternoon that the democratic state committee at Columbus is sending out a big circular signed "The Progressive Republican League," asking republicans to vote against Fawcett and Barnes for supreme judge. The state will be flooded with these circulars by tomorrow. The scheme is a fake pure and simple, a democratic movement without the countenance or aid of a single republican, and is considered the lowest kind of politics. Republicans are warned to be on their guard against this character of campaigning.

The News Contest. Battle Creek Enterprise: Miss Bertha Bennett of Elgin, won the grand prize, the automobile, in The Norfolk News' voting contest, having nearly twice as many votes as the next highest and over three times as many as our Battle Creek contestants. With the exception of a scholarship, which went to Miss Hoffman, Battle Creek didn't get a look-in, though we did have the pleasure of seeing the automobile go through town on its way to Elgin.

Lynch Journal: Mrs. W. E. Pickering won a watch in The Norfolk News contest which closed Saturday evening. She had almost 3,000,000 votes. The winner of the auto came in with over 11,000,000 votes. The piano in this district went to Miss Agnes Bergstrom of Anoka, Mrs. Pickering made a nice open campaign and spent no money for extra subscriptions. However, everyone as far as we know are satisfied with the results. The News now certainly has a subscription list of far greater numbers than when the contest began.

Thiden Citizen: In The Norfolk News contest the first prize, consisting of a 30-horse power Overland automobile, was won by Miss Bertha

Bennett of Elgin. Miss Carrie Botsford of this place, was sixth on the list and was awarded a scholarship in the Wayne Normal school. The machine which Miss Bennett won was taken through Tilden on Tuesday by Logan McBride, accompanied by several other Elgin business men.

Norfolk Trims Wisner Team.

Norfolk high school team Saturday afternoon, defeated the Wisner team on the gridiron here, in a fast game of football by the score of 22 to 0. Norfolk made their twenty-two points in the first half by touch-downs and goal kicks. In the second half Norfolk again almost scored a touch-down. Rice fumbled the ball over the goal line, when Bruce Emeley got the ball for a touch-back. After the first kickoff Norfolk, being held for downs, rushed the ball over easily, Kelleher and Morrison making a couple of fine forward passes. Norfolk's goal never was in danger, Wisner never getting the ball nearer than forty feet. Wisner team was much heavier than the Norfolk players but they played a stubborn game holding Norfolk down without a score in the last half.

Gates Academy Wins.

Neligh, Neb., Nov. 1.—Special to The News: Saturday afternoon was a victory for Neligh in football circles. The military academy of Lincoln were here and clashed at Riverside park with the fast Gates academy eleven of this city. The game was 25-minute halves and resulted in favor of Gates by a score of 28 to 5. The visitors were outclassed at all points of the game, and it was plainly visible that the home boys had the best of the argument from the first blast of the whistle.

There are various opinions as to the right of the Lincolnetes in claiming the five points with which they are accredited. No serious objection was raised and the score was allowed to stand. The largest crowd of the season was at the park to witness the contest. Over \$44 was taken in at the gate. The balance of the expense was made up by the players of the home eleven.

After the game had been finished in this city, word came from Atkinson, where the Neligh high school tried conclusions in the afternoon for supremacy. The result was a score of 22 to 0 in favor of the boys from here.

CHICAGOS NICELY TROUNCED.

Minnesota's Gophers Prove to be a Bit the Best. Minneapolis, Nov. 1.—Minnesota defeated Chicago before 20,000 persons here by a score of 29 to 6. The game gives Minnesota an excellent chance to win the middle western championship. Minnesota scored a touchdown in each half, and converted the first one into a goal. Captain McGovern of Minnesota kicked three goals from the field in the first half, which ended with the score of 15 to 0 for Minnesota. Towards the end of the second half, with the ball on Minnesota's fifty-yard line, Page made the best forward pass of the game to Sauer, who planted the ball on Minnesota's three-yard line. Crawley was kicked over for a touch-down and Page kicked goal.

McGovern of Minnesota broke his collarbone just before the end of the second half and was replaced by Devenu.

Gotch and Roller Matched.

