

THE NORFOLK WEEKLY NEWS-JOURNAL.

NORFOLK, NEBRASKA, FRIDAY, FEBRUARY 11, 1910.

DR. HYDE HELD FOR MURDER

WARRANT ISSUED FOR HIM IN SWOPE MYSTERY CASE.

HE ANTICIPATED HIS ARREST

His Lawyer Told the County Prosecutor That Hyde Would Be Ready to Accept Service—Special Grand Jury Called for Investigation.

Kansas City, Feb. 10.—John G. Paxton, counsellor for the Swope family, late today filed an information at the office of the county prosecutor formally charging Dr. Bennett Clarke Hyde with murder in the first degree, holding him responsible for the death of Colonel Thomas H. Swope.

Kansas City, Feb. 10.—A climax in the Swope mystery came late this afternoon when Virgil Conkling, county prosecutor, announced that he would issue a warrant for Dr. Z. C. Hyde and that he would swear the warrant out during the afternoon.

Anticipating the warrant, Dr. Hyde's attorneys had told Mr. Conkling their client was ready and willing to accept service and would be available whenever he was wanted.

The information filed by Paxton became an official record in the prosecutor's office shortly after 2 o'clock.

YOU MIGHT AS WELL GET IN THE BAND WAGON.

Norfolk is going to pave! You might as well make up your mind to that. Paving will add several dollars in value to every foot of property affected, for each dollar it costs. But outside of that feature, Norfolk is not going to feel very kindly towards those who attempt to obstruct the city's progress and to prevent this very badly needed public improvement. The town is going to pave—and you might as well be classed among the lives ones.

Up to 2:30 o'clock no warrant had been issued for Hyde's arrest.

Judge Ralph S. Latschaw, of the criminal court, at noon today instructed the county marshal to empanel a special grand jury to convene Saturday morning at 10:30 o'clock to investigate the death of Colonel Swope. The grand jury investigation will go into every phase of the Swope mystery. The inquiry will not be confined to the death of Colonel Swope, but to the death of Chrisman Swope and the epidemic of illness in the Swope household will be the subject of an exhaustive investigation.

Hyde Dismisses Libel Suit. To thwart the efforts of the opposing attorneys to secure the deposition of Dr. B. C. Hyde, upon the appeal of his attorneys for an order of dismissal today, the circuit court at Independence, Mo., dismissed the suit brought by Dr. Hyde demanding \$600,000 from John G. Paxton and other defendants for alleged libel.

Dr. Hyde had been subpoenaed to give his deposition in this suit today. This afternoon Hyde and his attorneys suddenly determined upon a trip to Independence. They declined to make known the purpose of their going. Hyde was accompanied by Frank P. Walsh and John M. Cleary.

A NEBRASKA BANK DYNAMITED

\$2,700 in Currency Secured From Bank of Memphis.

Memphis, Neb., Feb. 10.—Robbers early this morning looted the bank of Memphis and secured \$2,700 in currency. The safe was blown, the cash secured and the bandits escaped without arousing the inhabitants of the town.

The sum of \$50 was found on a bridge two miles from town. The bank has a capital stock of \$5,000.

Union Leaders Fined \$500 Each.

Chicago, Feb. 10.—Martin B. Madden, former president of the building trades council; M. J. Boyle, an official of the electrical workers union, and Fred Pouchot, former business agent of the Metal Workers union, were sentenced to pay a fine of \$500 each today, following their convictions on May 29 of conspiracy to do an illegal act.

\$40,000 SENT TO PARIS

New York Chamber of Commerce Presents That Additional Fund.

Paris, Feb. 10.—The Seine had risen 7½ inches in the twenty-four hours ending at noon today. A further rise of 10 inches by noon tomorrow is predicted. At a cabinet meeting today Premier Briand expressed the opinion that there was no cause for uneasiness.

Ambassador Bacon today sent to the foreign office another check for \$40,000, representing the relief fund collected by the chamber of commerce of New York.

BLEACHED FLOUR TRIAL ON

If Government Wins Case, White Flour Will Be Thing of Past.

New Orleans, Feb. 10.—Involving the facts of color of flour the case of the United States against the Aetna Mills and Elevator company of Wellington, Kan., was resumed in the United

States district court here today. The proceedings marked the opening of the trial, which will determine for the first time the right of millers to employ processes for the bleaching of flour.

Officials of the pure food department claim a desirable character of whiteness in flour has been attained in many instances by an unwholesome chemical treatment.

