BALLOON MEN SAFE

PASSENGERS IN AMERICA II ARE WELL AND HAPPY.

THEY HOLD NEW CHAMPIONSHIP

Messrs. Hawley and Post, for Whom Grave Alarm Had Been Felt, Landed After Forty-six Hours in the Air. Sailed 1,600 Miles.

Chicot, Neb., Oct. 27.—Alan R. Hawley and Augustus Post, the new holders of the world's championship, showed little ill effect today from the thrilling experiences which have been theirs since they left St. Louis nine days ago in the America II. They were fatigued but the trip had been thoroughly worth while, they said.

"Tell our friends that we are well and very, very happy," was the message which they sent from their room in the small hotel which is the boast of the 5,000 inhabitants of Chicoutimi.

The two aeronauts reached here at 10 o'clock last night and retired shortly before midnight—as soon after their arrival as they could get away from the crowd of welcoming and congratulating citizens. They had driven forty miles over the rough country from St. Ambrose since the early afternoon and were "tired to the bone," as one of them expressed it. A flood of telegraphic messages from the United States which awaited them on their arrival went unanswered, and for the most part unread until morning.

Their night's rest was bound to be brief at the best, for their train over the Quebec and Lake St. John was scheduled to leave at 7:10 in the morning and if they missed this they must wait until evening.

Bath Tub Welcome Slight.
Both airmen agreed that the most welcome sight in all Chicoutimi on their arrival was the bath tub in their rooms at the hotel. This was a luxury which they had been denied for nine days and every one of the nine days had been spent arduously. Four of the nights had been passed out of doors, with the hard ground for a bed and their army blankets for a cover.

Their balloon, the America II, is left at Lake Du Rance De Sable, this being the title of the township where they landed. It is believed that Joseph Pednaud and Joseph Simard, the two trappers who brought the balloonists in a bark canoe to St. Ambrose, will go back and see what can be done to get the big bag from its cache on the side of the mountain to the railroad here. This will not be an easy task.

In Air 46 Hours.
Messrs. Hawley and Post landed about forty-six hours after their departure from St. Louis. The balloon basket touched earth at 3:25 o'clock on the afternoon of the 27th. They probably flew in all about 1,600 miles, although the direct distance between the two points on which the international race is decided is only 1,355 miles. This would make their average rate of progress about thirty-five miles an hour.

Leaving here this morning Messrs. Hawley and Post will reach Quebec shortly before 6 o'clock this evening.

New York to Welcome Them.
New York, Oct. 27.—A grand welcome homecoming is planned today for Alan R. Hawley and August Post, the balloonists who broke all records in the America II, and until last evening were thought to be drowned in one of the great lakes or to have perished in the wilds of Canada. A dispatch from Hawley at St. Ambrose, Saguenay, reported that they landed safely 1,355 miles from St. Louis, the starting point. They will reach here Monday or Tuesday. Cortland Field Bishop, president of the Aero Club of America, said today:

"The splendid feat of these men deserves the welcome we will give them. It will be the largest celebration of its kind in New York or any other place in the country has ever seen. A big dinner is already being arranged. Every available room in the city will remain to welcome the returning champions of the air."

Balloonists Wire Friends.
New York, Oct. 27.—Alan R. Hawley and Augustus Post, the aeronauts of the balloon America II, for whom search has been made in the Canadian wilds, are safe and have established a new world's record for sustained flight. They traveled approximately 1,355 miles and came to earth in Chicoutimi county, Quebec, on Wednesday last, but were not heard from until yesterday, when telegrams sent from St. Ambrose, Quebec, reached New York.

The balloonists started with the other contestants in the international contest, whose balloons have all been reported. Two messages from Hawley and Post were received in New York last night. One was to William Hawley, brother of the aeronaut. The other was to Samuel P. Perkins, pilot of the balloon Dusseldorf II, which until last night had been considered the world's record. The message to Mr. Hawley read:

"I landed in wilderness week ago fifty miles north of Chicoutimi. Both well."

The Perkins message read:

"I landed Paribonka river, north Lake

The distance 1,355 is subject only to confirmation by the war department.

THE FREIGHT RATE HARBING

Omaha Commercial Club Secretary Gives His Opinion on Raise.

