TUESDAY TOPICS.

M. D. Tvler went to Madison. G. W. Evans has gone to Lincoln on

business. ner are here visiting with Mrs. G. Granel.

Mrs. Joseph Clements returned from the convention city. a two weeks' visit with her daughter at Newport.

Carl Lentz of Idaho, formerly of this city, is here visiting with F. W. thence to Germany where he will visit.

Born, to Mr. and Mrs. Emil Braun, daughter.

Horn, to Mr. and Mrs. William Feldhabn, a son.

Born, to Mr. and Mrs. Albert Bran-

denburg, a son. There will be no meeting of the Ma

somic lodge this evening. Mrs. August Raasch celebrated her birthday Monday. Many of her children were present to help celebrate. Water Commissioner Frank Carrick

reports that the total number of frozen meters will reach from fifteen to twenty. These meters were frozen during the last two weeks. Mrs. Robert Utter writes from Tex-

as to her son, Oliver Utter, that just a few hours before she reached home the family dwelling house took fire and burned, destroying all the contents. Mrs. Utter had been visiting in Norfolk for several months.

The official map of Madison county recently completed by the city engineer has been destroyed and must be re-drawn. The map was sent to Kansas City printers recently but in expressing it from Norfolk to that city

it was ruined, says the city engineer. Dr. P. H. Brush returned from Hos kins Monday afternoon after a wild experience in the country between that town and Norfolk. The physician was called to a farm house near Hoskins and after being stalled by snowdrifts several times he decided to spend the

night at Hoskins. Owing to the serious illness of his son at Lincoln, Judge A. A. Welch adjourned district court at Madison Thesday noon and left for the state capital. His son is suffering from typhoid fever and has been removed to a hospital. This week was to have been given over to a jury term of

court. Major Phelps of Lincoln will be one of the principal speakers at the banquet of the Norfolk Spanish war veterans, who have arranged to meet in the Pilger vineyard at 8 o'clock Thursday night. All the old time militia men of Norfolk and those who were members of the Norfolk volunteers are scheduled to be present at this ban-

"Married men telling tales out of school and the high cost of living," says one Norfolk minister. "Is the cause of the slackness in the work of cupid and weddings. There have been practically no wedings, comparatively speaking, this year," he says. I am about to figure out another side line. Married men telling the troubles of married life I really believe is one of the causes of so little matrimony during the past year in Norfolk."

Would Wrestle Pavelka.

Wrestler Davis of Sioux City was here visiting with "Red" Henderson. Davis wants to make connections with "Ben" Pavelka of Verdigre and expects to go to that city to meet the Bohemian wrestler. Davis is a husky looker and Ben can expect a good time with him if the two men ever meet.

Would Fight Gene Sullivan. "Tommy" Whaley of 2723 Capitol avenue. Omaha, is persistent in his challenges to all lightweight fighters in northeast Nebraska. "I have challenged some of the fighters around Norfolk but I have not heard from them," writes Whaley to the sporting editor of The News. "I am now open to meet any 124 to 126 pound man in the state, but I would give away ten pounds barring no one, to get a fight, Gene Sullivan of O'Neill preferred."

West Point Waking Up.

West Point, Neb., Jan. 16.-The leading merchants of West Point have at last waked up to the fact that printers' ink, judiciously and freely used, is a very profitable proposition. They have joined forces and have inaugurated a joint clearance sale to be continued for one week commencing on Monday, and have filled the local papers with some excellent advertising matter. Thousands of dollars are annually sent to the mail order houses by the people of this vicinity which the merchants think can be just as profitably spent at home. To this end they have inaugurated the clearance sale, the first of its kind ever attempted in the city.

Rayner Speaks on Peace. Washington, Jan. 16.-The senate today considered teh pending arbitrathen treaties with France and Great Britain on motion of Senator Lodge. Senator Rayner of Maryland spoke.

Would Lose Money.

New York, Jan. 16.-Clarence H. Mackay, president of the Postal Telegraph company, said that if the government took over the telegraph lines of the country as is desired by Postthe investment would be unprofitable. ciating. He said the cost would be enormous, be carried out as long as there was competition in the telegraph business.

Here's a Real "Good Fellow."