Many millers contend that certain bleaching processes are in no way deleterious to the health of the consumers.

If the government should win the case, it is pointed out, white flour will become a thing of the past and give way to a product of yellow or golden color.

ONE REASON FOR HIGH MEAT

LIVE STOCK RECEIPTS ARE FAR BELOW NORMAL IN 1909.

BIG DECREASE AT ALL MARKETS

The Department of Commerce and Labor Makes a Report Showing That the Farmer Did Not Raise and Ship as Much Live Stock as Usual.

Washington, Feb. 10.—One cause of the high price of meat, according to a report of the department of commerce and labor, issued today, is the fact that

the live stock receipts for the year 1909 at seven leading interior markets of the United States were the lowest since 1904. The total live stock receipts for the year in these markets aggregated 39,545,725 head. Particularly did receipts of hogs for the last year fall off. For each of the four years previous to 1909 the hog receipts had been in excess of nineteen million head, totalling more than 22,000,000 in 1908, falling to 18,834,641 last year.

Cattle receipts in these markets for 1909, while comparing favorably with those of the previous year, fell below the totals for the three years before 1908.

Sheep fell below those from 1905 to 1907, but compared favorably with 1908.

Receipts of hogs at the Chicago market for 1909 show a decrease of 1,627,074, as compared with the year before, or a decline of 19 per cent. Receipts at Kansas City decreased 17 per cent, at Omaha 12 per cent, at St. Joseph, Mo., 28 per cent, while the decline at St. Louis was only 4 per cent.

MAY CINCH COLD STORAGES

Any Combination to Raise Prices Declared to be a Conspiracy.

New York, Feb. 10.—Spurred on by Judge Swazey's charge that a combination to store foodstuffs for the purpose of advancing the price is an overt act, the Hudson county grand jury today continued its investigation of the big cold storage warehouses of Jersey City.

In view of the court's decision that any combination to raise prices is conspiracy, Prosecutor Garven counts on securing indictments that he believes will check the system whereby high prices are maintained in season and out.

Agitation in New York city against high meat prices has simmered down until the only measure now in view locally is the cold storage regulation ordinance before the board of aldermen. No action on this measure is probable for at least a week.

Meat prices remain about stationary.

SELL GOAT'S FLESH AS LAMB

Provision Dealers in New York Keep Poultry Many Months.

New York, Feb. 10.—Provision dealers denied that turkeys are kept in storage for two years and put on the market when they are mouldy from age, but admitted that poultry is sometimes held from six to nine months, and that goat's flesh has been sold for lamb. This testimony was adduced at a hearing before the committee of the board of aldermen, which is considering an ordinance providing that all foods held in cold storage must be tagged with the date on which they were put into storage and the date when they came out.

For Secretary of State.

Lincoln, Feb. 10.—C. W. Pool, speaker of the house of representatives, probably will be a candidate for the democratic nomination for secretary of state. Mr. Pool has been in Lincoln several times lately conferring with politicians and it is probable his announcement will be made before long. He was preferred for speaker of the house by Mr. Bryan and his campaign for that position to a certain extent was engineered by T. S. Allen, Mr. Bryan's brother-in-law.

MONEY GETTING FREE AND EASY

BANK OF ENGLAND REDUCES DISCOUNT RATE TO 3 PER CENT.

FIND MUCH COIN UNPLACEABLE

In View of the Rapid Fall of Discount Rates in the Open Market, and the Plentiful Supply of Money, Rates Ease Up.

London, Feb. 10.—The directors of the Bank of England, at their weekly meeting today, reduced the minimum rate of discount from 3½ to 3 per cent. This action was taken in view of the rapid fall in open market of discount rates since the beginning of the week and the plentiful supply of money, a great deal of which is unplaceable.

HAS SOUTH POLE BEEN FOUND?

French Antarctic Steamer is Passed in Strait of Magellan.

Buenos Ayres, Feb. 10.—The captain of the steamer Sud, which arrived at Punta Arenas today, reports that he spoke to the antarctic exploring steamer Pourquoi Pas, anchored at Port Gaitan in the Strait of Magellan. Dr. J. M. Charcot refused any information concerning the results of the French south polar expedition.

CRABTREE WON'T RESIGN

State Board Will Have to Force Him to Step Out.

