DAHLMAN CLAIMS 8,000 MARGIN

While Shallenberger Still Claims 1,500 Majority, the Returns Indicate That Dahlman is Safe-Cady Concedes to That Aldrich Has Won.

Omaha, Aug. 18.—The World-Herald mai this afternoon says

"Nine hundred and five precincts give Dahlman 23.171 votes and Shallenberger 20,024 votes in the race for the democratic gubernatorial nomination. Dahlman's lead is 3,147. This States senaor,t Sorenson, 11; Adams, includes Douglas county. A little more than half of the precincts in the state have been heard from, representing Hitchcock, 321. A heavy storm, roads is regarded as the actual beginning of much more than half of the total vote." The Bee prints the following:

tabulated from 817 precincts on the vote cast at the primary election on Tuesday show the following totals on governor:

"Republicans-Aldrich, 11,348; Cady,

"Democrats-Dahlman, 19,036; Shallenberger, 15,050."

Omaha, Aug. 18.-Aldrich claims the state by 10,000 over Cady. Cady, while practically conceding Aldrich's nomination, does not give out any fig-

Dahlman claims the state by 8,000. Shallenberger claims the state by 1,500

Figures received by the Bee and tabulated for 732 precincts on the vote cast at the primary election on Tuesday show the following totals on gov ernor:

Aldrich, 10,612; Cady, 9,694; Dahlman 18,298; Shallenberger, 14,112. Aldrich runs well in the state and

cut down the big lead that was given Cady in Douglas county. He will probably be nominated, but the final figures will not show a widespread difference between the winner and the

Dahlman Seems Safe.

Dahlman went out of Douglas with a big lead, which he increased in Lancaster, and the Shallenberger precincts have not been sufficiently numerous to reduce Dahlman very much. At the rate returns are showing Dahlman is safely ahead.

Burkett is running far ahead Whedon and the others for the endorsement for United States senator by the republicans, and Hitchcock left Reed and Metcalfe far in the rear in the race on the democratic side for the same position.

From David City last night Mr. Aldrich sent word that he had returns which convinced him he would have 10,000 majority over Cady for the republican nomination for governor. Over the long distance telephone from St. Paul, Mr. Cady said he was satisfied with the way the figures were coming in. He made no claims.

Governor Shallenberger gave at Lincoln a statement that he had figures from enough precincts to overcome Dahlman's lead in the big counties, and that he would be named for governor by at least 1,500.

Late last night Chairman Flynn of the Dahlman club said he had received information which assured the Omaha mayor of the democratic nomination: "Our information from men we have had reports from in various counties leads me to claim Dahlman's nomina-

tion by 8,000," said Mr. Flynn. .'Figures received and tabulated here are favorable to the mayor, even in localities where we did not expect much, and at the present rate the mayor will have at least the majority I have named."

Chairman Flynn did not have his figures in shape to give out, he said, but insisted the mayor would come to Douglas county with between 2,500

and 3,000 votes.

The Congressional Races. In the First district William Hayward defeated Tobey for the nomination for congress, even carrying Tobey's home county, Lancaster. Congressman B. A. Narrow Escape From Death. His first descent, a mile from Sittingborne, about thirty-five miles from London, was due to the displacement of a small pin in the mechanism, entailing an immediate descent. He narrowily escaped in the landing, missing the mouth of a deep chalk pit, a fall into which would have meant death for the aviator and his mechanician. Repairs to the machine detained him nearly three hours.

He then made a second start, but had scarcely covered ten miles toward his goal when a second accident brought him down at Rainham, Kent,

Another Accident to Machine. A rod connecting up the driving gear of the aeroplane was fractured, stopping the engine and forcing the Chicagoan to the ground. He landed in a field, but only skillful handling of the aeroplane prevented its plungng into a clump of trees.

Moissant made an abrupt turn to escape the trees and the machine came down heavily, breaking and smashing the blade of the propeller. Moissant and his mechanician climbed out uninjured, but on looking over the damage were of the opinion that repairs could not be made on the spot and must wait for new parts for which they immediately telegraphed to Paris.