Chicago, Nov. 1.—Frank Gotch, champion wrestler of the world, and Dr. E. F. Roller of Seattle, were matched to wrestle in the arena of the Missouri athletic club of Kansas City on the night of November 15. The bout will be to a finish, best two in three falls, at catch-as-catch-can.

FIGHT ON FOOTBALL FIELD.

Carlisle Player Attacks the Umpire of Game. Philadelphia, Pa., Nov. 1.—The University of Pennsylvania administered a severe defeat to the Indians in one of the most bitterly fought games ever played on Franklin field, the score being 29 to 6. For the first time in the history of that famous athletic field an official was physically attacked by a player, and a policeman was called upon to escort the offending man and

the coach of the Carlisle team behind the lines. The trouble occurred in the middle of the first half. Waseuka was ordered out of the game on the ground that he had roughly tackled a Pennsylvania man who was out of bounds. Enraged at Umpire Edwards' action, Waseuka attacked the official and struck him a hard blow on the jaw. Other players quickly stopped further hostilities.

Winnetoon.

The place known as the John Peter Johnson home was sold to George Baer for \$1,410.50. Mrs. John Swartz from Oklahoma is here visiting friends and relatives. George Baer recently sold his farm near Winnetoon to Fred W. Schneider. H. W. Crandall returned home from Crofton, Neb., Saturday.

The Royal Neighbor ladies are planning on giving a big dinner and supper in the basement of the M. W. A. hall election day, Tuesday, November 2.

Frank Abbenhaus, formerly a resident of Knox county but now living in South Dakota, expects to move onto his father's farm near Bloomfield in the near future. Mr. Abbenhaus is glad to get back to the old home.

CANAL HALF EXCAVATED.

Halfway Mark Passed—Figures of the Work in September. The Canal Record: The grand total of Canal excavation down to the end of September was 87,172,058 cubic yards, which was only 322,473 cubic yards short of one-half of the total excavation to be made for the completion of the Canal. As the average daily excavation is over one hundred thousand cubic yards, the output of the first week in October was ample to put the record safely past the halfway mark.

The grand total of Canal excavation in September was 2,836,385 cubic yards, which is 81,207 cubic yards more than the total for August, and 1,043,952 cubic yards less than the highest record, that of March, 1909. Of the 2,836,385 cubic yards, 2,771,245 were charged to "work" excavation and 65,140 to "plant." The dry excavation amounted to 1,713,233 cubic yards, and was principally by steam shovels. The dredges removed 1,123,152 cubic yards, in addition to the amount pumped into Gatun Dam by the three suction dredges on that work.

In the construction of the locks, 13,733 cubic yards of concrete were laid; 3,711 cubic yards were laid in the spillway at Gatun Dam, and 4,023 cubic yards were laid in municipal work, a total of 21,467 cubic yards of concrete. The fill placed in dams amounted to 451,783 cubic yards. There were 25 working days during the month, one less than in August. The mean rainfall in the territory in which excavation was in progress was 10.07 inches, as compared with 9.28 inches during August.

In the Atlantic Division the work of constructing Gatun Locks was continued, and 11,364 cubic yards of concrete were laid. In Gatun Dam spillway 3,741 cubic yards of concrete were laid, and the hydraulic and dry fill added to the Dam amounted to 412,152 cubic yards. The total excavation was 549,114 cubic yards, 9,555 cubic yards more than in August. Of this total, 113,827 cubic yards were dry excavation, principally by steam shovels, and 426,287 cubic yards were removed by dredges.

The total excavation in the Central Division was 1,471,796 cubic yards, practically all of which was by steam shovels. This was 66,882 cubic yards more than were removed in August. Of this total, 1,235,183 cubic yards were taken from Culebra Cut, 65, 841 cubic yards more than were excavated in the Cut during August.

In the Pacific Division the work of placing concrete in the locks at Pedro Miguel was begun on the first of the month with a temporary plant. During the month 2,369 cubic yards of concrete were laid. The total excavation in this division was 824,547 cubic yards, of which 696,865 cubic yards were removed by dredging, and the remainder was dry excavation. The fill added to the dams at Pedro Miguel and Miraflores amounted to 39,631 cubic yards.