Peru, Neb., Feb. 10.—Eight hundred students of the state normal school here went on a two days' strike as a mark of their resentment over the action taken by the state board of education in requesting the resignation of President J. W. Crabtree. Not a student attended classes and the same program will be followed today. But on Friday it is said work will be resumed as usual. The students hoisted the flag over the main normal building at half mast, and there it will remain, they say, unless the authorities change. There was no other demonstration and no effort on the part of the faculty to discipline the students. President Crabtree, it was announced, will not resign voluntarily.

OMAHA PACKERS INVOLVED

Government is Said to Have Made Important Discoveries.

Chicago, Feb. 10.—It was reported that agents of the government had un-

WOULD BE BLACK EYE TO NORFOLK.

If the paving of Norfolk avenue were to fail at this time, through the refusal of property owners to sign the petition, those who refused to sign would be held responsible for the blackest eye ever given the city. People throughout northern Nebraska and southern South Dakota read The News, and they have been reading for more than two years of Norfolk's plans to pave. Now that the time has come to get down to business, a failure to make good would show up Norfolk in the most shameful, shiftless light and people who have had faith in the city would relegate it to the class of the country village.

earthed important information at Sioux City, Omaha, Kansas City and Denver, and that as a result witnesses from those cities will be summoned to appear before the grand jury. Members of the jury, it is said, desired to know under what arrangements the stock yards in those cities are controlled.

Omaha, Feb. 10.—It is known that the government has had agents at work in Omaha during the last ten days securing information concerning the system employed by the packing houses in disposing of their products, and who made special efforts to secure data on the handling of dairy products. They have worked very quietly, however, and have been able to avoid revealing their identity. No summons has been issued for any packing house or stock yards official in this city, but a representative of one packing firm stated that it would not surprise him to hear of such action being taken in the near future.

Boiler Explosion Kills Six.

Bay City, Mich., Feb. 10.—While a score of workmen were warming themselves in the boiler room of Prineing's saw mill at Crump, waiting for the whistle to start the day's work, the boiler exploded, instantly killing six of the men and injuring all the others. The mill was wrecked, debris being scattered in every direction.

Carelessness Causes Fire.

Lincoln, Feb. 10.—According to the report of the fire warden, A. V. Johnson, the loss from incendiary fires has been during the last year about \$150,000 while a great majority of the fires have been caused by carelessness. Mr. Johnson urges school teachers to instruct their pupils to be careful in the use of matches and the danger to property by the careless use of fire and matches.

FARM HOUSE DESTROYED

Dwelling on Roberts Place Near Meadow Grove, Owned in Norfolk. Meadow Grove, Neb., Feb. 10.—Special to The News: The farm house oc-

cupied by E. B. Fox, located two and a half miles northeast of Meadow Grove, was totally destroyed by fire about 4 o'clock yesterday afternoon. Mr. Fox lost practically all his household goods. The place is known as the Roberts farm and is owned by Eli Cook of Norfolk.

The fire originated from a defective flue and was discovered by about a dozen neighbors who were shoveling snow and ice off of the grade about a quarter of a mile south of the house. On arriving they were unable to save anything. The household goods were insured.

KING'S PULSE IS 52

His Temperature 99.1—Passes a Fairly Good Night.

Stockholm, Feb. 10.—The physicians in attendance upon King Gustave, who was operated on for appendicitis on Monday night, issued the following bulletin this morning:

"The king passed a fairly good night, and slept five hours without the use of an opiate. His majesty is able this morning to take a little more nourishment, and no disquieting symptoms have appeared. The king's temperature is 99.1 and pulse 52."

The queen arrived in this city this morning from Karlsruhe.

VALENTINE INDIAN IS HELD

Suestra, Enroute From Washington to Valentine, Neb., is Drunk.

Pittsburg, Feb. 10.—Real Indian war whoops in the vicinity of union station were emitted by a real red man who was later recorded on the police blotter as "John Indian," because he was unable to comprehend the power of the pale skin. He proved to be Suestra, a Sioux of the Wounded Knee reservation and friend of Sitting Bull, Spotted Horse and other big chiefs.

Captain J. J. Ford of the Fourth United States cavalry, the local recruiting officer, who fought in the Sioux campaign of 1891, was called upon as an interpreter, and he learned that Suestra, who had been on a visit to the "Great White Father," was on his way back to Valentine, Neb. He had strayed from the train in search of fire water and while in a saloon the train pulled out without him. Suestra was overjoyed at Captain Ford's ability to talk to him and told tales of Sitting Bull while awaiting disposition of his case. Captain Ford said the Indian bureau at Washington would arrange for him to resume his journey and advised that he held pending instructions.