Chicago, Oct. 27.—The shippers who oppose prospective freight rate advances attacked certain valuations placed on their property by railroad witnesses when E. J. McVann, manager of the traffic bureau of the Omaha Commercial club, took the stand before the interstate commerce commission today.

The witness ruthlessly reduced the valuation of \$3,300,000 placed on the Burlington road's terminal property by General Manager Ward of the railroad at Omaha. The assessed value of the terminals, the witness stated, was \$831,205. "This," continued Mr. McVann, "is about 25 percent less than the actual value which makes the latter about \$1,000,000. I found that the railroads in Omaha paid about 50 percent more than the actual value of land so that Mr. Ward's estimate would have to be cut in two to give the correct value of the terminal lands."

The witness declared that similar conditions exist at St. Paul, Minneapolis and Duluth.

After discussing the items of gross profit, the percentage of supply cars hauled by the roads and the increased minimum carload weight, Mr. McVann gave his opinion of the proposed increased freight rates.

"It is my honest opinion," he said, "that the increases will not add to the revenue of the railway, but will decrease their revenue by its effect on business in a stoppage of the movement of goods."

A GLADSTONE UNDER ARREST

GRANDSON OF FAMOUS BRITISH PREMIER IS DETAINED.

HAS RUN AWAY FROM HARVARD

A Motor Car and Golf Caused the Young Englishman to Flunk in Mathematics, so He Quit School and Was Going West to Work on Ranch.

St. Louis, Oct. 27.—Gilbert E. Gladstone, who says he is a son of Viscount Herbert Gladstone, governor general of Africa, is being held here at the request of police of the District of Columbia. It is charged there, according to a telegram, that he used cameras and had not paid for them. The young man said he is a grandson of the former premier of England, William E. Gladstone. He bears a partial resemblance to the pictures of the former English leader. His father, he said, is now in South Africa.

"I put in two years at Harvard," said Gladstone, "and flunked on mathematics. A motor car and golf caused me to fall in my studies and when I saw that I would have to go over my second year again, I quit and went to Washington."

"My arrest, I believe, was caused to get me to go back to my studies. My allowance of \$100 a month has been held up by my banker, of Boston, because I quit my studies. I told the shopkeeper in Washington that I had no money but that I expected to get some and he told me to take the cameras. I intend to go west to work on a ranch."

Gladstone, who is 19 years old, is quite brokenhearted over his detention by the police. His clothes of English tweed were made in England and bear his name. He arrived here a week ago with \$70 and since then has borrowed a small amount from a broker.

DAKOTA BANKER SUED.

James S. Parker of Pukwana Defendant in Breach of Promise Case.

Sioux Falls, S. D., Oct. 27.—James S. Sanborn, a prominent banker of Pukwana, S. D., has been made defendant in a breach of promise suit which has been instituted in the United States court in this city by Miss Ella R. Bay of Menominee, Mich., where she is prominent socially and in business circles.

The plaintiff asks that she be awarded damages in the sum of \$75,000 against the defendant. She alleges that after she had been courted for a period of four years by the defendant, during which time they were engaged to be married, he without any cause violated his pledge to marry her and now has become engaged to another woman.

At the time of the alleged engagement between the plaintiff and defendant the plaintiff was manager of a lumber company at Menominee, which was said to be the largest concern of the kind in Michigan, and was receiving a salary of \$5,000 per year—this being one of the largest salaries paid to a woman in the United States. After becoming engaged to the defendant she resigned this position, and thus figures that she is out \$20,000, or \$5,000 per year during the four years that the alleged engagement between herself and the defendant existed.

In addition she alleges that she expended more than \$2,000 of her own money in the defendant's business. Three various amounts are included in the total damages which she seeks to recover.

It is expected the case will be tried during the term of United States court which now is in session in this city, with Judge John E. Carland presiding. During the trial the plaintiff will be represented by Joe Kerby, a Sioux Falls attorney, while the defendant will be represented by ex-Senator A. B. Klittridge, also of Sioux Falls.

H. R. Sanborn, a brother of the defendant, was formerly superintendent of Dakota lines of the Northwestern with headquarters at Huron.