"I read in The News that there are some people in Norfolk that are suffering for the want of coal; we don't want to have anything like this in Norfolk and if there are such people,

will pay for the coal." This is a statement made to G. B. Salter, of the Salter Coal and Grain company, by a "real" good fellow who refuses to have his name made public.

The "good fellow" has left orders at the Salter office to furnish coal to any family which is really suffering for

the want of fuel. "We will certainly carry out his orders," says Mr. Salter, "but it really is a hard task placed in our hands, for the reason that there will be some difficulty in determining which families are in real need of this coal.

Since the report in The News that several families have been suffering or want of food and fuel, there have been many "good fellows" who quickly responded to the call for assist-

Notwithstanding the fact that the Norfolk board of charities is almost a hing of the past, President C. B. Durand of that organization made it known recently that there still remained a little money in the treasury and that the organization was doing little charity work quietly. County Commissioner Burr Taft, too, has been on the watch continually for distressed families and with the assistance of such "good fellows" as above mentioned, Norfolk's poor are indeed well cared for.

Northwestern To The Rescue. The Northwestern railroad has also answered the call for "good fellows" and President C. B. Durland of the board of charities believes he is now in a position to secure work for the needy men. The railroad company has notified Mr. Durland that through him they may be able to find employment for men who really need it.

Snowball Campaign Is On.

The snowball campaign for the completion of the Norfolk Y. M. C. A. is now on in full blast. Assistant Secre tary T. C. Marsh of the state Y. M. C. A. is in Norfolk assisting the commit tee in its work. A meeting of the executive committee was in session at 4 o'clock in the offices of Mapes & Hazen, and at this meeting further plans for the campaign were arranged Members of the committee declare that the enthusiasm for the comple tion of the building has not weakened and they believed that the campaign should result in the securing of a beautiful place for recreation and sports for both the young and older

men of Norfolk. "If we could duplicate the pledge: of those who pledged small amounts, at the last campaign," says one of the committee, "we would be assured the final completion of this beautiful

building. "Many of those who made smaller pledges at the last campaign have made it known that they are willing to duplicate their pleages."

Mrs. Thomas W. Ward.

The old time friends of Mrs. Thomas W. Ward learn with deep regret that she passed away at her home in Carpenteria on the afternoon of Jap. 5 She had been very frail for several years.

Mr. and Mrs. Ward were members of the little band of pioneers who or ganized the first English speaking

church in Norfolk. Memory will love to recall the sweet faced gentle woman, who so bravely bore the hardships of the early days. She was always forgetful of her own discomfort in trying to make life

easier for less fortunate ones. Not every heroic soul has the gen ius for sympathy, that is not limited to feeling, but manifests itself in belp ful uplifting acts.

It is not too much to say that in the death of Mrs. Ward a rare and beautiful spirit has been called home.

Mrs. Otto Sellin.

Mrs. Otto Sellin, 30 years old, died at the Gustav Loebus residence, Ma- charge of the First reserve hospital ple and Paddock avenue, in Edgewater addition at 6 o'clock Monday surgeons very seldom operate for rifle evening. Pyphoid pneumonia was the cause of death. Besides the husband seven children, the youngest 5 weeks old, survive her. Next summer's meeting of the Elkbe held in Fremont on a date to be determined upon by the new officers through his instrumentality a hospital of that organization, who were elected fully equipped and the equal of any at the fifteenth annual meeting held in the Lyric theater Tuesday afternoon. One of the new features of the next meeting will be the lecture by some noted medico from the east or possibly from Europe and this plan has also been left with the new officers. Besides the employment of a lecturer, the association's treasury has grown sufficiently to justify a salary for the secretary and he is now on a regular pay roll. Because of the short time

allowed them, the smoker planned by

the physicians was not enjoyed and

immediately after adjournment at 5

o'clock Tuesday evening there was a rush for the trains and by 6 o'clock most of them were out of the city. The meeting was called to order at 2:30 Tuesday afternoon and during the short session every part of the human chest was discussed with the aid of interesting papers and stereop

tical illustrations. Starting with the "common cold." which was declared by Dr. Peters to be as important as any other ailment, the chest diseases were maintained as the general topic of discussion.

