

Again Scalp the Redskins.

The Cherokee Indians were attacked in the eighth inning of their game with Norfolk Monday on the driving park diamond and scalped by a score of 11 to 4.

The game was a good one, with Norfolk having only a little better of it until the eighth, when Norfolk batted all around, bringing in six scores. The Indians then lost hope, but endeavored to rally, hitting the ball but going out one, two, three to the crack Norfolk players who never fumbled.

Kelleher pitched a fine game for Norfolk and was soon the hero of the fans. In one instance he made good a promise to strike several Indians out and got a financial reward from an enthusiastic fan. Gentry for Cherokee was a whirlwind, but with some poor support in the infield, where players left the field on several occasions, threatening to quit because of unnecessary napping on their own part, his work was not as effective as it could have been.

North also featured for Cherokee in a fine running catch of Schelly's fly in the right field. Glissman, Krahn, Landers, Clark and South were also up for honors on the Norfolk side.

Moldenhauer featured for his teammates by a good catch of Hulke's liner. Rumlen, who was put in the catcher's box, was knocked out in the first inning when his right hand was injured by one of Gentry's fast ones. Chauveau, who pitched a beautiful game last Sunday, took Rumlen's place, making good all around. His throws to second and third were clean. Krahn, Landers and South each got a two-bagger. Lenapah and Koplin were the only Indians who had two baggers tagged to their record.

The score by innings: R. H. E. Cherokee 0 0 2 0 0 2 0 0 - 4 4 11 Norfolk 1 0 1 2 0 1 0 6 - 11 14 5 Batteries: Gentry and Rumlen and Chauveau; Kelleher and Glissman.

Carpenters who commenced work of enlarging the George Davis cigar store on Norfolk avenue were suddenly stopped in their operations by Acting Chief of Police O'Brien, who informed the carpenters that the addition to the building, which is a frame one, was in violation of the law, inasmuch as it is in the fire limits and should be made of brick or fireproof material. Parker, chairman of the committee, reports that no one is eligible to participate in the entertainment who is not a Norfolk citizen. Electric Line, Omaha-Norfolk. C. W. Baker, general manager of the Baker Construction company of Omaha, who have the contract for the construction of the electric railroad from Fremont to Omaha for the Nebraska Transportation company (whose officers are unknown, but believed to be financed by European capital) is in the city to get a report of the country between here and Fremont with a view of extending the electric line from Fremont to Norfolk with a branch line running from Clarkson to Madison. A committee of Madison business men, including Mayor Dowling, were at Fremont Monday and reported that the Madison people are satisfied that the proposition is a good one. All Mr. Baker asks is that Norfolk and Madison subscribe \$2,000 each for stock. The European backers are said to finance the entire proposition. According to Mr. Baker the route of the road was first planned to go direct from Fremont to Clarkson, thence to Madison and to Norfolk, but to get a line on the required population and probable freight earnings, the branch had to be made under the orders of the agent for the European interests. Mr. Baker has in his possession a copy of the report made by the agent to the European interests, which includes about 400 pages typewritten and photographs of a proposed line from Omaha to Sioux City. This part of the system does not touch Fremont. When this report is accepted the survey will be made and construction

started, says Mr. Baker. The photograph plan is being used entirely by Mr. Baker's company. Every bit of the road is photographed before any survey whatever is made. Electricity will be the power used to propel the cars, he says. The power house will be constructed between Dodge and Washington counties on the Elkhorn river. Eight million dollars is to be obtained from a bonding house for the entire system, the people not to be asked for anything except to subscribe for a small amount of stock. The line from Fremont to Omaha is to be double tracked. "I won't give out the agent's name, or who the officers of the Nebraska Transportation company are," said Mr. Baker when asked who the European interests were. "This is a corporation and since we have been working on the proposition two railroads have been fighting us hard, so to disclose the names of our European interests would probably do us no good." Mr. Baker held a conference with the directors of the Norfolk Commercial club Tuesday, at their regular meeting at the Oxnard hotel.

Hoxsey was taken to his apartments in an ambulance. A hurried examination failed to disclose any broken bones, but he sustained numerous flesh wounds and was shaken severely. A new machine has been ordered from the factory and Hoxsey is determined to complete the number of flights contracted for.

Tilden 4, Neligh 3.

Neligh, Neb., Sept. 7.—Special to The News: Despite the fact that Routt for Neligh secured sixteen strikeouts in his credit against Tilden at the Riverside park diamond yesterday afternoon, the visitors walked away with the game by a score of 4 to 3. Errors at critical periods of the game, coupled with a few bonehead plays by the home team, was responsible for their defeat. A batting rally in the ninth inning by Neligh at one time looked as if there was a possibility of winning out, but a double play after a score had been made and no base runners in sight, the next batter flew out at first and the agony was over. Score by innings: Tilden.....0 0 1 0 0 3 0 0-4 Neligh.....0 0 0 0 0 0 2 0-3 Batteries: Tilden, Kingdon and Sturart; Neligh, Routt and Kennedy. Struck out: By Kingdon, 11; by Routt, 16. At the close of the first day of school it was found that this year's enrollment of 1,013, including all the six public school buildings of the city, had fallen off by twenty-two, as compared with the enrollment of 1,035 last year, but shows an increase of 11 over the enrollment of two years ago, which reached 1,020 but fell down when 68 transfers were made. Although Superintendent Hunter does not believe this year's enrollment will show the increase over last year that last year did over the preceding one, many students are yet to be enrolled. The normal training class this year is the largest yet, having twenty-five students as compared with twenty-one last year and sixteen two years ago. It is believed this class will grow larger every year. A number of students from South Dakota, Minnesota and others from towns surrounding Norfolk have been enrolled in this class. William Krause is scalded about the limbs and August Ruhlow narrowly escaped being crushed to death Tuesday afternoon when Mr. Ruhlow's threshing engine broke through the bridge spanning the Spring Branch creek at Hoskins. Mr. Ruhlow and William Krause were riding in the engine when they neared the bridge. The remainder of the threshing crew were seated on the separator which was attached to the engine. When about in the middle of the bridge the structure gave away, the engine falling sixteen feet below with its two passengers. Mr. Ruhlow jumped out of danger, returning immediately to pull Krause from under an obstruction. Members of the crew say Mr. Ruhlow's escape was a miracle, his jump saving his life. The separator, which was torn from the engine when the bridge broke, stood tottering on the edge of the pit.

Roseland Review: E. B. Funstan of Racine, Wis., J. G. Funstan of Geddes, and N. McCormick of Platte, were in the city Wednesday and gave out the information that Hamill would have telephone connection with the outside world before snow flies. The above gentlemen represent the corporation known as the Missouri River Telephone company, and they inform us that all arrangements are being made for the extension of their line from Ionia to this point, thence south to Colome. Mr. McCormick informed the writer that work on the line would be rushed, as the company is anxious to have this extension completed and in running order before freezing weather. He thought the line between here and Ionia would be completed in thirty or forty days. A News want ad will get it for you.
