## SAYS TAFT IS IN WITH TRUST

CONGRESSMAN RAINEY BITTERLY DENOUNCES PRESIDENT.

TAFT BROTHER TRUST LAWYER

The American Sugar Refining Company Denounced as "The Most Corrupt and Rotten Trust Ever Created by Protective Tariff System."

Washington, April 14.—In delivering a scathing denunciation of the American Sugar Refining Company, in the house of representatives today Representative Rainey of Illinois did not hesitate to make bold suggestions concerning "that most corrupt and rotten trust ever created by the protective tariff system" and President Taft, Attorney General Wickersham, and Henry W. Taft, brother of the president.

Mr. Rainey referred to President Taft's message sent to congress about a year ago in which the president advised against an investigation of the sugar frauds by congress for the reason that "it might, by giving immunity and otherwise, prove an embarrassment in securing conviction of the guilty parties."

## Maybe Northwestern Directors Don't Realize the Situation

Possibly Northwestern railroad directors don't realize the fact that they're slighting Norfolk by not running trains uptown, as they should. They may not realize that a city has grown up here which is entitled to main line train service. Maybe they don't know how much it would mean to Norfolk.

It was said when the steamer Oceanica, on which he was a passenger, came into port, that Mr. Clemens was confined to his berth, suffering from heart trouble and that he had been indisposed during the entire trip northward.

Mr. Clemens, the sudden death of whose daughter last winter told severely on him, went to Bermuda early in the year in the hope of regaining his health.

## CONFESSES HE KILLED HER

19-Year-Old Boy Admits Murdering Woman While Robbing House.

Richmond, Ind., April 14.—Charles A. Revalee, 19 years old, arrested today, has confessed, according to the police, that he murdered Mrs. Frank Allison near Cambridge City, sixteen miles west of here, on April 6. The alleged confession gave robbery as the motive of the crime and said that Mrs. Allison interrupted Revalee while he was searching for valuables. The house was fired following the murder and the flames attracted neighbors, who rescued the woman's body from the flames.

Mr. Drexel gave his age as 22. He said he was a banker of 812 Walnut street, Philadelphia. Miss Gould said she was 19 years old, daughter of George J. Gould. The wedding is to take place in this city on April 19.

## BIG AEROPLANE IS WRECKED

The Largest Yet Constructed, Comes to Grief in German Laag.

Flau, Germany, April 14.—Major von Parseval's new aeroplane, the largest yet constructed and which early this month underwent successful preliminary trials here, was caught in a violent wind while flying over Lake Plau today, and turning turtle fell into the water.

Enginers Blockmann and Hoff escaped uninjured. They dropped with the machine but succeeded in freeing themselves from the wreckage and were picked up by a passing craft.

Major Von Parseval's invention which came to grief today is a monoplane with a four-cylinder motor of 120 horsepower. It carries 170 pounds of petrol, and was expected to remain in the air three hours. The breadth of the plane is 45 1/2 feet and the length of the machine is 45 feet. It is provided with torpedo-like floats for descending on water and with wheels for a descent on land.

Washington, April 14.—"Ten years hence to be father of ten or twelve children will be as much of a disgrace as being a confirmed drunkard is at present," last night declared Mrs. Larein Helen Baker of Spokane, Wash., a suffragette who will be heard along original lines of thought at the convention of the national women's suffrage association which opens in this city today.

Her studies of children all over the world, she says, had convinced her that "not more than 10 percent of them were children of love and that the other 90 percent were not wanted."

## POPE DENIES THE REPORT

AMERICAN NAMES NOT STRICKEN FROM HIS LIST.

IDEA IS CALLED "RIDICULOUS"

The Vatican Denies the Report Sent Out That on Account of Roosevelt's Action, All American Candidatal Candidates Were Knifed.

Rome, April 14.—The report that the pope had eliminated the names of American candidates from the list of candidates for the cardinalate upon investigation has been found to be erroneous.

It was authoritatively denied today and the idea that such a step had been taken because Theodore Roosevelt did not visit the pope was characterized as ridiculous.

## MAY YET DEPOSE CANNON

Feeling in Congress Again Takes on High Tension Tone.

Washington, April 15.—As a result of Speaker Cannon's speech of last Monday in which he once more defied the insurgent republicans and the ensuing acrid retorts of various leaders of the latter faction in which they promised "to attend to his case later," the situation in the house today, as indicated by many private conferences among the members, was one of considerable tension.

Notwithstanding the fact that a great percentage of them privately discussed during the day the threatened deposition of Speaker Cannon no attempt at such drastic action is expected for the present. Leaders of the insurgent republicans expressed themselves without exception as opposed to any radical move against the speaker until after all administration legislation and other important measures have been disposed of.

There was nothing in the remarks of the democratic members to indicate that there would be any change in the attitude of the minority towards the speakership, as expressed in their recent unanimous vote to declare the chair vacant.

