Crazy Man Still Out.

After being at large for over a week, the escaped insane patient who has been terrorizing women and children in Norfolk for the past three days, is still uncaptured. Police are at a loss to find means by which the man can be captured. The police declare they have searched all over the city for the man but have been unable to find him. Only last night one man reported to Night Watchman Livingston that he saw the fugitive on Norfolk avenue.

Three days ago six telephone calls came to the police from the vicinity of Eleventh street and Nebraska avenue, calling for protection from the half-naked creature who was terrifying everybody in the neighborhood. The officers walked up into that quarter of the town, found dozens of people who

had just seen the insane man, but were unable to locate him.

Since then reports have come from many parts of town but by the time the police arrive, the man is not to be found.

The man is an escaped patient from the state insane hospital here.

Baseball Hits an Auto Driver.

A Pfeil of Hoskins was painfully injured Friday evening when he was hit by a ball thrown by one of several traveling men playing catch on Fifth street between Madison and Norfolk avenues. Pfeil was going south on Fifth street in his automobile when one of the players threw the ball, thinking to throw it over the machine. The ball struck Pfeil on the right side of the nose, just below the eye, making an ugly wound.

The car was stopped by a companion and Pfeil was taken to the corner of Fifth street and Madison avenue in an unconscious condition. He lost much blood. It required about an hour's work on the part of men in the crowd and a physician who arrived later, to put Pfeil in condition to return home.

Pfeil is one of the twenty Hoskins boosters who arrived here Friday evening with five automobiles to advertise the Hoskins Fourth of July celebration. The boosters visited Winside, Carroll, Sholes, Pierce, Hadar and Norfolk. The trip was featured with unlucky occurrences, three blowouts and, the most serious, the injury to Mr. Pfeil. The roads were very good. The boosters were by Pilot Peter Kautz and R. G. Rohrke.

Ill Famed Woman Dies in a Resort.

Mrs. Vashlie Best, commonly known as "Hazel" Best, wife of Eugene Best, died in a resort in the east part of the city early yesterday morning from the effects of blood poisoning. The sister of Mrs. Best arrived from Des Moines Friday and the remains were taken to that city for interment. Before death, it is said, Mrs. Best made a will, leaving all her money, about \$2,000 to her sister, Mr. and Mrs. Best have not lived together for over a year.

With the death of the woman, there is one indictment which was returned by the recent grand jury, which will not be answered, Mrs. Best being one of the owners of resorts who were indicted by the grand jury at Madison not long ago. Mrs. Best was 39 years old and had maintained a resort here for a number of years.

The remains were brought from the resort early Friday morning to the Sessions & Bell undertaking parlors. The only visitor was Sadie Doherty, a colored woman living in this city. She brought the only flowers which were placed on the casket.

Fish Are Stranded in This Vicinity.

Fremont Tribune: J. L. O'Brien, superintendent of the state fish hatcheries, passed through Fremont in the fish car enroute to Norfolk where he expects to save several hundred pickerel and other fish from an untimely death. When the Elkhorn went down after high water it left many fish stranded in pools on the sandbars and in shallow water. The pools are rapidly drying up. Mr. O'Brien will gather up the pickerel and take them to Wood Lake.

Mr. O'Brien says many violations of the fish laws are being committed daily in eastern Nebraska. In the western part of the state the lakes are so full of moss and aquatic plants that dragnets cannot be used. In the eastern part of the state, however, the carp keep the lakes practically free from plant growth and men who desire to use seines in violation of the law have an easy time of it.

Norfolk-Yankton Project Bobs Up.

Sloux City, Ia., June 30.—The annual revival of the railroad to the south out of Yankton has received its impetus by the arrival of C. S. Cleaver of Chicago, in Yankton, where he has set up his office. Not content with building one road at a time, Mr. Cleaver has given it out that he will also set up an office in Sloux Falls from which point he will in his odd moments build a little railroad to Sloux City.