Have a Cold? Stop Kissing. If you have a cold in the head stop kissing; sleep alone; use individual towls; don't fondle children and stop overeating, are just a few of the words of advice handed out by Dr. Peters who in his paper on "Common Colds" declared that the average individual time lost in Boston in one year was over six months, just from "common colds.

"The cold in the head has been grossly neglected," said Dr. Peters. There are many cures for this ailment. I tell my patients not to blow their noses. If they must do it, I tell them to do it as little as possible." The blowing of the nose in case of a cold in the head brings on too much pressure. 'Let the glands rest and become normal," he says.

Dr. A. C. Stokes, of Omaha, the newly elected president, talked on all kinds of operations for lung trouble. Dr. A. Sachs of Omaha does not enourage the use of antitoxin in bronchial asthma, on which subject he read paper. "Many deaths have occurred rom the use of antitoxin in connecion with bronchial asthma," said Dr.

People who suffer from hay fever, when around horses, said the physi cian, do not suffer from it when ground dogs, cats and other animals,

Disease of Tonsils Came Back. J. M. Patton of Omaha talked on diseased tonsils and declared that he has seen a number of cases where patients have returned after an operation for tonsils and reported that the tonsils which were supposed to have been removed, had returned. Dr. Patton prefers the use of ether to chloroform in operations for tonsils. Some physicians, he said, use their fingers or a specially made knife to remove them, but he used scissors. The removing of tousils from the throats of singers, he declared, would

not affect the voice of the singer. Dr. F. A. Long of Madison talked on "Empyena," and for operations for this disease he declared chloroform was best as an anesthetic.

Since coming to Alliance, Father Mc-Namara was instrumental in the erection of a splendid brick and stone church costing \$25,000, which was dedicated last November. He caused to be erected a large Catholic academy norn Valley Medical Association will that has been in successful operation more than a year. Besides this, outside of the city of Omaha has been erected here.

During his two years at Benson, Father McNamara succeeded in freeing the church there of a \$40,000 debt. He also raised the debt on the orphanage at Omaha.

Father John McNamara, now of Bloomfield, formerly assistant to Father Walsh at Norfolk, is a cousin.

Mander Minot Johnson.

Clay Center, Neb., Jan. 17.-Mander Minot Johnson, owner of the largest incubator factory in the world, locat ed here, died at Idaho Springs, Colo., of pulmonary trouble. Harry Johnson, his son, is going to Idaho Springs to return with the body. The funeral will probably be held Thursday.

Beemer Man Ends His Life. Beemer, Neb., Jan. 17.-Special to The News: Charles Dovle took his life with a shot gun yesterday.

Doyle, who was in the employment of Charles Toelle sawing lumber. came to dinner with the rest of the men at noon. He refused to sit down to dinner and passed through the kitchen out the back door. Unnoticed by any one he picked up the shot gwn from the pantry. After dinner Doyle was found dead in an empty stall, lying partly on one side, his head resting on the barn sill. From his position, he probably sat down, pressed the gun muzzle against his breast with one hand and used a stick to discharge it. The only wound was a jagged hole

in the chest. Doyle leaves a wife and one child a little girl of 3. He is a man of 25. and married about four years. Domestic trouble had separated him from his wife and child, who were at home with her mother, Mrs. Lebbs, of this place. His parents reside in Omaha, where he married. His wife was working there at that time.

Doyle has been drinking quite heavily of late, and was Monday mixed up in a drunken row, in which he severely beat a man and was roughly handled by others.

Threat of Unionists Against Churchill Causes Caustic Comment. Dublin, Ireland, Jan. 17. - The threat of the Ulster unionists to prevent the holding of a meeting at Belfast on Feb. 8, at which Winston Spencer Churchill, first lord of the admiralty.

ally make caustic comment on the unionist threat. The Dublin Independent says the unionists are allowed to speak in Dublin without fear of molestation, while the Freeman's Journal says that the Belfast dve hands are out against Mr. Churchill, whose de partment provides the inhabitants of the city with much of their occupation, and that the men of Belfast are to be goaded into outrage against the chief of their industry. The chief referred to, Lord Pierrie, who is chairman of the Harland & Wolff Ship Building