Many democrats prefer to have the issue of "Cannonism" remain in its present status, but on the side of both the democrats and insurgents there was freely expressed the opinion that before adjournment another fight against the speaker will be precipitated.

## INTRIGUE AGAINST AMERICAN

New Ambassador to Mexico Says He's Victim of a Plot There.

Mexico City, April 14.—Henry Lane Wilson, newly arrived American ambassador to Mexico, believes that a plot to embarrass him in the discharge of the duties of his office exists in this city.

He does not venture to name those upon whom his suspicions rest, if he has suspicions as to the identity of those interested, but declares that "in due time the exact character of the intrigue, which is one not only hostile to the embassy but the interests of the American government as well, will be known."

His discovery of the alleged intrigue grew out of the receipt by El Imparcial a leading Spanish daily here, of a New York special recounting the publication in that city of a sensational story under a Mexico City date of an offense which the ambassador is alleged to have given the Mexican people in a recent speech at a banquet given in his honor by the American colony.

Mr. Wilson is said to have succeeded, as has no other diplomat before him, in exciting the Latin blood of Mexico through a historical reference to the empire of Charles V of Spain, which he said enslaved the bodies and souls of the people of two hemispheres in the name of God, and attributing to the Aztec and Tolttec blood in large degree the rise and development of Mexican civilization.

The ambassador's words were criticized editorially by El Correo Espanol, a newspaper of limited circulation among the Spanish residents here, and this was made the basis of the story telegraphed from Mexico City and published in New York. El Imparcial, regarded as particularly the representative publication of Mexico, as well as a number of lesser Mexican dailies, editorially commended the utterances of the new ambassador.

## TAKE THIS, OH YOU ROOSEVELT!

BIG FAMILIES OF CHILDREN ARE A DISGRACE, SHE SAYS.

"T. R., POOR, IGNORANT MAN"

Mrs. Larein Helen Baker of Spokane Goes Down to Washington With Some Ideas of Her Own—"Only 10 Percent of Children are Wanted."

Washington, April 14.—"Ten years hence to be father of ten or twelve children will be as much of a disgrace as being a confirmed drunkard is at present," last night declared Mrs. Larein Helen Baker of Spokane, Wash., a suffragette who will be heard along original lines of thought at the convention of the national women's suffrage association which opens in this city today.

Her studies of children all over the world, she says, had convinced her that "not more than 10 percent of them were children of love and that the other 90 percent were not wanted."

"Roosevelt, poor, ignorant man," she continued, "urges large families but, I tell you, it is quality we want in children and not quantity."

"Woman suffrage will better children, for it will produce better thinking. It is the mental, not the physical, that rules progressive action today and teaches us that the greatest crime of the ages is too many children."

It was authoritatively denied today and the idea that such a step had been taken because Theodore Roosevelt did not visit the pope was characterized as ridiculous.

## BIG FIGHT ON RIVERS BILL

SENATOR BURTON PRESENTS A MINORITY REPORT.

FORERUNNER OF HEATED BATTLE

Senator Burton, Acting Against Pleas of Many Friends, Presents Report Condemning Piecemeal Appropriations—May Ask Taft to Veto.

Washington, April 14.—Disregarding the pleas of many of his associates, Senator Burton of Ohio, chairman of the national waterways committee, who was chairman of the rivers and harbor committee when he served in the house, and who is now a member of the senate committee on commerce, today presented a minority report on the pending bill which would appropriate about \$52,000,000 for the improvement of rivers and harbors.

The character of his opposition, which is a sweeping arraignment of piecemeal appropriations as well as condemnation of many named projects, makes it certain that the contest to be waged over the bill will be one of the most heated in the history of the senate.

The report made by Mr. Burton is designed to attract the attention of the country as well as of congress, as it is said that if his opposition to a majority of those great projects should be unsuccessful there will be launched a movement looking to the veto of the bill by the president.

## Names "Sugar Trust" Men.

The situation in brief is as follows:

"Prominent stockholders and directors of the sugar trust are in grave danger, or at least they were, not long ago; the doors of our penitentiaries were opening for many of them. They have, however, succeeded, through their control of the republican party, in bringing about this most delightful arrangement."

The attorney general of the United States was until his appointment a sugar trust attorney, familiar with the methods of the sugar trust, exhibiting even now a remarkable sympathy for its officials in their difficulties.

The general counsel for the sugar trust is an ex-assistant attorney general of the United States, loyal to the republican party, familiar with the methods and with the secrets of the attorney general's office.

"The brother of the president of the United States is one of the attorneys for the sugar trust."

"J. F. Parsons, the father of the ex-president of the New York County Republican committee, is under indictment on account of his offense against the law in Philadelphia."

"And the president of the United States has advised against a congressional investigation of the sugar trust, for the reason that it might prove embarrassing."