Mr. Cleaver is little known to Yankton people, and whether he has railroad backing has not been given out. He claims to have purchased the rights of W. W. Graham to the old Yankton & Norfolk railroad, a project that has been often attempted and is often abandoned. It involves the bridging of the Missouri river. Sloux City railroad officials are not informed as to any new project to build a line between the two Sloux towns.

Schools Open on September 5.

J. J. Thomas of Lincoln, who taught school at Geneva last year, was elected as principal of the Norfolk high school for next year. Miss Margaret Gilberson of Weeping Water was elected a teacher for departmental work.

Because Labor Day comes on Monday, the board decided to open the fall term of school the first Tuesday in September.

Sees Need of a Park.

Norfolk, July 1.—Editor News: Much has been said recently of the necessity of the city's acquiring grounds for a public park. Probably the great majority of our people would like to see this, if it can be done without very heavy expense, but nothing more than talk has developed from the agitation of the matter so far. Now it would seem that it is not a very difficult nor expensive undertaking, as ample authority is conferred by law upon the city to acquire by purchase or condemnation lands for this purpose. If our people are anxious for a public park they can easily get one.

The city is empowered to acquire lands for parks on public grounds and to improve the same, and to raise money therefor by issuing bonds not exceeding \$10,000 in amount whenever given the power to do so by a majority vote of the electors of the city at a general or special election called for that purpose.

Now any of our citizens who would like to see this done can start it going by obtaining and presenting to the city council a petition asking for the election to vote such amount as may be deemed necessary, not exceeding \$10,000, and I doubt not the council will readily submit the question whenever such petition, signed by a respectable number of the voters is presented, and the expense of such election should not deter as it will be very small.

After the money is thus raised there is provision in the law for the appointment by the judges of the district court of park commissioners, consisting of three persons, resident freeholders of the city, who shall have charge of purchasing and improving the grounds, or if thought best park commission need not be called for, but the matter left with the city council to manage. After this is done and grounds appropriated for the purpose have been selected, the same can be purchased, but if the owner is not disposed to sell on reasonable terms, the city may condemn and appropriate it. Lands thus taken for park purposes shall first be valued by the appraisement of three disinterested freeholders of the city and the value or amount thus fixed by the board of appraisers if approved by the city council, shall be deposited with the city treasurer for the owner, and the city may then take possession of and improve the same. As has been shown it is not a difficult matter nor need it be an expensive one for the city to acquire grounds for park purposes, for if bonds are voted to the limit the interest on \$10,000 4 1/2 percent bonds would require a levy or an assessment sufficient to not only pay the interest but provide a sinking fund for the redemption of bonds at maturity, so that those who want to see parks provided by the city for the public have only to get a move on themselves and need not wait for the public authorities or anybody else to start it. A Citizen.

The Norfolk Commercial club is at present working on a petition looking to the voting of bonds for a city park. The petition is now being circulated.

Another Carrier for the City.

R. E. Truex of St. Louis has been transferred from the St. Louis post-office to be carrier for the Norfolk postoffice. Mr. Truex is busy today getting acquainted with the streets of the city. Mr. Truex brought with him to Norfolk his wife and two children. Postmaster Hays says that the post-office department has found that they have too many carriers at some cities and is transferring them to points where they are short of help. With the addition of one more city carrier to Norfolk, the city is being restricted.

There have been three carrier districts heretofore and there will now be four.

As soon as Edgewater citizens are prepared for city delivery, in the way of crossings and sidewalks, Postmaster Hays says the city delivery will be extended to that portion of the city. The patrons of the new service will have mail boxes at a convenient place before they will be served.

Gold Attacks Anti-Gift Law.

Lincoln, July 1.—Applying for an injunction against the enforcement of the Housch anti-free gift enterprise measure passed at the last session of the legislature, William Gold of this city made the first attack on an enactment of the 1911 session in the federal court here. The assault on the measure comes from Gold because of its inclusion of trading stamps in the list of enterprises prohibited for the gain of trade.

