**Near Side Stop**

In conformity with the recent order of the Nebraska State Railway Commission, all street cars of this Company, operating in Nebraska, will, on and after SUNDAY, MARCH 3, 1918, stop, for receiving and discharging passengers, only on the near side of street intersections, on all paved streets excepting at regularly-used branch-offs.

At such branch-offs, cars will stop at the far side going in one direction, and at the near side going in the opposite direction, as shown in the diagram below.

At every such point conspicuous signs will hang on the span wire, between tracks, to indicate where cars will stop.

The reason for this deviation from the near side stop is to avoid delay to following cars which would result if cars stopped on the near side at these branch-offs.

On all unpaved streets, cars will continue to stop on the far side so that passengers can both enter and leave car without tramping through mud.

Remember, NEAR SIDE on all paved streets unless SIGN indicates the contrary.