JOYCE'S FATE WITH JURY

Attorneys in Case Finish Arguments During the Forenoon.

Pierce, Neb., Feb. 10.—Special to The News: The fate of Harry Joyce,

WESTERN UNION AT DALLAS

Telegraph Company Will Install Independent Office There.

Dallas is to have an independent Western Union telegraph office about March 1. J. C. Nelson, superintendent of that company, has been at Dallas for a number of days and he has arranged to open such an office in Dallas at that time. Since the Tripp county rush the Western Union has had some difficulty in transmitting messages from Dallas, owing to the crowded station telegraph office.

Railroad operators handling Western Union messages are paid a percentage by the company, which percentage, it is said, has reached so large an amount at Dallas that the company can now well afford to employ an operator to handle the Western Union messages alone. The railroad operator who handles the commercial business at a depot is usually the manager of the Western Union's business and, in connection with this, he handles the railroad business as well. A few days ago Superintendent McFarland of the telegraph department of the North-western accompanied Superintendent Nelson to Dallas and it is believed the new arrangements were made then.

Funeral of Mrs. Anderson.

Spencer, Neb., Feb. 10.—Special to The News: The funeral of Mrs. Chris Anderson, who died suddenly yesterday while visiting here, will be held at Bristow Friday afternoon at 2 o'clock. The services will be held in the Methodist church at that place and Rev. A. L. Kellogg of Spencer will have charge. The court house officials from Butte will attend in a body, as well as members of various lodges of which Mr. Anderson is a member.

Mr. C. M. Kull Very Ill. Spencer, Neb., Feb. 10.—Special to The News: Mrs. C. M. Kull is dangerously ill with typhoid fever.

FOR EMBASSIES OF UNCLE SAM

HOUSE COMMITTEE TO FAVORABLY REPORT LOWDEN BILL.

HOMES FOR OUR AMBASSADORS

The Bill, Which Now Promises to Become a Law, Calls for Expenditure of Not to Exceed \$500,000 Annually for Creditable Dwellings.

Washington, Feb. 10.—The house committee on foreign affairs today decided to favorably report the Lowden bill providing for the expenditure of a sum not exceeding \$500,000 for the erection of American embassies abroad.

GEBO COAL FRAUD CASE UP

Sixty-four Defendants in the Suit Appear at Lander for Trial.

Lander, Wyo., Feb. 10.—Sixty-four defendants in alleged coal land frauds against the government appeared before the United States land office in this city in cases which have been brought by the government for the cancellation of their titles to coal lands which are said to be the most valuable in the state.

The cases involve 9,500 acres of land lying in the mineral district north of Lander and have been appraised by government experts at a value of nearly \$1,500,000. The government alleges that these lands were filed upon by "dummy" entrymen for the benefit of the Owl Creek Coal company and the Northwestern Coal company which are controlled largely by New York capitalists. The two companies are reported to be associated with the Chicago, Burlington & Quincy railroad.

The cases are commonly known as the "Gebo coal land fraud cases," as Samuel W. Gebo, George W. Dally, Rufus P. Ireland and others are alleged to be instrumental in securing the titles to the lands involved.

The cases have been under investigation by federal land agents for three years and various actions have been brought in court. An injunction suit was brought in this United States court at Cheyenne recently by the government asking that the Owl Creek Coal company be restrained from operating coal mines at Gebo, Big Horn county, which are said to be producing 700 tons of coal daily. A temporary restraining order was granted by the court and more than a thousand miners were thrown out of work.

John A. Williams, law examiner of the land office, will hear the cases and Captain George H. Hair, chief of the field division of the land office at Salt Lake, Utah, will act as registrar. About forty witnesses will be summoned, a large part of them from New York City.

GATTLE STAMPEDE IN WRECK

Firemen Killed, Twenty Spectators Injured by Frightened Beasts.

Venice, Ill., Feb. 10.—Fireman G. R. Williams of Bloomington, Ill., was crushed to death; Engineer J. A. Raymond of St. Louis sustained a broken leg and twenty or more spectators were knocked down and trampled on by stampeding cattle, as the result of a head-on collision between two Chicago and Alton freight trains in the railroad yards in this city.