The provision of the new law states that "any gift promise, stated or implied to give or bestow or in any manner to hold out the promise of a gift or bestowal of any article or thing, for or in consideration of the purchase by any persons of any article or thing."

Gold recites in his petition that he entered a contract with Sperry & Hutchinson of New Jersey for the installation of their advertising system in his store and that he paid them for the use of their scheme so much per thousand stamps. The complainant charges that the bill was enacted because of the support of other merchants who did not favor the use of the trade attraction scheme by their rivals. Further he says that it is class legislation and that many people through the fear of accepting the stamps since the passage of the Housch bill have ceased to take them and that thereby he has lost trade, all of which he contends is in violation of the Fourteenth amendment to the federal constitution.

A temporary restraining order against Attorney General Martin has been issued by Judge Munger of the federal court, but it cannot be served until Mr. Martin returns to Lincoln.

Already Planning for the Land Rush.

Already President Killian of the Norfolk Commercial club is taking steps toward providing for the tens of thousands of visitors who will pass through this city during the first three weeks of October on account of the South Dakota land rush, of which Norfolk will be the gateway.

The Commercial club will work in conjunction with local hotels on a plan to provide hundreds of cots in large halls available in the city so that the city's guests may find lodging while they are here. During the two preceding rushes hundreds of people walked the streets at night in Norfolk, being unable to find places to sleep. The Commercial club intends to guard against a repetition of this condition of affairs during the coming rush.

Plans are also being made to distribute booklets telling all about Norfolk and asking the travelers to stop off and inspect this city.

Recommends 2 1/2-Cent Fare.

Sioux Falls, July 1.—That South Dakotans are entitled to a 2 1/2-cent passenger rate law, though a straight 2-cent law at this time would work a hardship on the railroad companies, is the finding of John H. Gates, special master in the case of the Chicago Northwestern railway against the state.

The special master takes direct issue with Judge Sanborn in his decision on the Minnesota rate cases.

The report of Mr. Gates will be given to Judge Elliott of the South Dakota federal court, who will render a decision in accordance.

An appeal by the railroads is expected.

In taking exception to the methods used by Judge Sanborn in reaching his verdict in the Minnesota cases, Mr. Gates holds that the expense basis and not the gross earnings method is the practical way of determining how low a rate railroads can work under and still make a reasonable profit on their investment. Under the gross earnings method railroads are now earning 6 1/2 percent profit.

Roads of the state are now operating under a 2-cent fare. The decision involves the 2 1/2-cent rate laws passed by the legislature in 1909.

Hastings, Neb., July 1.—Walter S. Brunson, alias Alfred L. Young, night ticket agent of the Union Pacific and St. Joseph & Grand Island railroads in Grand Island, was bound over to the district court yesterday on his plea of guilty to the charge of bigamy in the marriage of Miss Jessie Riddle, of this city on June 2. Columbus Child Burns to Death.

Columbus, Neb., July 1.—Frankie, the 3 1/2-year-old son of Edward Glenn, was burned to death in a fire that destroyed his father's barn yesterday afternoon. For some time the boys had been using the barn in which to play show and it is probable that the careless handling of matches was responsible for the blaze. The barn was burned to the ground before the fate of the boy was known, he being discovered by the firemen, his parents not being aware of the fact that he was in the building. He was lying on a pile of coal and indications are that he dropped from the hay mow of the barn.

FIND FOR SOME CLUB.

Joe Jackson Says His Brother is a Phenomenal Player.

Joe Jackson, the Cleveland American crack outfielder, offers a free tip to the "greatest ball player I know," and he says the club that can shackle the man will land the best man in the bush leagues.

"The man I'm talking of," said Jackson, "is my brother Dave, but he will not leave Carolina. He can do everything I do. I think he hits the ball harder. He likes the south, and I don't think he will leave, no matter how much money they offer him. I don't pose as a judge of ball players, but Dave is a better player than I am, and the club that can coax him away from home will land a wonder."
