Mr. Clyde Malone, one of Lincoln's prominent young men, and also the president of the local branch of the National Association for the Advancement of Colored People, will leave Thursday for the officers' training camp at Camp Pike, Ark.

Mr. Malone is one young man who will be greatly missed by each and everyone who knew him. He has been an ardent worker in church affairs and has ever proven himself an efficient worker in whatever task that was put before him. It is our only hope that he will return as one of our ablest generals.

Clyde has always been known to be a promoter of peace and if there is anyone who will go over the top in this crisis he will be the one.

Mr. Clyde Malone was entertained by the members of Lebanon Lodge Tuesday evening previous to his departure to the officers' training camp.

About seventy-five guests were present last Wednesday evening at the reception given by Miss Flossie Patrick, complimentary to Mr. and Mrs. James A. Patrick.

After an evening of much merriment the guests departed for their homes, wishing the happy couple many years of success and happiness. Many beautiful, yet serviceable gifts were received. Mr. and Mrs. Patrick will reside in Lincoln.

The out-of-town guests who were present at the reception given in honor of Mr. and Mrs. J. A. Patrick were Mrs. Bragg of Omaha, Mr. Bert Patrick of Omaha, and Mr. and Mrs. William Patrick of Aurora.

COLORED TROOPS ROUT GERMAN FOE

(Continued from Page One.)

full of interesting facts and greatly inspired the vast audience.

The message brought by Captain Spingarn and eloquently accentuated by Dr. Roman of Nashville, Tenn., who also elicited unstinted applause from the audience that filled Fitzgerald's Auditorium, in which most of the sessions were held, was one fraught with facts of vital import to the race and nation.

It was clearly demonstrated at this session that the mantle of the illustrious Dr. Washington has fallen upon Dr. R. R. Moton, principal of Tuskegee institute. Every time that he spoke he was given the kind of ovation which showed that his leadership is appreciated by the masses of the race and leaders of the race from every section of the country.

Hon. Emmett J. Scott, in beginning the symposium on "Winning the War," made one of the best patriotic addresses that has been delivered in this city. Throughout his memorable address he reached his vast audience and aroused a kind of enthusiasm that is needed for the winning of the war.

Mr. Scott in his report called attention to the fact that in the first registration 737,626 Negroes were registered out of a total of 9,586,506; that is to say 7.69 per cent of the total registration of June 5, 1917, was composed of Colored men called by the Provost Marshal General's office up to and including July 15, 1918, was 227,541, while the total number called to August 8, 1918, was 311,308.

He spoke in detail of what the Colored people of the country are doing to help win the war, mentioning among other things that some forty Colored chaplains are now serving in the National Army along with one thousand Colored officers who have been commissioned as captains, first and second lieutenants in the United States Army and in the Medical Reserve Corps.

War for Liberty.

In his address he said the Negro in the present war for liberty and worldwide democracy was proving to be a noble and inspiring figure. The recent exhibition of independent valor on the part of Negroes in France served to bring anew to the people of this country and the world at large the worth of the Negro as a factor in the productive and protective forces of the republic.

Two divisions of Negro troops are now in France with eight combat regiments to be trained in various cantonments in the country. He called attention to the authorization by the War Department of the Colored Red Cross Nurses and spoke of the opportunities that are being provided for the technical training of Colored men in many institutions of learning.

Among the many distinguished speakers and visitors were Judge Robt. Terrell, Dr. George E. Haynes, Director of Negro Economics of the Department of Labor; Mrs. Booker T. Washington, A. U. Craig, of the Food Administration; T. M. Campbell, District Agent of the Extension Work in Albania; Dr. J. W. E. Bowens, Prof. W. T. B. Williams, C. C. Spaulding, and a number of Bishops and Major J. T. Tandy, the noted architect.

LA GRANGE, TEXAS

Professors I. C. and W. P. Palmer and their sisters, Misses Virgie and Laona, were in town during the week. Prof. Prince, Oakland, spent a day here last week.

SECURITY LEAGUE AROUSES PUBLIC SCHOOL SYSTEM

Its Great Campaign of "Patriotism Through Education" Being Pushed in All States With Signal Success.

