

## OUR FLAG INSULTED

STARS AND STRIPES ARE SPAT UPON IN MEXICO.

WHILE THE POLICE LOOK ON

An Anti-American Demonstration in Mexico Became an International Affair When the American Flag Was Torn to Shreds.

Mexico, Nov. 10.—There has been no further outbreak of anti-American rioting in Mexico City. The authorities have taken measures for the maintenance of order and Felix Diaz, chief of police, announced today he would proceed against any further disorders with vigor. A total of 217 persons are in jail, having been arrested during the disturbances of yesterday.

**Would Boycott Americans.**  
El Pals today makes a suggestion that a boycott be instituted against American goods and stores employing Americans, and publishes a call for a mass meeting next Sunday for the purpose of drafting a form of boycott and arranging for its circulation.

The Diario Del Hogar prints a cartoon showing the Mexican public clubbing Uncle Sam.

San Antonio, Tex., Nov. 10.—Advises received here from Laredo state that rioters in Mexico City today had attempted the life of United States Ambassador Wilson.

Washington, Nov. 10.—Official dispatches giving details of the anti-American demonstration yesterday in Mexico City reached the state department today from United States Ambassador Wilson and Arnold Franklin, the American consul general. Mr. Wilson confirmed the press reports. The department is awaiting further advice from Mr. Wilson before taking any action in the matter.

Mexico City, Nov. 10.—Through insults to the American flag and assaults made openly upon American citizens in the streets, the anti-American demonstration which began Tuesday night with the stoning of the Mexican Herald offices, developed yesterday afternoon into an affair of international importance.

A vigorous protest was registered by the American ambassador with the Mexican department of foreign relations and at the same time the facts were telegraphed to Washington and instructions asked for.

Last night the attacks were renewed. Windows in a dozen American business places were smashed. All about town shutters were hurriedly drawn and establishments closed. A force of police appeared in the streets and kept the crowds moving.

An attack was made on the plant El Imparcial and the mailing and distributing departments on the ground floor were completely wrecked. The mob battered at the heavy doors leading to the editorial and composing rooms above with heavy timbers and fired the wreckage. Then the mounted police charged with drawn swords. One of the attackers was run through and killed. The others fled. An alarm turned in from the offices of the paper brought the fire department to the scene before the flames gained headway.

While the police looked on and seemingly made no effort to prevent it, an American flag floating in front of a candy store in the business district was torn down by a crowd of students and others, trampled and spat upon and torn to bits. Later photographs of the crowd were taken before the offices of the Diario Del Hogar, a Mexican newspaper, with many individuals waving bits of the tattered banner.

The demonstration was caused by antipathy among the people to the burning at the stake of Antonio Rodriguez at Rock Springs, Texas, on the night of November 3. Publication of the violent attacks by some papers tended to further incense the medical students.

**Yankees are Called Names.**  
The Dario Del Hogar was particularly violent in expressions of animosity toward the people of the United States, characterizing them as "giants of the dollar; pignions of culture and barbarous whites of the north," and asking "where is the boasted yankee civilization?"

Shortly before noon the crowds assembled before the new Juarez monument in the Alameda and proceeded to the municipal palace where several who were arrested were being examined by the authorities. A company of mounted police followed.

From the palace the students marched through Avenida San Francis, the principal thoroughfare, stopping in front of the candy store where the flag incident occurred.

The gathering increased and marched to the offices of the department of foreign relations making demonstrations on the way against American business places and breaking windows in the San Francis avenue. Jack Davis, an automobile repair man, had a hand-to-hand encounter with a dozen members of the crowd when they attempted to tear the top from his automobile and enter his establishment. He knocked several of them to the pavement and drove them from his place. At the head of Juarez avenue, around the famous statue of the Iron

Horse, speeches were made denouncing all Americans and passing street car conveying school children to the American school was stoned.

**American Children Hurt.**  
One child was struck and severely injured. Windows of the car were shattered. Among others who were assaulted were the son of Ambassador Wilson and William Marshall, an employee of the National railway, was hit on the head with a stone. In the progress of the riots students about the city, Governor Landa Y Escalona of the federal district, Chief of Police, Felix Diaz and Joaquin Cusaus, former ambassador to the United States, followed in automobiles. At the municipal palace Governor Landa addressed words of approval of the students' protest, but cautioned them against violence.

Ambassador Wilson in his note to the foreign office declared the occurrence as a disgrace to the Mexican people and expressed surprise that inasmuch as his office had warning in advance of the demonstrations, the Mexican authorities had none or, having it, took no action. Foreign Minister Creel said every effort would be made to punish those guilty of offering insult to the flag.

## TAFT SAILS FOR PANAMA

THE PRESIDENT GOES TO SEE THINGS FOR HIMSELF.

TO BE ON ISTHMS FOUR DAYS

Many Legislative Problems Have Arisen in Connection With the Panama Canal Business and the President Wants Information First Hand.