Williams jumped but was caught beneath the engine which rolled down the embankment upon him. Six cars, loaded with steers, also rolled down the bank, killing a score or more of the animals and turning loose more than fifty others. Crazed with fright, the animals stampeded in every direction through a crowd of several hundred persons, many of them women and children, which had collected about the wreck, knocking down scores in their flight.

A riot call was turned in and the police and fire departments, assisted by the sheriff's force, fought off the cattle, killing many of them with sledges and cowing the others with streams of water from fire hose.

NEBRASKA LAND OFFICE MEN

Sanford Parker, Olaf Olsen and Luke M. Bates Reappointed.

Washington, Feb. 10.—Special to The News: The president sent to the senate nominations as follows: Sanford Parker of Nebraska to be receiver of public moneys at O'Neill, Neb.

Olaf Olsen, receiver of land office at Valentine, Neb.

Luke M. Bates, register, Valentine, Neb.

MURDERED TWO FOR \$60

Cleveland Foundry Man, Unable to Win Woman, Kills Her.

Cleveland, Feb. 10.—John Janowski and his bride, found murdered in their beds, died in satisfaction of a debt of \$60. This is the story, the police say, told them by George Boscardo, 29 years old, arrested for their murder. Boscardo said he had loaned the money to Mrs. Janowski to secure her love, but had found himself unable to real-

CONDITION OF THE WEATHER

Forecast for Nebraska.

Temperature for Twenty-four Hours. Maximum 44
Minimum 24
Average 25
Barometer 29.98

Chicago, Feb. 10.—The bulletin issued by the Chicago station of the United States weather bureau gives the forecast for Nebraska as follows: Partly cloudy tonight and Friday; warmer east portion tonight.

ize on the investment, Sunday night he demanded the money and, failing to get it, killed the woman with a section of gas pipe. Janowski succumbed only after a struggle.

For three days the bodies lay in the house, while Boscardo coolly continued his employment at a foundry.

SUGAR OFFICIAL GETS TWO YEARS

DOCK SUPERINTENDENT AT WILLIAMSBURG IS SENTENCED.

TAKEN TO PRISON IN ATLANTA

Oliver Spitzler's Application for Admission to Bail Pending Appeal is Denied—Guilty of Complicity in Underweighing Frauds.

New York, Feb. 10.—Oliver Spitzler, former dock superintendent of the American Sugar Refining company's plant at Williamsburg, was today sentenced to two years in the federal prison at Atlanta, Ga., for his part in the recent extensive sugar underweighing frauds.

Spitzler's application for admission to bail pending appeal was denied and arrangements were made to take him later today to Atlanta to begin serving his term.

BURKETT AIDING GREEKS.

Takes up With State Department Matter of South Omaha Riot.

Washington, Feb. 10.—Special to The News: Senator Burkett at the request of a number of Greeks living in South Omaha, who were more or less damaged during the recent riot in that city, took up with the state department the claims of these Greeks against the government. The senator was informed that the state department had the matter under advisement but had reached no conclusion thereon.

Senator Gamble secured the passage of his bill amending the provisions of the measure opening to white settlement certain lands in the Cheyenne and Standing Rock Indian reservations which increases the amount to be paid to Indians for such lands as may be retained by the state for school purposes from \$1.25 to \$2.50 per acre. The bill prohibits the sale of intoxicating liquors in any portion of the territory proposed to be opened for a period of twenty-five years. Senator Gamble introduced a bill authorizing the secretary of interior to issue a patent to the Lutheran church of Harding, S. D., to forty acres of land in Harding county to be used for cemetery purposes providing the church pays \$1.25 per acre for the same, and also a bill to grant a patent to Buffalo township to forty acres also for cemetery purposes in the same county and same price.

The senate confirmed the nomination of Joseph Krahulik, postmaster at Clarkson, Neb. Captain Alex Sharp, U. S. N., who commanded the battleship Virginia during its cruise around the world, lie in the naval hospital here in a most critical condition and friends fear he cannot recover. Captain Sharp is a nephew of the late President Grant and married, some years ago, Miss Hand, daughter of George H. Hand, of Yankton, S. D. Postmasters appointed: Nebraska—Weeping Water, George H. Olive. South Dakota—Davis, Turney county, Charles Hartsough, vice J. A.

DO YOU WANT NORFOLK TO GROW?

Is there a property owner who doesn't want Norfolk to grow, and outside capital to regard this as a good place for investment? Is there a property owner who can expect outsiders to have faith in Norfolk unless the people of Norfolk, themselves, who have already invested here, have enough confidence in the city to add to their investment by improving the city and their property with paving?