Norfolk Gets Y. M. C. A.

Norfolk gets a Y. M. C. A. building. A fund of \$26,022.16 has been raised. Church bells and the fire whistle at 10 o'clock Saturday night announced the success of the Y. M. C. A. organization here in raising over \$26,000 for the purpose of building a Y. M. C. A. building in the city of Norfolk. Many mistook the bells and whistle as a fire alarm and, congregating at the fire station expressed their satisfaction that the sum necessary was raised. The Y. M. C. A. headquarters were filled with students and pledge solicitors Saturday evening, when the meeting was called to order by G. M. Nicholson, who represents State Secretary Bailey here.

Mr. Nicholson announced that the total amount collected up till Thursday night was \$23,966.26. The reports from the captains of teams were then heard as follows:

C. C. Gow, \$230; Huntington, \$445; Custer, \$165; Lederer, \$142; High School, \$361.40; Sprecher, \$304.50; Holden, \$133, and miscellaneous, \$75, making a total of \$1,855.90, and with the former total making \$25,822.16. Disappointment spread over the faces of many, who were in great hopes of the total reaching the \$26,000 mark, when a telegram was brought by a messenger boy, from A. J. Durland of Seattle, who asked to be put down for \$200. This news was received with much cheering and brought the total to \$26,022.16. The signal then was immediately given to those waiting at the churches to ring the bells. Secretary Bailey, who called over long distance from York at this moment, was given a rousing three cheers by the telephone. Many more pledges are out and it is believed the final total will reach close to \$27,000. Many of the pledges were made Saturday over long distance telephone from nearby towns.

A vote of thanks was given Superintendent Hunter, teachers, girls and the high school team, without whose work it was thought this large subscription would have been impossible. A vote of thanks was given to Secretary Bailey, Mr. Nicholson and the commercial traveling men, who have been secretly working for the Y. M. C. A., and who have turned many pledges over to the regular teams. Dr. Holden was also given a vote of thanks. The railroad men were given a standing vote of appreciation for their help in the campaign. Chairman Sprecher of the executive committee of the Y. M. C. A. announced that there would be a general meeting at 8 o'clock Monday evening at the city hall, where it is urged all donors to the Y. M. C. A. fund, and all interested, be present. The purpose of this general meeting will be to elect a building committee and location of the building will also be discussed at this meeting. Rev. Edwin Booth closed the meeting with a prayer of thanks for the good work done in this campaign.

A feature of the campaign was the work of Mrs. Arbie Mendenhall, a teacher at the high school, who agreed to pay twenty per cent of what her pupils pledged. About \$120 was collected by the pupils, requiring Mrs. Mendenhall to pay \$22.90. Any persons inclined to give will find that even further donations to the Y. M. C. A. fund will be thankfully received.

Pasewalk is trying to scrape from his automobile the odor of a stank, which he ran over Sunday. Although he did not notice the extremely bad odor while the car was in motion, Mr. Pasewalk says the car is the limit while at a standstill. While working a corn husking machine at his farm at Hadar Saturday evening, John Krueger in some manner allowed his hand to become entangled in the rollers of the machine. The entire hand was so mangled that it was necessary to amputate four of the fingers. The man suffered intense pain. The automatic telephone company has just issued an attractive new directory. Among other features is an innovation in the printing of the railroad time tables in the book. The directory shows 130 new names added since the last one was issued.

W. P. Logan was busy nearly all day Sunday answering the telephone, owing to the fact that a telephone number had been mixed up in a News want ad. Peterson was at Norfolk Saturday, and took an examination for a civil service job in the census department at Washington, D. C. There is no man on earth we would rather see get a position of that kind than Mr. Peterson. He will certainly make good if he succeeds in getting an appointment at the nation's capital. Halloween was celebrated in Norfolk Saturday night in many ways by the youngsters, who have made it a point to paint artistic signs on all the windows of business houses along Norfolk avenue, as descriptions of Norfolk avenue to the ground, gates, gate posts, display signs, billboards and vehicles of all descriptions are among the missing articles. One buggy was found hanging across a large billboard and another was placed on the roof of a business house in the downtown district.