Charleston, S. C., Nov. 10.—President Taft sailed today for the Isthmus of Panama to get in personal touch with conditions along the big canal. Mr. Taft visited the isthmus just before his inauguration in 1909, but since then various executive and engineering problems have arisen and congress soon must frame legislation as to rates, the form of government, the regulation of the sale of coal, the disposition of the Panama railroad and many other things. The president expects to make various recommendations regarding the canal at the coming short session of congress.

Mr. Taft sailed on the armored cruiser Tennessee, with the cruiser Montana as convoy. While officially rated as cruisers, these vessels have the general proportions of the battleships of a few years ago, although they could not stand up very long against the modern dreadnaughts. Both cruisers have a speed of twenty-two knots and will make the trip to Colon in four days. Mr. Taft expects to be on the Isthmus four days and is due back in Charleston November 22. He will stop over a few hours in Richmond on the 23rd and be back in Washington that afternoon.

The president's special squadron is under the command of Rear Admiral Staunton, with the Tennessee as flagship. Admiral Staunton, Captain Quimby of the Montana and Rear Admiral Fox, commanding the Charleston navy yard, were at the depot to greet the president when he arrived this morning. The president and members of his party were driven to the home of Mayor Rhett for breakfast. Later the president reviewed groups of white and colored school children.

Mr. Taft went aboard the Tennessee's launch at the custom house wharf. As he made his way up the starboard gangway of the big gray cruiser, his flag was run up and he was received with a ruffe of drums. A blare of trumpets and all the ceremonies were accorded the chief of the American armed forces.

The president is making a business trip to Panama and is accompanied only by his brother, Charles P. Taft, Secretary Norton, two aides, a physician and a stenographer.

## N. Y. STRIKE IS WORSE

CHAUFFEURS ON A BUS LINE JOIN THE RANKS.

250 COAL WAGON DRIVERS OUT

Express Business in the Metropolis is at a Standstill—Something Over 13,000 Men Now on Strike—Clash of Authority Imminent.

New York, Nov. 10.—Possibilities of a clash today between state and federal authorities over the express strike complications intensified the developments of warfare between men and companies. A hint of state arbitration was the only peace note sounded.

The seizure under Mayor Gaynor's authority of express company wagons driven by unlicensed drivers, offered an opening which, it was believed, the companies would speedily take advantage of to bring matters to a head. It was intimated that the process of injunction would be invoked by them to prevent further seizures.

Besides nearly 10,000 drivers and helpers of the express companies and delivery concerns, between 2,000 and 3,000 taxicab drivers are on strike.

Express business is virtually at a standstill. No discrimination against the union is insisted on by the strikers and the latter declare their efforts to secure arbitration have been balked by the refusal of the companies to negotiate with them on this basis.

A general strike of teamsters in sympathy with the men now out is still imminent, but there seemed to be a disposition to await today's developments and possibly those of tomorrow before taking steps toward effecting a general tie-up.

The first move to tie up passenger transportation lines since the strike started occurred this morning when sixty-two chauffeurs of the Fifth avenue Clach company, which operates the line of motor buses on Fifth avenue and Riverside drive, went out on strike.

Simultaneously there was an important accession to the strikers' ranks when 250 drivers of one of the big coal companies struck.

## SIXTY-FOUR DEAD IN MINE

ONE NEW YORKER HAS WAGONLOAD OF HATE AND CIGARS—\$1,000,000 BET.

New York, Nov. 10.—It was the day for cashing in on election bets and one Tammany election captain hired an express wagon—a union express wagon—to do it. When he had made the rounds he had a full load of new hats and boxes of cigars.

Down town in the financial district along the curb, on "chance and uptown in "Peacock alley," and the hotel corridors it is estimated that fully \$1,000,000 changed hands. One broker is said to have handled \$350,000. Fred Brooks, the old time betting commissioner, says he placed \$250,000. Another broker made \$5,000 in commissions and \$20,000 in backing his own judgment. Oddly enough the heaviest individual loss reported fell on a man who bet on Dix but lost on his plurality at 75,000 or better.

### WASHINGTON WOMEN TO VOTE

130,000 Given Ballot by Election—Prohibition Forces Gain.

Seattle, Nov. 10.—As far as known only one county in Washington voted democratic in the congressional election. The plurality of republican candidates for supreme judge is estimated at 40,000 as against 47,371 for Taft in 1908.

The most interesting result of the election is the ratification of the woman suffrage amendment to the state constitution. The amendment will become law as soon as the governor proclaims it ratified. Every county thus far reported gave a majority for the amendment. The socialist vote was probably about 4,000.

The liquor business fared ill in the elections. Besides carrying the large cities of Bellingham and Everett and a dozen other towns in the northwestern counties, the "drys" of Wenatchee, the seat of Chelan county, doubled their former majority and Dayton, the seat of Columbia county, multiplied its "dry" majority by more than five.