The great campaign of "Patriotism Through Education," inaugurated several months ago by the National Security League to arouse the people of the country to a realization of the true meanings of the war and at the same time lay the foundations for a permanent system of patriotic education in the public schools, has now been extended into nearly every state in the Union. The League is rapidly completing arrangements, through the various organized educational agencies of the country, by means of which its message of militant patriotism will be carried into every nook and corner of the land.

This effort of the National Security League, which has the indorsement of all the leading American educational authorities and has enlisted the active cooperation of educators of prominence in every part of the country, is being promoted under the direction of a notable committee, headed by Dr. Robert M. McElroy of the Department of History and Politics in Princeton University, who is serving as Educational Director of the National Security League under leave of absence. Mrs. Thomas J. Preston, Jr. (formerly Mrs. Grover Cleveland), is Secretary of the committee.

The Security League's objective is, in addition to giving exact information on the meanings of the war and its causes, to create a more responsive American citizenship through the medium of better methods of permanent patriotic instruction in the public schools.

Twenty-eight Tons of Literature.

In order to reach the greatest number of public school teachers direct, the League conducted classes in patriotic education and distributed its literature giving practical suggestions on patriotic instruction at 254 of the principal Summer Schools for Teachers throughout the country during the past few weeks. The literature distributed by the League as the result of the work at these schools has reached a bulk of 28 tons. The League estimates that it obtained immediate contact with approximately 200,000 public school teachers, who will carry the message home to classes totalling over 2,500,000 pupils.

The Security League is now preparing to follow up these results with a definite plan of organized promotion among the Teachers' Institutes held in the various states every fall and unified direction of the spreading of the propaganda in the separate states. The methods followed in the different states vary according to local conditions and facilities. In some states the direct co-operation of the State Departments of Education has already been obtained by the Security League. In other states the propaganda is handled through the County Superintendents, State Universities and by sending workers into the state from the headquarters of the League.

Some of the more prominent educators of the country who are actively engaged in the promotion of the Security League's idea are:

Dr. C. A. Richmond, President of Union College; Albert Shields, Superintendent of Schools of Los Angeles; Dr. M. F. Libby, of the University of Colorado; Dr. Liberty Hyde Bailey, arboricultural and horticultural expert and author.

Examples of Operation.

An example of the operation of the plan under state supervision is given in Minnesota, where State Superintendent of Education Schulz prepared the itinerary to be followed by Dr. William A. Frayer, of the University of Michigan, in charge of the work in that state for the Security League. In Colorado Dr. Libby found it more effective and convenient to work directly with the County Superintendents, but this with the heartiest approval of the State Superintendent and the Governor.

An important division of the campaign is being devoted to negro teachers and schools. Among the men who have been conducting the patriotic missionary work in this field for the Security League are: Dr. Holland Thompson, of the College of the City of New York; Dr. L. B. Moore, Dean of Howard University; Dr. Isaac J. Lansing, of Ridgewood, N. J.; Dr. M. S. Davage, President of Samuel Houston College. They have delivered patriotic addresses and conducted actual classes for teachers in the Negro Summer Schools of Virginia, North Carolina, Alabama, Mississippi, Louisiana and Texas. Dean Moore, himself a negro, has obtained the organization of more than 400 patriotic education classes among negro adults in Louisiana and Mississippi.

Laboratory Experiments.

The Security League also has in operation at Lawrence, Mass., in co-operation with the local educational authorities, an Experimental School, at which methods of patriotic instruction are being worked out on the laboratory plan. The League is about to establish a similar school under the auspices of the State Department of Education of California at Los Angeles.

COLORED YANK CAPTURES HUN MAJOR

Paris, Sept. 7.—In the neighborhood of Chateau-Thierry Dr. C. C. Burlingame, assistant chief surgeon of the American Red Cross, saw a Negro soldier marching proudly behind a German major. He had transferred his pack to the major's back and the major's monocle to his own eye. As he passed the surgeon the Negro called out: "Look yere, cap'n, whut dis yere nigger done got!"

(If this soldier was from away down South he probably used the language attributed to him, but if he hailed from another section he probably used as good English as the reporter who sends this interesting story. The average American reporter has the faculty of attempting to

put Southern dialect in the mouth of every Colored American. This Yank made a good capture.—Ed)
