**THE N. A. A. C. P.**

The N. A. A. C. P. forum met at St. Philip's Episcopal church Sunday afternoon at 4 o'clock, the president presiding. A special committee, consisting of J. D. Crum, C. E. Young and Mrs. W. W. Peebles, was appointed to visit certain places where such signs as "Colored Patronage Not Desired" are displayed and request their removal, as they are breeders of an adverse sentiment. It was believed that a courteous request for their removal would be sufficient. In the event that such request is ineffectual other methods will be employed.

A special committee, consisting of C. C. Galloway and M. F. Singleton, was appointed to act with Amos P. Scruggs, chairman and at present only member of the legal committee, to investigate the case of Albert Jackson, charged with shooting Roy Teeters, and to take such emergency action as the case might merit, the president to act with the committee.

The next meeting will be held Sunday afternoon at St. John's A. M. E. church. Everybody, come out.

The young detective was enthusiastic but inexperienced. Rushing into his chief's office in great excitement he cried: "I've found the assassin! I've got him cornered so that he can't escape!" The chief regarded him with withering scorn. "Allow me," he said, "to draw your attention to the fact that at present we are looking—not for the assassin, but for clues."—Judge.

**Earthquakes in Italy.**

Statistics gathered in Italy throw some light on the question of the relative frequency of earthquakes by day and by night. It has been alleged that the supposed greater frequency of nocturnal quakes is only apparent, being due to the fact that quiet conditions at night make the shocks more readily perceptible. It appears, however, that considering only those shocks which were so intense that they could not have escaped notice at any hour, 865 occurred during the 12 night hours.

**High Operating Expenses  
Increase Telephone Rates  
Telephone Revenue Must Cover Operating Expenses**

Your business will fail unless you take in enough money to pay your expenses.

So will any other business.

The necessity for enough revenue in any business to pay operating expenses needs no explanation.

For several years the cost of providing telephone service has been advancing with the increasing cost of material to the telephone company and the higher living expenses of employees.

Everyone realizes the necessity of paying more for rent, for food, for clothing, for wages and for transportation.

The telephone industry has been affected by the same conditions which have produced higher prices in all of the necessities of life.

If this Company is to continue to furnish dependable telephone service to the public it must obtain such rates as will produce a revenue sufficient to cover the cost of providing the service.