Two new county seats were won from the saloons—Mount Vernon, in Skagit county and Shelton in Mason county. Mason is a timber county and the big logging companies worked strenuously for prohibition. The state Anti-Saloon League announced that all five of Washington's new delegation in congress are pledged in writing to vote for an amendment to the interstate commerce law which will forbid the carrying of liquor from one state into another which has a statute against such importation.

Mrs. Emma Smith Devo, president of the State Equal Suffrage association, issued a proclamation setting apart Thursday, November 24, as a day of thanksgiving for the newly enfranchised women of Washington. At least 130,000 women will be added to the electorate in Washington by the ratification of the equal suffrage amendment to the constitution.

### Sad Death of Engineer.

The coal mines for miles around sent their men to aid in the work and fresh men caught up the tools of those exhausted. When he gave up his oxygen helmet to one of the rescued men he told his companions he felt so strong he was confident he could await their return. They wandered away from the room where they left him in search of other missing men. He was found unconscious and dying in an abandoned chamber.

## STATE TICKET NOW IN DOUBT

ALDRICH ELECTION CONCEDED, BALANCE UNDECIDED.

BOTH SIDES CLAIM VICTORY

It Will Require Further Returns to Indicate Which Party Has Won the State Ticket Below Office of Governor in Nebraska.

Omaha, Neb. Nov. 10.—Chester H. Aldrich is now conceding the governorship by from 15,000 to 20,000. The World-Herald, however, declares this afternoon that the rest of the democratic ticket has been elected by from 5,000 to 8,000. The Bee, on the other hand, says the entire republican state ticket has been elected. It probably will require further returns to decide on the election of state offices below governor.

Omaha, Nov. 10.—The World-Herald has gathered returns which give Congressman Hitchcock a clear majority in both houses of the state legislature. These figures follow:  
House—republicans 44, democrats 56.  
Senate—republicans 12, democrats 21.

Of the membership of the next legislature ninety-two, including thirty-two republicans, have signed what is known as "statement No. 1" which pledges the signer to vote for the candidate receiving a majority of the popular vote for United States senator. Should all the republicans who signed the statement add their strength to the democratic majority Hitchcock will receive 109 out of the 133 votes of the members of the two bodies on joint ballot.

**French is Elected.**

Burton L. French is elected congressman in Idaho. Mrs. French was formerly Miss Winnifred Hartley, a Norfolk high school teacher.

### May Never Seat Hooper.

Nashville, Tenn., Nov. 10.—According to returns received from ninety of the ninety-six counties of the state, the fusion democrats and republicans have forty-nine members in the lower house of the legislature against fifty-one for the regular democrats. The regular democrats appear to have the state by a small majority. They claim Hooper will never be seated.

### A Big Turkish Loan.

Berlin, Nov. 10.—The Deutsche bank is at the head of a syndicate of all the principal German and Austrian banks, including the Rothschilds, which will take the Turkish loan of \$7,000,000, approximately \$31,500,000. The price is \$4 with interest at 4 percent. The loan will be secured by the customs revenues at Constantinople. Germany secured the Ottoman loan out of the failure of negotiations with Great Britain and France. The loan is desired chiefly for development of Turkish territory and army and navy.

### To Re-elect Senator Carter.

Helena, Mont., Nov. 10.—Late returns indicate that Montana's next legislature will be divided politically on joint ballot as follows: Republicans, 53; democrats, 49. It is possible that these figures may be changed. United States Senator Carter will probably be his own successor.

### FIREMEN GET TOGETHER.

Such harmony marked the meeting of the Norfolk fire department in the city hall Wednesday night that a roll call was taken to which each member answered in the affirmative that he was a member of good standing; was proud to belong to the Volunteer Fire department and that nothing but harmony and enthusiasm in the department would be a by-word.

Notwithstanding the fact that the last entertainment given by the firemen was not a complete financial success, the firemen made it plain that in January when they are scheduled to give another first class entertainment in the Auditorium, they would work solidly to make it a success. When the bill showing the loss of the entertainment was read, there were no disheartened words on the part of the fire fighters, who declared "next time it will be a success."

The hook and ladder company received much praise from members of the hose companies for the work at fires and their thorough company organization.

L. V. Kenerson, manager of the firemen's ball team, reported that the team had completed its season satisfactorily for a first-year team, and although the proposition was not a financial winner, no money was lost by the team. The ball suits are in good condition and all other paraphernalia is in shape for next year.

The Northwestern railroad company and H. E. Hardy were given a hearty vote of thanks by the firemen for their money rewards of \$50 and \$25 respectively for the work done by the firemen at a fire at the Junction and one at Mr. Hardy's barn some time ago.

A big surprise is promised to the firemen at their next meeting by Fire Chief Green and other officers of the department, who will not divulge the nature of the surprise. It is hoped every member of the department will be present.
