### MOST CERTAIN WAY TO END A BAD COLD

#### SURELY BREAKS THE COLD AND ENDS GRIPPE MISERY IN A FEW HOURS.

It is a positive fact that a dose of Pape's Cold Compound taken every two hours until three consecutive doses are taken will cure Grippe or break up the most severe cold, either in the head, chest, back, stomach or limbs.

You distinctly feel the cold breaking and all the disagreeable grippe symptoms leaving after the very first dose. It promptly ends the most miserable headache, dullness, head and nose stuffed up, feverishness, sneezing, sore throat, running of the nose, mucous catarrhal discharges, soreness, stiffness and rheumatic twinges.

Pape's Cold Compound is the result of three years' research at a cost of more than fifty thousand dollars, and contains no quinine, which we have conclusively demonstrated is not effective in the treatment of colds or grippe.

Take this harmless Compound as directed, with the knowledge that there is no other medicine made anywhere else in the world, which will cure your cold or end Grippe misery as promptly and without any other assistance or bad after-effects as a 25-cent package of Pape's Cold Compound, which any druggist in the world can supply.

#### WALTERS TO PENITENTIARY.

Sioux Falls Grain Man Must Serve One Year for Trying to Kill.  
Sioux Falls, S. D., Nov. 24.—J. G. Walters, formerly engaged in the grain commission business here, and a resident of Minneapolis prior to coming to Sioux Falls, appeared before Judge Jones and entered a plea of guilty to the charge of assault with a dangerous weapon, which grew out of his attempt a few months ago to shoot and kill a young woman who formerly had been employed by him as a stenographer. Judge Jones sentenced him to one year in the Sioux Falls penitentiary. Since his arrest on the morning following the attempt on the young woman's life, Walters had been in the county jail. After being sentenced he collapsed and sank to the floor in a fainting condition, but was revived in a few minutes.

### BANK OF ENGLAND NOTES.

Always Fresh and Clean, as They Are Issued Only Once.

There is as great a difference between the systems of issuing and redeeming the notes of the Bank of England and of the banks of the United States as there is in the appearance of the notes themselves.

The English note is somewhat longer and much broader than ours, is of rough white paper, with ragged edges, and is printed on one side only, with a few words and with no pictures or designs, while ours are completely covered on both sides with vignette and intricate work.

Our notes are issued again and again until they become so worn that they are no longer serviceable. A Bank of England note is never issued more than once. Every note that comes in is canceled at once, and then it is stored away with other canceled notes to be preserved for a certain period, when it is destroyed by burning.

It takes many clerks to keep the record of notes issued and paid, and so accurately is this work done that the date when any note was issued, the person receiving it, the time when it was paid into the bank and by whom, can be ascertained from the books. If the time was within five years the note itself can be produced. "Many are the stories of attempts to counterfeit these notes, which have always been failures. As the average time between the issue and the payment of the notes is only five or six days the fact that a counterfeit is in circulation is known almost at once, and the system of English bankers and merchants of keeping the numbers of the notes received and paid gives the clue whereby the offender is quickly apprehended.—Exchange.

#### Sioux Falls Hermit Dead.

Sioux Falls, S. D., Nov. 24.—An eccentric character, known as "Old Man" Berry, and who lived a hermit life for some time in the hills north-west of the city, until removed to the county poor farm, died at the poor farm. So far as known he never told anyone where he came from, and therefore nothing is known of his relatives. Before his health failed he was a familiar sight on the streets of Sioux Falls, and was noted chiefly for his odd appearance and the fact that he had a trained sheep that followed him around like a dog.

"There could be no better medicine than Chamberlain's Cough Remedy. My children were all sick with whooping cough. One of them was in bed, had a high fever and was coughing up blood. I am forty-five years old, and am the mother of thirteen children. ## Woman's Happiness

The highest point of woman's happiness is reached only through motherhood, in the clasping of her child within her arms. Yet the mother-to-be is often fearful of nature's ordeal and shirks from the suffering incident to its consummation. But for nature's ills and discomforts nature provides remedies, and in Mother's Friend is to be found a medicine of great value to every expectant mother. It is an oily emulsion for external application, composed of ingredients which act with beneficial and soothing effect on those portions of the system involved. It is intended to prepare the system for the crisis, and thus relieve, in great part, the suffering through which the mother usually passes. The regular use of Mother's Friend will repay any mother in the comfort it affords before, and the helpful restoration to health and strength it brings about after baby comes.