Davis, resigned; Moonville, Stanley county, George A. Staley, vice G. O. Moen, resigned; Mystic, Pennington county, Gertrude Bale, vice J. McLellan, resigned; Rutland, Lake county, John J. Gobar, vice H. W. Gage, resigned.

HEAD OF NAVY BOARD DIES

Captain Sharp Succumbs at Early Morning Hour to Illness.

Washington, Feb. 10.—Captain Alexander Sharp, president of the navy board and recently captain of the battleship Virginia, died at the navy hospital in this city at 3:45 o'clock this morning after about a month's illness from typhoid fever. He was born in Whitehaven, Mo., in 1855 and entered the naval service as a midshipman in 1870.

STILL PROBE BRIBERY CHARGE

MYSTERY AS TO IDENTITY OF TWO LEGISLATORS.

CONGRER CLAIMS IT WAS HOLD-UP

Sensational Testimony Continues in the New York State Legislative Investigation into Bribery Charged Against President Pro-Tem.

Albany, N. Y., Feb. 10.—Hiram G. Moe's ordeal was not over when the senate bribery investigation was resumed today. Moe is the man who says he carried \$6,000 from Frank Conger, vice president of the American Bridge company, and distributed it among three legislative leaders here, including Jotham P. Allis, now president pro-tem of the senate, on April 23, 1901.

Who Are the Other Two?

Mystery as to the identity of the other two legislators is a feature of this investigation which the senate is conducting as a committee of the whole.

One of Allis' lawyers practically admitted today that the cross-examination of Moe was prolonged with the deliberate purpose of holding him over until today.

The purpose of this is clear; until Senator Conger, under compulsion, filed his bill of particulars when the investigation opened Tuesday, the defense was not sure that Moe would testify. He took the stand Tuesday afternoon and related his astounding story. Little time was left in which to investigate his record. Agents of Allis were rushed to Groton, it is supposed, and it was to await their reports that Allis' lawyers wished to keep Moe as their witness until today.

Conger Claims a Hold-up.

The testimony of Senator Ben Conger, who was expected to take the stand when Moe finished, probably will be brief.

Conger and his friends hold that the bridge interests were "held up" by certain legislators and obliged to "deliver." Such a proceeding, they contend, is far different from deliberate "corruption," in which overtures come from the briber.

KENTUCKY BRIBERY CASE ON

Much Bitterness Expected to Develop in the Hearings.

Frankfort, Ky., Feb. 10.—The senate committee chosen to investigate the rumor given voice here before the state Anti-Saloon league by Senator Watkins of Union county, "dry" leader of the senate, that certain members of the upper branch of the Kentucky assembly had been bribed by the liquor interests of the state, began work this morning.

The investigation is expected to provoke much bitterness and it is declared if Watkins fails to produce proof sufficient to substantiate the charges alleged to have been made, his seat in the senate will be declared vacant.

Every newspaper man at the capital, together with members of the senate and house of representatives and a number of outsiders, have been summoned to appear before the committee.

OH, MOST WISE PROFESSOR!

A Harvard Man Rises to the Defense of Corsets.

Cambridge, Mass., Feb. 10.—Dr. W. Lovett qualified today for the chair of corsetry at Harvard, where he already is engaged in the medical department. Another learned professor at the seat of diversified wisdom, Dr. Maynard Ladd, delivered a dissertation on babies, nurses, bottles and scientific feeding of infants, and handed out a few thoughts for Dr. William T. Potter, also a Harvard wise man, on the latter's theory that time and money spent on puny infants had better be devoted to saving strong ones.

The professor of corsetry said a good corset will prevent or cure there

fundamental deformities, bowed backs, flat chest and bulging abdomen, and will correct the weakness and poor carriage due to the distorting pressure of clothes.

Mexican Trainmen Won't Walk Out.

Mexico City, Feb. 10.—There will not be a walk-out of American engineers and conductors in the employ of the national lines of Mexico, the employes and the railways management having agreed upon terms of settlement of their differences. The peace pact was signed at 2:30 o'clock in the office of E. N. Brown, president of the company. Mr. Brown signed the document as the representative of the railroad and committees of engineers and conductors signed for the men. The conductors and engineers are entirely satisfied with the peace terms, which include assurances that the policy of the railroad as recently outlined will be carried out.
